Papers sent to subscribers by mail have the names stamped upon them, with figures opposite to indicate when the subscriptions will expire. For instance, *John Smith, 6-11-7*, means that John Smith's subscription will expire on the 4th day of the 11th month of this year, or November 4th, 1887. Subscribers will please notice the figures on their papers, to see that they have their proper credits, and also to know when to renew their subscriptions, the rule being to stop the paper when the subscription expires.

PUTNAM'S
HOT FORGED NAIL
Every Putnam Nail
Is drawn down to a point from the rod, thus:

receiving over sixty quick, successive sharp blows at a welding heat. They are then scalded by the water process,

NO ACIDS
being used, and afterwards
HAMMER POINTED.

Our nails, therefore, are to all intents and purposes the same as the old fashioned hand and hammer pointed.

Some other manufacturers claim to make a Hot Forged Nail, but you will observe on all such a Sheared Edge near the point.

THE PUTNAM NAIL IS THE ONLY
Hot Forged and Hammer Pointed HORSE SHOE NAIL
Made by Machinery in the World.

We address these lines to HORSE OWNERS, because they are the parties most vitally interested. We feel assured that after knowing the facts, and giving the subject due consideration, they will INSIST that their horses be shod with the Hot Forged and Hammer Pointed Nail. A few months' trial will always convince.

The Putnam Nail Company,
BOSTON, MASS.
P. O. Address, NEPONSET, MASS.
For sale by Z. C. M. I. and its branches.

NEW YORK TRADE.

BRINCKERHOFF, TURNER & CO.,
109 Duane St., New York.
Manufacturers of and Dealers in COTTON SAIL DUCK," "Woodberry," Druid Mills, "Polhemus" and other favorite brands, all numbers—Hard, Medium and Soft.

DUCK FOR OVERALLS, BLUE, BROWN, OR IN THE GREY

Two Coroner's Verdicts Found in the Benhayon Case at San Francisco.

Joseph Chamberlain Gives an Audience to a Score of Newspaper Men.

Destructive Forest Fires and Drought in Arkansas—Other Items.

By Telegraph to the NEWS.]

A 3-Ton Aerolite.

AMSTERDAM, N. Y., Nov. 18.—An aerolite weighing three tons dropped with a loud report in front of the Merchants National Bank on East Main Street at 11:20 this morning, making a deep indentation in the ground. Great excitement was created by the occurrence and large crowds viewed the celestial visitor. Local experts find traces of iron, nickel, aluminum and other metals in the aerolite.

Twenty-four Thousand Pounds for the Pope.

VIENNA, Nov. 18.—Hungarian pilgrims to Rome to attend the Pope's jubilee, will start for the Holy City on Monday, headed by Cardinal Lemor. The Hungarian aristocratic ladies committee today handed Monsignor Galimberti, papal nuncio here, £24,000 for the Pope. Numerous other valuable presents have been sent to his holiness.

The Czar's Visit.

BERLIN, Nov. 18.—The Czar's visit to the palace lasted half an hour. He returned to the embassy and afterward paid a visit to the princes staying in Berlin.

After the Emperor had entered the palace on his return from the embassy, he appeared at his favorite window and was again wildly cheered by the crowd.

The Czar's children remained on the train which brought the family from Copenhagen.

PRINCE BISMARCK

visited the Czar at the embassy at 4 o'clock, and afterward received Gen. Techerevin, the Czar's aide-de-camp.

The Czarina and her five children visited Emperor William this afternoon. As the Czar and Prince William were driving through Kœnigs Platz, a man threw a paper into the carriage in which they were riding. The occurrence for a moment caused intense excitement among the on-lookers. The Czar took the paper and without opening it placed it under his cloak. The man who threw it is a stranger in Berlin. He was immediately seized by the police.

Later, while the imperial party were passing through Unter den Linden, a young man tried to throw a petition into the Czar's carriage. He was arrested.

STATE BANQUET.

