

ARTICLES OF THE COMMERCIAL CLUB

Committee Meets with Governor Wells Today.

INCORPORATION PAPERS.

Abstract of the Documents Which Were Passed Upon at the Meeting This Afternoon.

A special committee, consisting of Governor Wells, ex-Governor Thomas, C. A. Strevell and George T. Odell met in the Governor's office this afternoon and agreed upon the following final report to be made to the committee of one hundred tomorrow evening regarding the organization of the commercial club of Salt Lake.

The articles of incorporation provide that the name of the corporation hereby formed shall be the Commercial Club, whose existence shall be fifty years, with principal office in the City of Salt Lake.

The purpose of the corporation shall be to advance, by social intercourse and friendly interchange of views, the commercial property and growth of Salt Lake City, and the State of Utah; to promote uniformity in the customs and usages of producers, manufacturers and merchants; seek remunerative markets for home products; foster capital and protect labor, uniting them as friends rather than dividing them as enemies; encourage manufacturing, collect and disseminate valuable agricultural, manufacturing and commercial information; extend and develop trade, commerce, the arts, manufactures, merchandising, banking, mining, smelting, livestock and wool-growing pursuits, and to do any and all things necessary to promote the objects of this club.

Membership in this club shall be individual, shall be of three classes, viz: Resident, non-resident and honorary. Any reputable citizen of the city or state shall be eligible for election to membership in this club. Resident members shall pay an entrance fee of fifty (\$50) dollars upon admission and annual dues of forty (\$40) dollars, payable quarterly. Non-resident members shall pay an entrance fee of twenty-five (\$25) dollars, and annual dues of twenty (\$20) dollars in the same manner. Honorary members shall not be subject to the payment of entrance fee or dues. Only resident members shall be entitled to the voting privilege.

The control of the affairs of this club shall be vested in a board of fifteen governors. At the annual election, to be held on the second Saturday in January, 1903, and annually thereafter, there shall be elected five governors who shall serve for a term of three years each. The board of governors shall within one week after appointment elect officers from among their own number.

The officers of this club shall give bonds for the faithful performance of their duties, as follows: Each member of the board of governors, \$100; president, \$1,000; vice-president, \$1,000; secretary, \$500; treasurer, \$500.

Nominations for membership shall be made to the board of governors and shall give the name, residence and business of the member proposed, and must be signed by two members of the club in good standing, and shall be posted for five days in the office of the club before voting shall be taken on the admission. A majority vote of the entire board of governors shall be necessary to elect but any person receiving three negative votes shall be rejected. Any member may be removed for cause by a two-thirds vote of the members of the board of governors, one month's previous notice in writing having been given to the member with a copy of the charges preferred against him.

The club shall meet on the second Saturday of each month and at other times designated by its board of governors, at the request in writing of ten members or on call of the president. One-fifth of the resident members shall constitute a quorum at all meetings. A majority vote of the club shall not be individually or personally liable for the debts or obligations thereof.

The committee of one hundred is to meet with the governor tomorrow evening at 8 o'clock.

RAN AWAY FROM HOME.

Two Salt Lake Boys Arrested in Ogden Today.

[Special to the "News-"]

Ogden, Jan. 17.—Owen Reynolds, a 13-year-old boy, giving his residence as Salt Lake and Arthur Dahl, 11 years old, claiming also to hail from the capital, were taken into custody by Officer Brown today. The boys will be taken home tomorrow.

Ankward, a Chinaman, was given 10 days on the road today by Judge Howell for petit larceny.

James Brown pleaded guilty to house breaking before Judge Rolapp today. He will be sentenced on Monday.

Maurice Prout was arraigned in the district court today, charged with theft. He wanted to plead guilty, but the court had him defer his plea until Monday.

The hearing of L. A. Combs, charged with grand larceny, will be held on January 21st.

HOME FROM MANILA.

George Fisher, Formerly of Utah Battery, Returns Home.

