Stock Market Excited—Receiver Appointed.

NEW YORK, 19.—To day the stock market was excited over reports that the Panama R. R. Co. had chartered the White Star line of steamers, and this stock, which closed heavy on Saturday at 1.28, rose this p.m. to 1.42.

A bill in equity was, some days since, filed in the U. S. Circuit Court before Judge Shipman, by Jay Cooke and others, as complainants, against the Northern Pacific Railroad Co., asking the appointment of a receiver; Judge Shipman has granted the order, appointing the Hon. G. W. Cass receiver, providing that he file a bond in the sum of $100,000, for the faithful discharge of his duties.

The Way to be Opened Soon.

OMAHA, 19.—With the present favorable prospects General Superintendent Clark of the U. P. R. R. hopes to be able to start delayed trains to the breaks and make the transfer by teams in about 24 hours. The water continues to fall in small streams, and everything looks very favorable to an early opening of the road. A large number of teams have been brought to the breaks, and are ready to transfer passengers as soon as trains reach there. The weather continues clear and warm along the entire road, and the passengers seem to appreciate the situation of affairs, knowing that everything is being done within human power to get them through.

California Responds First.

WASHINGTON, 19.—In reply to the circular letter of the chief of ordnance of the U. S. army, addressed to the Governors of the different States, asking for a statement as to the portion of arms, equipments, &c., now in the possession of the States, furnished them to aid in suppressing the rebellion, and which stands charged against them, the Govr. of California is first to respond. California is now indebted to the U. S. on the above account $184,000. The statement of the Governor shows that there is now in possession of the State authorities guns, equipments, &c., amounting to $200,000, which leaves a balance to the credit of the State of $16,000. There seems to be no doubt in the minds of the authorities here that the U. S. will be indebted to the State of California more than $25,000, for which new arms of the most approved pattern are to be furnished the State at a cost of about $18 each. The instructions sent to the commander of the Benicia Arsenal contemplates the speedy informal settlement of this question, on the basis of the statement furnished the ordnance department by the Governor.

The Life Saving Service.

Under the provisions of the act of Congress approved June, 20, '74, an officer of the revenue marine service recently visited the coast of Florida, and selected locations for the erection of five houses of refuge on th t coast, in connection with the life saving service. Sites for stations on the coasts of Lakes Michigan, Superior, Huron, Erie and Ontario have been selected and approved, and stations will be built this summer. An officer of the revenue marine service will visit the Pacific coast for the purpose of selecting sites for stations on the coast at or near the following points: Humboldt Bay, Point Reyes, California, Point Conception, Washington Territory, and on the coast of Oregon at or near Cape Avaso. It is expected that the Pacific coast stations will be completed before the end of the present year.

$500,000 Damage.

CHARLESTON, S. C., 19.—There was a heavy frost here last evening, which caused great damage to the cotton and other crops; the loss is estimated at $500,000.

More Mexican Raiders.

GALVESTON, TEX., 19.—A special dispatch from Corpus Christi says that a band of thirty-five or forty Mexicans are reported to be robbing and burning houses between Brownsville and Santa Gertrude. All communication by telegraph is cut off from Brownsville. Firing was heard at Bareges last night, eight miles beyond Santa Gertrude. A courier reached here last night calling for help, and alarm bells were rung. Captains Clark and Culver have started to meet the raiders.

Another Political Crisis.

NEW ORLEANS, 19.—Much discussion and some excitement was produced in political circles to-day by a report, which proves to be true, that the conservatives' caucus resolved to seat in the House Charles Delhommer and Felix Voorhies, of St. Martin, O. L. Collins of St. Helena, and G. H. Burkhardt of the 7th Ward, New Orleans, all democrats. Who were declared elected by the returning board in place of Martin, Rochon, Florie, and Richards, republicans, who were seated in the House after the withdrawal of Wiltz and his followers in January. The conservatives contend that all the conservatives returned by the board were, under the award, to be seated, while the republicans contend that these four men were not to be disturbed. Marshal Packard said, today, that if the four republicans were ousted the Senate would adjourn for three days and, if at the end of that time, they were not readmitted, the Senate would adjourn *sine die*. The seating of these men will give the conservatives a majority on the joint ballot. Another political crisis is imminent, as there seems to be no doubt about the seating of these conservative members to-morrow or Wednesday.

Damage by Frost.