At the state banquet this evening 98 covers were laid. Prince Bismarck and his wife and Count Herbert Bismarck were present together with many diplomats. The Czar and Czarina sat on either side of Emperor William, while Prince Bismarck was placed first below the royalties. During the dinner, Emperor William arose and lifting his glass, proposed, in a few words, the health of the Czar, the whole company standing. The Czar and party left Berlin for St. Petersburg at 9:30 this evening.

The Railroads.

HELENA, Montana, Nov. 18.—The advance guard of the Montana Central Railway tracklayers reached the outskirts of this city about noon today, where they were detained all the afternoon by the action of the Northern Pacific, which company has undertaken to prohibit the Montana Central from crossing its tracks by building parallel tracks in such a manner as to make it impossible to cross. The citizens had become very much incensed at this, and a thousand or more appeared on the scene with the express determination of tearing up the newly constructed tracks of the Northern Pacific. For a time trouble was expected, whereupon the advice was given by their attorney to remove all obstructions and allow the Montana Central to proceed.

FREIGHT CONDUCTORS.

CHICAGO, Nov. 18.—The Railway Passenger and Freight Conductors' Mutual Aid and Benefit Association began its thirteenth annual convention here today. Routine business is being transacted.

NEW YORK, Nov. 18.—At a meeting of the joint committee of the trunk lines today to consider the cut made by the Grand Trunk on dressed beef and export traffic, November 14th, it was resolved that the Grand Trunk rates be adopted as a basis of rates of the joint committee with further modifications of cattle and other tariffs, made necessary thereby, to take effect November 21st. It was also resolved that if the Grand Trunk make any further changes, the chairman of the committee is empowered to issue new tariffs to conform thereto.

A FAST TRAIN.

NEW YORK, Nov. 18.—On Sunday next the New York Central Railroad will adopt a new time table, the feature of which may revive the fast time rivalry between the trunk lines. The night express has for several years left here at 9:15 p. m. On and after the 20th inst. a train will leave at 11:30 p. m. and will reach Chicago at the same time as the 9:15 train did, thereby shortening the running time two hours and fifteen minutes.

MINNEAPOLIS, Nov. 18.—The Northern Pacific Railroad Company will not only refuse to obey the late order of the state railroad commissioner reducing passenger rates from 4 to 3 cents per mile, but will resist every attempt to enforce it by an appeal to the federal courts.

Indian Outbreak.

FORT WORTH, Tex., Nov. 19.—News was received here tonight to the effect that the Indians are burning the Oklahama county. No cause is assigned for the alleged outbreak. The supposition is that there is an uprising against "boomers."

Collision at Sea.

NEW YORK, Nov. 18.—The steamer *Guyandotte*, of the Old Dominion line, arrived here tonight badly damaged, having been in collision in the fog with an unknown schooner, which immediately afterwards disappeared. Nothing is known of her fate or that of her crew.

"Law and Liberty."

LONDON, Nov. 18.—A meeting was held today to form a "Law and Liberty League." Jacob Bright accused the magistrates of condoning the misconduct of the police. Mr. Stead denounced the brutality of the police and charged them with maltreating the prisoners taken last Sunday, both during the row and after they were taken to the station. The motion to form a league was offered by Saunders, who condemned the government as responsible for the whole affair. Socialist Hyndham seconded the motion, which was adopted.

The Miners.

PITTSBURG, Nov. 18.—A circular is now being prepared by the Secretary of the Federation of Miners and Mine Laborers to the miners, organized and unorganized, of the country. It will provide that no strike shall be ordered in the future without the consent of both the federation and the miners district assembly of the Knights of Labor. In the case of a strike, the organization having the majority in the district where it occurs shall levy on both organizations. The two boards will meet in this city in February, to consider the reply of the miners. Immediately following the meeting the general delegate convention of all the miners in the country will be held in Pittsburg.

The W. C. T. U.

NASHVILLE, Nov. 18.—In the W. C. T. U. convention to-day one of the important decisions was the creation of a missionary board to further gospel work in all sections.

In the afternoon Mrs. Carse, of Chicago, showed a photograph of the "Temperance Temple" which it is proposed to erect there. It is to be twelve stories high, have a tower that will command a view of the entire city and cost $850,000. About $6,000 subscriptions were pledged in the meeting.