George Fisher, formerly of Battery A, Utah Light Artillery, has just returned from Manila. He is the brother of the late Sgt. Ford Fisher, and returned to the islands as a member of the "Mormon packing train," where he did good service. Mr. Fisher says that Manila has changed wonderfully since the American occupation. An enormous number of new buildings have gone up in the last two years giving the city more of a metropolitan appearance than ever, and the Luneta has been improved so that one who only saw it when the Spaniards were there would hardly know it now. The number of statues has been increased and a bronze statue of Macellan which had been laid aside and not covered up years ago has been rescued and set up in the great park.

The barracks that were used by the Utah batteries have been fixed over for the reception of freshly arrived troops. The Utah boys who are now in Manila are reported as doing well. Sgt. Asplund formerly of B battery, is now clerk in the quartermaster's department.

Government wages are \$40 in gold and find, while civilian clerk pay is \$75 in gold. The find there now is to buy everything that is American, and Spanish is no longer "the thing," Mr. Fisher says.

MARGETTS RECOMMENDED.

Army Lieutenant May be Tendered Him Through Efforts of Sutherland.

Representative Sutherland has recommended the appointment of Neil E. Margetta, of this city, to the position of second lieutenant in the regular army. The recommendation was accompanied by flattering endorsements from Governor Wells, Maj. R. W. Young, Capt. Wedgewood, Capt. Critchlow and Lieut. Taylor. Most of these men were Mr. Margetta's officers in the Philippines with the Utah batteries.

Mr. Margetta made an excellent record in the islands and is a very popular young man in this city. He is now in the employ of McCormick's bank.

AMUSEMENTS.

For years the Bostonians occupied a warm-almost exclusive—place in the hearts of Salt Lake theater goers, as exponents of comic opera. Finally the Albee Nelson company came upon the scene with full right and title to share that honor. And now, another organization, whose members are almost without exception strangers in our midst, has made a further invasion upon the citadel of that affection. Moreover, it has stormed the heights, swept away all obstacles and firmly established itself in local popular opinion. Small wonder that it accomplished so much in a single night; for it won solely on its merits. It is clean cut, highly tempered, brightly polished steel throughout. It has voice, action and form, from the least important chorus girl to those who divide honors at the head where Miss Berri, as the Princess Chio, is the particular star around which several other stellar orbs scintillate as effulgently as herself. Then, too, the costuming has rarely been excelled in beauty and historical correctness upon the Salt Lake stage, while the scenic surroundings left nothing to be desired.

"The Princess Chio" is by Kirke La Shelle. An opera it may not have as many bright bits in it as some others, but it will rank among the very best and is as full of "singing" and "go" as a nut is full of meat. Miss Berri has sustained the role of the Princess less than a week, but she sings, looks and acts the part like a veteran. She stepped into it at Denver a few days ago taking the place of Miss Marguerita Sylvia, whose name illumines the bill boards of this city, but who for some reason, quit the company in the Colorado metropolis. It is said that Miss Berri already outclasses her predecessor or even her predecessor's predecessor, and that fame and fortune await her on the operatic stage. It is not difficult to believe that. Her voice is strong and sweet and particularly good in the high notes. As a "dancer" she is a distinct success as illustrated by the numerous picturesque disguise attitudes donned during her daring exploits as a swordswoman and huntress to visit and make love to and warn Charles the Bold, Duke of Burgundy, of the designs of King Louis XI. Her self-conceived scheme of kidnapping was prettily carried out and the execution and rescue were applauded and cheered to the limit. The other ladies of the company entitled to special mention were Dorothy Hunting, as page to the princess, and Edna Floyd, daughter of Chamberlain. Both are pretty and tuneful and the latter is as light as a bird and as graceful as a gazelle.

Of the male members of the organization Herbert Wilke as the Duke of Burgundy is entitled to first mention. The warlike proclivities of that character are well sustained with dash and vigor. Thomas C. Leary, steward to the duke, Neil McNeil, steward to the princess, Edward S. Metcalfe and W. A. Lawrence, the two vaudeville soldiers made a quartet whose excellent work in the program was particularly appreciated, and heavy advance sales are recorded for the three remaining performances, tonight, tomorrow night and matinee.

