COES TO ORIENT

Gen. Mgr. of Union Pacific Severs Connection Nov. 1.

SOME MILWAUKEE CHANGES

mercial Agent, and W. B. Me-Cuttough, Contracting Agt.

Claude S. Williams App inted Com-

Kansas City, Oct. 24 .- President Stillvell today formally announced that Ed. Dickinson, general manager of the futon Pacific railway, had accepted the position of general manager of the Kansas City, Mexico and Orient rallway, effective Nov. 1.

This appointment is not unexpected despite the emphatic definals that have been given by Union Pacific officials both in Omaha and on the occasion of heir visit to Sait Lake recently. It has been an open secret in rall-oud circles that Mr. Dickloson's postion on the Union Pacific has not beer the most pleasant for some time pass and the stand taken by him in regard to the machinists' strike has not been in line exactly with the policy instituted

ose above him. Dickinson has long been re arded as being a splendid railroad man and his work since April, 1893, when h was appointed general manager of the Union Pacific system speaks for Riself. For two years previous he was assist ant general manager of the same sys

that of most of the foremost railroad men of the day, especially in the west. He rose from the ranks. He entered the railroad service in October, 1861 as a messenger boy in the freight office of the Cleveland & Toledo. From then on he acted in various capacities that included dispatcher, train baggage man, express messenger and clerk. In Pacific as train dispatcher on the Ne braskn division and gradually worked his way up as division superintendent, general superintendent of the Wyoming division and right up the ladder to the top. But for a short period he has been with the Union Pacific for the past 20 with the men and through his fairness and tact has on numerous occasions smoothed over rough places and settled differences without any undue up differences without any pleasantness on either side,

WILLIAMS APPOINTED. Young Salt Laker Gets Commercial

Agency of Milwaukee, As predicted Claude S. Williams has been tried in the balance and found not wanting. After being on probation for the past six weeks yesterday after-noon he received the pleasing information from Omaha to the effect that he had been appointed commercial agent of the Chloago, Milwaukee & St. P. ul. to succeed L. L. Downing, who resigned recently in order to take the positime of Mr. Downing's resignation that . Williams was left in charge of the office. The appointment has now been made permanent and circulars announcing the same are now in the

hands of the printers. It is not often that a Utah boy is recognized in an important railroad appointment, in fact with the excepappointment, in fact with the exception of J. H. Young and R. F. Nesten Mr. Williams is possibly the only other Salt Lake boy, who has so been honored. At the age of 15 he started in as office boy in the office of the general passenger agent of the Rio Grande Wsetern. In 1893 he went over to the Milwaukee and four years later he was appointed contracting agent, in which position he made a record. He is the son of A. L. Williams, the Philippine veteran, and is a young man who is universally liked for his sterling qualities and business abilities.

POLITICAL MEETINGS.

Democrats and Republicans Will Work Vigorously from This On.

Chairman Cannon of the Democratic the committee is evidently a believe the doctrine advocated by Senator verldge, that twentieth century pohtical campaigns ought not to be longer than 15 days. At least, he seems to be working on this hypothesis as the Democratic campaign in this state o far as public speaking is concerned has just fairly begun. It is evident, however, that from this on the Democracy will be heard from, for it is inderstood to be the intention of the tate committee to place in the field, in lifferent parts of the state, all the cakers it is possible to get hold of, here will include men well known in party circles and it is believed that their efforts will do much to stimulate action and bring out a good Democratic vote on Nov. 4. Meanwhile the Republicans are pursuing the even ten-of their way, their speakers being dis buted from one end of the state to be other. That the campaign will be iteresting from this on need hardly badd. A glance at the lists given below hould convince even the most sket Democratic announcements are as follows:

HARD WOODS FOR FUEL.

People have turned to everything for fuel during the coal famine brought of by the present strike, but it is doubtful f the furnaces of more than one ory are fed costly imported where every ton burned means a valu of from \$30 to \$40 gone up in smoke The firm in question is located in Can bridgeport. Its engineers have found that hard woods like ebony, rosewood, boxwood and ligaumvitae, well season ed, burn almost as well as co only precaution which they take is not to burn coal and wood at the time; they stoke their fires with \$40 wood fuel part of the time and with scarcely less expensive coal fuel the rest of the time. On the face of it it may look as if

the concern's managers are throwing away (or burning up) good money, but with them it is a plain business proposition. As one of them explained this morning they have unusual storage room, and for many years have been constantly in the market to buy ing the course of this time they have picked up a large amount of wood at extremely low prices. When, for in-instance, the National Mahogany and Cedar company was formed of several of the most prominent New York and Boston wood concerns, the individual firms composing them had a general selling out of stock, and when the same trust disintegrated a short time The Democrats announce as their later, there was another sale-and at