The evening meeting was devoted to reports of superintendents. A great mass meeting was held at Masonic block, addressed by Mrs. Hoffman, of Missouri, and Mrs. Lathram, of Michigan, on "Why have prohibition amendments failed in four states?"

Miss Frances E. Willard was re-elected president. The other members of the board were also re-elected.

Bomb Found.

COLUMBUS, O., Nov. 18. — Some excitement was caused this evening by the discovery of a gaspipe bomb at the door of the local department of the *State Journal*. It was plugged at both ends and had an oil fuse, tipped with a match, so it could be lighted by any one stepping on it. It was placed in the hands of the police. They lighted the fuse but the bomb did not explode. They think, however, it is not a hoax and will investigate.

BASEBALL.

The Conference Committee Finishes its Work.

NEW YORK, Nov. 18.—The baseball conference committee finished their work at 3:25 o'clock this afternoon, and five minutes later the league committee made their report to the convention. The discussion that followed was short, and the modified contract as agreed upon by the committee was adopted. Some of the most important sections are

AS FOLLOWS:

Section 6 provides as a punishment for drunkenness $25 for the first offense, $50 for the second, $100 for the third and suspension for the remainder of the season for the fourth; that he may be suspended for gambling, insubordination or other dishonorable or disreputable acts.

Section 8 provides in case the player becomes ill from natural causes, the club may deduct the amount of salary which he would have earned during his absence from duty on such account, but that if the player meets with an accident in the performance of his duty and be incapacitated, his wages shall be paid as if he were performing service; but the club reserves the right under such circumstances to release the injured player, such release, however, to be absolute and

WITHOUT PREJUDICE.

Section 10 permits the club as a punishment for insubordination or any violation of the contract to withhold from players their wages, not to exceed $50 for each offense.

Section 14—In case of the violation of the terms of contract, empowers the clubs on reasonable notice to terminate the contract and stop the pay, and it forfeits all claim to pay on the part of the expelled player.

Section 15—In case of a violation of the contract by a club, empowers the player to terminate the agreement on reasonable notice, and in case the club shall cease to be a member of the league, it is provided that the player shall, if the right of reservation be transferred to any other club or association, receive from the said other club or association at least the same amount of salary as herein prescribed, otherwise the said right of reservation shall

FORTHWITH CEASE.

Section 16 provides that the player shall pay the club $30 for his uniform, and that the club shall pay the player's traveling expenses and board when away from home.

Section 17 empowers the club to terminate the contract at will upon ten days' notice, the player to receive pay for the ten days in case he is not in fault for ending the agreement.

Section 18.—It is further understood and agreed that the employer shall have the right to "reserve a player for the season next ensuing the term mentioned in the contract, and said right or privilege is hereby accorded said employer upon the following conditions: First—That said player shall not be reserved at a salary less than that mentioned in this contract, except by consent of said player. Second—That said player, if he be reserved by said employer for the next ensuing season, shall be one of not more than fourteen players then under contract; that is, that the right of reservation shall be limited to that number of players and no more.

Section 20 fixes the wages to be paid.

THIS CONTRACT

is the one drawn up and presented by the brotherhood, with but slight changes in phraseology. Some of the changes from the old contract are the substitution in section 6 of a euphemism for drunkenness, securing of full pay for injured players, putting of fixed value on the uniforms, the insertion in section 18 of that portion which prevents the reservation of a man at less salary than he shall then be receiving.

Prize Fight.

DENVER, Nov. 17.—J. A. Hewitt of Toronto, Canada, and David Walker of Colorado Springs, fought with bare knuckles on the plains about eighteen miles from this city this afternoon for a purse of $500. The men stripped at 170 pounds and in the first round, which lasted five minutes, Hewitt dealt Walker a terrific blow behind the right ear, which knocked him senseless. He did not recover for nearly fifteen seconds. The fight was given to Hewitt. About 250 people witnessed the mill. Two hundred went from here on a special train.

Criminal Cases.

SIOUX CITY, Nov. 18.—The testimony in the Arensdorf trial goes on slowly. Nothing new is to be told from the witnesses today.