A very interesting program will be given by some of the piano pupils of Mr. McClellan at the Theater on Saturday evening, Jan. 25, at 8:15 o'clock. Several concertos will add to the brilliancy of the program, and the orchestra as they will be, these numbers should be most enjoyable. Mr. Goddard also assists. Invitation will be issued early next week and those who desire to attend have not received invitations may apply by applying to Mr. McClellan, or Calder's music store. The program will be about eighty minutes long and strict order will be enforced, especially the closing of the doors at 8:15 until program is concluded.

ENGINEER RESIGNS.

Mayor Thompson Refuses to Say What Action He Will Take.

Last evening Mayor Thompson received the resignation of City Engineer L. C. Kelsey, to take effect when his successor is appointed and qualified. His honor is, however, silent as to what action he will take in the matter. Asked this morning whether or not he intended to re-appoint Mr. Kelsey, the Mayor said that he had not considered the matter at all. It is generally conceded, however, that the executive will give the city engineer the rest of his present job for the next two years.

Mr. Kelsey said this morning that his only motive in presenting his resignation was to leave the Mayor's hands free in case he should wish to appoint another one to the office of city engineer. He said candidly that he would accept the appointment if his honor saw fit to offer it to him again. As a matter of fact, the resignation is a more matter of form, but one which is in line with the code of official etiquette demands. Since the removal from office of his brother, F. C. Kelsey, last spring, the Mayor and the Council have seemed to be perfectly satisfied with the services of L. C. Kelsey, and it is more than likely that he will succeed himself.

WITH THE JUSTICES.

Mike Aaron is on trial this afternoon in Justice Daniel Smith's court on the charge of attempting to smuggle morphine into the state prison. He is being tried by a jury. The case is being prosecuted by Assistant County Attorney Leontibour.

Next door the Jorgensen own a small cottage which they have been renting to a family by the name of Neel. Mrs. Neel borrowed some tea from her landlord, and returned it last night, and this is the tea which did the damage. The Jorgensens were persuaded that the Neels meant to exterminate their whole family. Mrs. Jorgensen has been nervous ever since she read about Hay's murder, and her imagination had no trouble in conjuring up a dark tale of poisoning. Accordingly one of the sons was dispatched post haste for the sheriff. He carried with him as prima facie evidence of the awful crime of the Neels a bottle of the treacherous inky fluid. Deputy Sheriff Arny answered the call and took Dr. Mayo with him. The county physician applied a few simple remedies, and soon the Jorgensens were resting easy and on a rate way to recovery.

Cure Sick Headache, Biliousness, Sour Stomach, Indigestion, and Constipation. Sold Everywhere, 25c per box.

A BONANZA FOR RAILROAD MEN.

Rich Oil Strike at Debeque Runs Forty Per Cent Gravity, with Fifteen Barrels a Day at a Depth of 620 Feet—Town Crazy.

General Agent C. F. Warren of the Santa Fe dropped off the train from the east this morning armed with a grip and a bottle. As Warren is a strictly temperate man the presence of the bottle was the occasion of uncalculated remarks on Railroad row.

"It is the greatest thing that ever was," gasped the railroad man as he sank into his chair in his office, "Debeque is absolutely crazy; they have tubs full of oil on every street corner, while town lots that went begging last week in the town for \$200 I saw change hands before I left last night for \$1,000 cold."

Then some oil experts drifted into the office and the way they sniffed at that pint bottle of greasy brown looking liquid was distinctly professional.

"Heavy paraffin base, forty per cent gravity by Jove," ranted Warren. Then he told his story.

It appears that a number of the railroad men, including Warren, J. E. Preston, commercial agent of the Milwaukee at Denver, George B. Dodge, general agent of the D. & R. G. Denver, C. M. Hicklin, general western

agent of the Mallory lines; and W. K. McAllister, general agent for the Southern Pacific, are interested in an oil well at Debeque, Colo., 30 miles east from the junction, and half a mile from the railroad. They first struck oil a few days ago, and by the time they got down 225 feet, it was coming up at a rate of a barrel a day; then three days ago it was tapped at 620 feet, with the result that 250 feet in the well and the town was crazy. He thinks that the boys have a bonanza, as they say that oil in California is looked on as being a big thing when it goes 20 per cent, or less than half of Debeque proposition. They are to get out a flow at 620 feet against that of 2,500 to 2,700 feet at the Boulder fields is regarded as being highly encouraging, to say the least.