EUFALA, Ala., 19.—A heavy frost prevailed here yesterday, and continues to-day. About one-half of the cotton crop is up, and has been killed. There is considerable ice in this section.

Severe Cold Spell.

DANVILLE, Va., 19.—The cold spell has destroyed nearly all the fruit and damaged the tobacco considerably.

The Fruit Killed.

RICHMOND, Va., 19. — Reports have been received from all the fruit growing sections between here and Greensboro; fruits of all kinds have been killed by the cold spell, and the tobacco crop has suffered severely.

FOREIGN.

GREAT BRITAIN.

The Seizure Question.

LONDON, 19.—In the House of Commons to-night, in reply to a question by Mr. O'Reilly, member for Longford county, Disraeli said that Prince Bismarck, as long ago as Jan., 1874, made a suggestion that England should join Prussia in the strong remonstrance the latter was compelled to make to Belgium, against what he (Bismarck) described as a conspiracy of the Ultramontanes and Jesuit refugees, against the peace of Germany. Earl Granville, then minister of foreign affairs, replied that he hoped Bismarck would not press Belgium to go beyond the limits of her constitutional institutions.

In the House of Lords Earl Russell asked Lord Derby whether the Prussian-Belgian correspondence was terminated, and whether there was any reason to fear that the peace of Europe would be endangered thereby. Derby replied that the text of Prussia's first note fully justified Disraeli in pronouncing it not a menace but a remonstrance. He had the assurance of the German ambassador, which a hasty examination had given no reason to doubt, that the second Prussian note was conceived in a very friendly spirit, and it would be premature to express an opinion on the merits of the question, as England had not been applied to at present. He anticipated the result of the controversy without uneasiness. The British government values the independence of Belgium and the peace of Europe, and was happy to think that neither was in danger.

The select committee on foreign relations has reported to the House of Commons, that the documents which appeared in the *Times* and *News* were published by permission of the chairman.

The second German note to Belgium will be published to-morrow. It expresses regret at Belgium's refusal to comply with Germany's wishes, and continues that the Belgium government is best aware of parliamentary difficulties in the way of compliance, but it must at the same time be convinced that the first thing to be done is to recognize the necessity of affording more redress, whereas an examination into the difficulties is of secondary importance, the consideration of means to prevent intrigues against neighboring states interests equally all the powers that strive for general peace and good relations; and it is to be hoped that Belgium will follow the example of Germany, and obtain an alteration of her laws, thus giving fresh proof of the value she attaches to good relations with Germany. Should this effort fail, the public view of the question will nevertheless be declared, and an understanding will be brought about between all interested states. Germany has not sought to interfere with Belgium's international affairs, her object has been to prevent foreign interference in her own. The note concludes with reference to the special obligations Belgium is under to neighboring powers on account of her neutral position.

Manning Seriously Ill.

LONDON, 20.—Cardinal Manning is very ill, his nervous system being prostrated; his physicians consider his illness serious.

PRUSSIA.

Will Support Prussia—Passed.

BERLIN, 20.—The *National Gazette* asserts that Austria and Russia will support Germany in her demands on Belgium.

The lower house of the Prussian Diet has passed the bill abrogating those clause of the constitution which allow the independent administration of ecclesiastical affairs, the unimpeded intercourse of religious societies with their superiors, and the freedom of clerical appointments.

A GREAT ENGINEERING WORK, the only one of the kind in France, is about to be executed at Lyons. It is that of an iron bridge to connect the plateau of Fourvieres with that of the Croix-Rousse, which are two heights like that of Montmartre in Paris, at a distance of 300 metres from each other. This undertaking is estimated to cost 2,000,000 francs, of which a subvention of 600,000 only is asked from the city. This aerial bridge will consist of three spans, the central one of 135 metres, and the two others of 70 metres each, resting on open iron columns in a line with the houses on the quays. The platform of the bridge will be 65 metres above the road, and nearly 50 metres above the houses. Each of the two central columns will have inside of it by which pedestrians will be raised in two minutes, at a charge of ten centimes, to the top whence they may reach the highest parts of the city, where they may have fine views. The only similar works existing in Europe are the Britannia tubular bridge in England, constructed by Robert Stephenson in 1847, and consisting of one span of 500 feet, and two smaller ones; that over the Conway, by the same engineer, of a stretch of 400 feet, and the bridge of Dirschau, in Prussia, which has six sections of 129 metres each.—*Ex.*