DENVER, Nov. 18.—Glenwood Springs, Colorado, special to the *News*: A shooting affair occurred in Hawley's saloon at 3 o'clock this morning, between Frank Smith and Charles Baker, two gamblers. Smith was shot in the groin and shoulder and will die. During the shooting, an innocent bystander, Jos. Matteson, was

INSTANTLY KILLED

by a stray bullet. Baker is in jail. The quarrel originated over a dispute about money loaned to Baker.

SAN FRANCISCO, Nov. 18.—In the case of the inquest on Henry Benhayon whose dead body was found in a lodging house in this city, October 23d, the coroner's jury tonight submitted two reports. The majority report, which has been approved by the coroner, holds that the evidence against John A. Diming, suspected of poisoning Benhayon, is sufficient to hold him for murder until his innocence is proven. The minority of the jury report that they are unable to determine whether Benhayon's death was suicide or murder.

WASHINGTON.

Post Office Report.—Chamberlain's Views, Etc.

WASHINGTON, Nov. 18.—At a meeting of the board of regents of the Smithsonian Institute, Professor P Langley was elected secretary of the institution, to succeed the late Prof. S. F. Baird.

THE ANNUAL REPORT

of the second assistant Postmaster General Knott shows the total cost for the year was $29,806,608. In the star service there was an increase of 615 routes and a decrease in cost of $252,647. In the mail passenger service there was an increase of 163 routes and a decrease of $5,311 in cost. In the railroad service there was an increase of 7,015 miles in length of routes and an increase in cost of $654,500. The continuation of the appropriation for special mail facilities on the fast lines to the south and West is recommended. The total amount of estimates submitted to meet the requirements of the general service for the fiscal year of 1888 9 is $31,635,065.

JOSEPH CHAMBERLAIN,

of the British Fisheries Commission, gave audience this evening to about twenty newspaper men. Chamberlain was understood to say at one point that the purpose of the commission was to make an entirely new treaty, the existing treaty having proved unsatisfactory; but, upon further inquiry especially as to whether an interpretation of the existing treaty might not be found which would meet the views of both sides, he became non-committal beyond the point of admitting that such might be the possible outcome of the conference. He thought it unlikely that the subject of a commercial union with Canada would come before the commission in any way. There was scarcely a shadow of doubt that any arrangement agreed to by the British commissioners would be held binding by

THEIR GOVERNMENT.

Joseph Chamberlain, Sir Charles Tupper and Lionel West, British Minister, constituting the British Fisheries Commission, called at the Department of State today, where the minister introduced his fellow commissioners to Secretary Bayard. The conversation was not of a formal nature, and in the absence of Messrs. Puttnam and Angell no effort was made to fix a day for the conference of negotiations.

The annual report of Superintendent Bates of the free delivery system shows the number of free delivery offices is 189; number of carriers employed, 5,310; cost of service for the fiscal year, $4,618,692, an increase of $306,386 over the previous year. During the year the carriers delivered and collected 2,234,564,656 pieces.

MRS. WHITNEY

returned to Washington this afternoon. She said the secretary was much improved in health and would come back to Washington next week. He is still unable to do any work, however, and it will be some time before he assumes full charge of the Navy Department.

The office of first assistant secretary of state has been tendered by Secretary Bayard to George T. Rives of the New York bar, and accepted. Mr. Rives is of a Virginia family. His grandfather was senator from Virginia and twice American minister at Paris.

The annual report of C. E. Macdonald, superintendent of the money order system, shows that while yielding no profit for the year, the system was substantially self-sustaining.

Disasters.

LITTLE ROCK, Ark., Nov. 18.—Forest fires are burning at many points in every direction from this city, and the smoke tonight has settled down so dense as to be almost intolerable. For four days, the fires have been raging on the hills and on the bottoms of the Red and Sulphur rivers, near Texarkana, sweeping everything before them, lapping up cane brakes, where thousands of cattle have been feeding for months, visiting farms and leaving in their track the blackened ruins of homes, fences and outhouses. All the available men are engaged in fighting the progress of the flames. Large numbers of cattle and hogs have been caught in the flames and destroyed. Unless rain comes speedily the loss of life and destruction of property will be great. Everything is dry. The wells and small streams everywhere

ARE DRYING

under the influence of the longest drouth ever known.