Mr. Warren states that already a branch of the Mesa county bank at Debeque has been established at Debeque and everybody there is rushing into the throes of a boom.

OREGON-UTAH FLOUR SQUABBLE.

The Pendleton, Ore., flour mills people evidently regard Utah as the promised land, a land flowing with milk and honey, of which they do not see why they should not have several shiploads as well as anybody else. But to get in their act, they find that it is necessary to induce the Oregon Short Line to reduce the present rate of 52 cents on four into Utah from all points east of Umatilla to the rate now obtaining on wheat into Utah from the northwest—that is 40 cents. In this

case, the Pendleton mills have the sympathy of the O. R. & N. company, which would much prefer to haul northwestern wheat into Portland instead of hauling it over to the Short Line for the longest haul and the heaviest freight. The O. R. & N. charges. Moreover, the O. R. & N. would open up an increased traffic in flour without diminishing in any way its wheat haul, so that that company are the Pendleton mills people are bringing pressure to bear on the Oregon Short Line to reduce the flour rate to an even figure with the wheat.

A committee of local millers has been to see Acting General Freight Agent Reeves of the Short Line, before whom strong objections against any such proceeding have been registered. The millers argue that if the rate on flour is lowered, the cheaper article from Pendleton will make doing business very hazardous for them, and may force some of them to shut down. They further argue that it will be unprofitable for the Short Line to make any reduction in that where 50,000 pounds of wheat are now hauled, there will be only 40,000 of flour to carry at the same rate, a loss of 20,000 pounds of freight. Besides, it is claimed that any such reduction would be without any precedent, in that railroads are not accustomed to charge the same rates for the manufactured article as for the raw material. A road might as well give the same rate on silk as on coal.

It is believed that the O. R. & N. and the Oregon flour men will be successful in their little scheme to lay out the Utah millers interests, particularly when it is considered that it would mean laying off so many men in the state from work and the restriction of expenditures that are always made when men are at work.

FLOUR PRICES MAY GO DOWN.

Representatives of local milling interests are feeling slightly blue over the freight rates on Oregon flour proposed by the Oregon Short Line. They say if they are put into effect it will mean the closing down of the Utah mills until next fall as it will be impossible to compete with the prices that will be in vogue when the Oregon flour arrives in the Utah market. It is on the cards that the rate will be reduced from 52 to 40 cents per 100 pounds on and after February 1. Just as soon as these quotations go in to effect the millers say that it will mean at least a cut of from 15 to 25 cents in the price of flour.

The Utah millers have been fearing just such a move as the Oregon flour men have been making. They are agitating for a reduction in the rate for some time past. Nothing, however, is definitely settled in the matter, as the railroad is in the hands of the Oregon Railroad and Navigation company officials.

While the millers are discouraged as to the outlook at the same time the general public will rejoice that there is a prospect of breadstuffs becoming cheaper. Commission men are quoted as saying that the millers will have just as much of a chance as their Oregon rivals, with the only difference that the big profits that they are now enjoying will be materially reduced.

EXTENT OF THE STORM.

Precipitation Confined to Northern Utah and Southern Idaho.

The threatened storm set in at 9 o'clock last night with a slight snow which continued until morning. There was not enough to make sleighs, but it was wet enough to make walking slushy and unpleasant. The fall in water measurement was 16 of an inch, but in terms of snow it was 14 inches. The sun has tried hard to shine during today, but has had a hard time of it. However, the weather office looks for fair weather tonight and tomorrow.

The storm was largely local, extending over only southern Idaho and northern Utah. At Pocatello there was 1.2 inches of snow, and at Modena the precipitation was hardly more than a trace. It was raining this morning at Grand Junction. The storm was a combination of low areas from the north and the southwest, and today the storm center is over Minnesota. High areas are now moving eastward over Oregon and Washington so that it will be some days before there is any more storm. The snow is very welcome to the farmers, water people and stock-raisers, but they would like to see more of it.

POISONED BY TEA.

Whole Jorgensen Family Becomes Sick From Drinking Strong Brew.