KINGSTON, Ont., Nov. 18.—The schooner *Glenova*, grain-laden for Duluth, was lost by the propeller *Glengarry* off Presque Isle last night in a gale, through the tow-line breaking. It is hoped the vessel will turn up all right. Her crew numbers seven men.

Parsons' Book.

CHICAGO, Nov. 18.—The advance sheets of anarchist Parsons' book, entitled: "Anarchism, Its Philosophy and Scientific Basis," written in prison previous to his execution for being an accessory to the Haymarket massacre, were issued here this evening. The tone of the work is indicated by the author's declaration, almost at the outset, that the Constitution of the United States is a compromise, the basis of which was the question: "What matters it whether you give food and clothing to the slave direct, or whether you give him enough wages to purchase the same?"

No Chinaman Need Apply.

NEW YORK, Nov. 18.—The general term of the supreme court today refused to admit Hong Yen Chang, a young Chinaman, as a member of the bar, he having passed an examination. When he presented himself for examination, he made affidavit that he was a resident of this state and had applied to the United States district court to be made a citizen. He was refused on the ground that the existing laws forbade the naturalization of Chinese subjects. Chang had an act for his relief passed by the last legislature.

THE ACT READS:

"The general term of the first department of the supreme court is hereby authorized to waive the alienage of Hong Yen Chang, a native of China and now a resident of the city of New York * * * * and to regularly admit and license him to practice * * * on his passing in a satisfactory manner the usual examination for the admission of attorneys and counselors."

Justice Van Brunt, in speaking of the case, said the legislature cannot compel the court to do anything they have no right to do. He added that subsequent to the refusal to admit Chang, he had filed citizen's papers granted by Judge Van Hoesen on the 11th inst., and the general term will now have to consider the papers. He has been of the opinion that since Congress passed the act relating to Chinese subjects, none could be naturalized. Chang is a graduate of Yale and Columbia law schools.

Trial of Wilson.

PARIS, Nov. 18.—M. Wilson testified before the commission today that M. Seilleres' check was a subscription to his paper, *Petite Franco*, and that he had no business relations with Seilleres. Wilson admitted, however, that he supported the demands for a concession to the Compagnie des Charbonneges, which has become bankrupt, in whose books a subscription of 10,000 francs to *Petite Franco* is noted as paid for Wilson's good offices. He said he had advised the decorations for the contractors who had built his mansion, but they were first-class men and that at the request of Count D'Andiau, he advised the cross for Reyenul.

Lumber.

MINNEAPOLIS, Nov. 18.—The lumber sawing season is practically finished and the few mills still running will probably shut down tomorrow. About 200,000,000 feet, or 60,000,000 feet less than last year, have been cut.

BAKING POWDERS.

Analyses of the Chief Brands by the Ohio State Officials.

A Large Number Found Impure.

The Ohio State Dairy and Food Commissioner, Gen. S. H. Hurst, has made public (Circular No. 6) the results of the Commission's investigation of baking powder. This Commission was formed by the Legislature, with instructions to make an examination of the food supply of the State, and to give a report of such examination to the public. The examination of the baking powders was made by Professor H. A. Weber, State Chemist, and, relating as it does to an article of daily use in the food of almost every one is of particular interest.

The rather startling fact is brought out by the report that of the thirty different brands of baking powder analyzed, composing about all those sold in the State, twenty of them are made from alum, a substance declared by the highest medical authorities to be injurious to health when used in food.

The Commissioner classifies the baking powders into three general divisions, according to their value:

1st. Cream of Tartar Baking Powders;
2d. Phosphate Baking Powders;
3d. Alum Baking Powders.

The object of baking powders is, when mixed in the flour and subjected to moisture, to generate a leavening gas in the dough, which will raise the bread and cause it to be porous and light. The Commissioner explains that the best baking powder is that which, the ingredients being healthful, gives off the largest amount of leavening gas and leaves the smallest amount of residuum in the bread. A small amount of carbonate of ammonia, which is considered healthful, is used in some of the cream of tartar powders to give them a higher strength. The Commission say that pure alum is undoubtedly a hurtful salt, and that the resultant salts from its combination with soda as formed in the bread, can scarcely be less hurtful. The report ranks the powders and shows the amount in each of inert resultants, which in using it would appear as residuum in the bread, as follows:

CREAM OF TARTAR POWDERS.

	Name.	Per Cent. inert, or Residuum.
1.	Royal	7 25
2.	Dr. Price's	12 66
3.	Pearson's	14.39
4.	Cleveland's	30.18
5.	Snow Drift	17.54
6.	Upper Ten	9.22
7.	De Land's	32.52
8.	Sterling	12.63

PHOSPHATIC BAKING POWDERS.

9.	Horsford's	36.49
10.	Wheat	26.23

ALUM BAKING POWDERS.

11.	Empire	34.26
12.	Gold	30.34
13.	Acme	24.56
14.	Cook's Favorite	34.92
15.	Sun Flower	35.60
16.	Kenton	38.17
17.	Patapsco	40.08
18.	Jersey	16.05
19.	Buckeye	29.85
20.	Peerless	26.28
21.	Silver Star	31.98
22.	Crown	16 69
23.	Crown (Special)	25 79
24.	One Spoon	58.68
25.	Wheeler's No. 15	27.73
26.	Carleton	30.94
27.	Gem	36.57
28.	Scioto	18.25
29.	Zipp's Grape Crystal	11.99
30.	Forest City	24.04

The large amount of inert matter or residuum in both the phosphate and alum powders will be noted. This in the phosphate powders is largely of lime; in the alum powders it is chiefly alum. It will be gratifying to the public to observe that the powder in most general use, the Royal, is also the purest. In comparing the first two powders on the list, for instance—the Royal and Dr. Price's—the inert matter in Price's is seen to be about five in seven more than in the former, a difference of 7 13 7 per cent., the Royal being purer than Price's by a corresponding figure.

The carbonic or leavening gas produced by the powders indicates their strength; and their true value may be ascertained by considering the amount of this gas in connection with their inert matter or residuum as shown above. The higher the percentage of gas and the lower the percentage of residuum the better the baking powder. These percentages, as found in some of the most familiar powders, are given as follows:

Name.	Per Cent. of Leavening Gas.	Per Cent. of Residuum
Royal	11.50	7.25
Sterling	11.	12.63
Price's	13.70	12.66
De Land's	10.	32.52
Cream Alum	8.45	36.37
Forest City, Alum	7.80	24 04
Silver Star, Alum	6.90	31.98
Kenton, Alum	6.20	38.17
Patapsco, Alum	6.	40.08
Empire, Alum	5.80	34.26
Cook's Favorite, Alum	5.80	34 92
One Spoon, Alum	5.75	58.68

With the foregoing explanation the study of these figures will readily give consumers a knowledge of the comparative value of the different brands. To illustrate with the percentages given the two powders before compared: the Royal containing 11.8 parts of leavening gas to 10.5 in Price's, its excess of strength is 1 3 in 10 5, or 12.4 per cent Royal is therefore 12 40 per cent. stronger, as well as 71 per cent. purer than Price's, etc The relative strength and purity of all the powders can be computed in like manner.

GOVERNMENT TESTS.

The Royal Baking Powder Declared Superior to all others.

The fact that Royal Baking Powder is, in all respects, the best baking powder offered to the public has been established beyond question.

Prof. H. A. Mott, when employed by the U. S. Government to analyze the various baking powders of the market to determine which was the best and most economical, after an extended investigation, reported in favor of the Royal, and it was adopted for government use.

Prof. Mott has continued his examinations of baking powders sold at the present day, and now affirms it as his deliberate judgment, arrived at after most thorough research and a careful examination of the principal brands of the market, that the Royal is undoubtedly the purest and most reliable baking powder offered to the public. Prof. Mott, in his recent report, says:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the U. S. Government.

"I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

DR. HENRY A. MOTT, PH.D."

Late U. S. Government Chemist.