Last evening J. C. Jorgensen of 63 Alameda avenue, along with several members of his family thought that they had been picked out as the victims of a cold-blooded poisoner.

The mistake arose through several of the Jorgensens partaking freely of a brew of tea which had been allowed to steep so long in a tin pot that the tannic acid in the tea had absorbed some of the tin off the teapot forming a dark, bitter nauseating compound. Such is the opinion of County Physician Mayo who was summoned to attend the sick family.

Next door the Jorgensens own a small cottage which they have been renting to a family by the name of Neel. Mrs. Neel borrowed some tea from her landlord, and returned it last night, and this is the tea which did the damage. The Jorgensens were persuaded that the Neels meant to exterminate their whole family. Mrs. Jorgensen has been nervous ever since she read about Hay's murder, and her imagination had no trouble in conjuring up a dark tale of poisoning. Accordingly one of the sons was dispatched post haste for the sheriff. He carried with him as prima facie evidence of the awful crime of the Neels a bottle of the treacherous inky fluid. Deputy Sheriff Arny answered the call and took Dr. Mayo with him. The county physician applied a few simple remedies, and soon the Jorgensens were resting easy and on a rate way to recovery.

CHOIR APPRECIATED.

Citizens Give Monetary Aid and Buy Many Tickets.

That the efforts of the Tabernacle choir do not go unappreciated was amply proved this week. Mrs. J. McClellan of Park City heard of the concert to be given shortly in aid of the California trip just as she was packing up for the East, and hastily ordered tickets. A friend calling upon Mr. W. P. Reed of the Salt Lake Railway company to sell him some tickets, was made glad by an order for fifty.

Mrs. Col. E. F. Holmes, on hearing of the efforts, made and especially on learning that the professor had given his old piano towards the trip, immediately sent Mr. Stephens \$25, while Mr. J. S. Bransford, hearing of the effort, added \$5 himself with the most enthusiastic words of appreciation of the choir's work. Such tributes go much farther than momentarily aiding the choir. It gives the assurance that its toil and faithfulness from year to year are not thrown away on unappreciative ears.

Already parties from Tooele, Mantle, Fairview and Ogden have bought tickets, requesting Prof. Stephens to deposit their numbers in their absence. The extra four weeks. Then the appearance in the Tabernacle of the famous Chicago Symphony orchestra in two weeks from now makes it desirable to have the field clear, that nothing may be in the way of the engagement being the financial success that it is sure to be artistically. About one thousand tickets were reported sold by the singers last evening.

It is important that as much be raised from this concert as possible as it is the main support of the fund to cover the expense of the choir's trip to California.

INDIAN VETERANS REUNION.

On the 22nd of this month there will be a grand reunion of the veterans of the black Hawk Indian war. The union will take place in the old Social Hall. Speeches will be made after which a supper will be served followed by a dance.

FRED H. AUERBACH ESTATE CASE.

Hearing is being had before Judge Hall this afternoon of the objections of Augusta and Rebecca Levy, sisters of the late Fred H. Auerbach, and other legatees to the allowance of certain credits claimed by the executors, which they claim are improper, exorbitant and extravagant credits. These are the first of the account of George E. Blair of \$4,822.25 for services and disbursements as special master in the examining and auditing of the books of the mercantile business of F. Auerbach & Bro., one-half of which has been charged to the estate. The contestants claim that this is not a proper charge for the reason that no report of the examination of the master and his assistants had been filed in this court at the time the final report was filed, and that the amount has been paid by the executors without authority from the court.

The second objection is the charge of \$1,000 by Theodore Meyer for services as executor, which is also regarded as exorbitant, and was also paid without court authority.

The third ground of contention is the recommendation of the executors in the final report that Theodore Meyer be paid out of the estate an additional sum of \$11,000 for extraordinary services rendered as executor of the estate. This charge is also considered intemperate and exorbitant.

The contestants allege that no extraordinary service was rendered, and that he has been paid \$1,500 from November 1, 1897 to Dec. 31, 1900, and received a like amount from Samuel H. Auerbach, an amount equaling \$100 a month, that he has already received \$7,273.29 for services as executor, all that is permissible under the statute.

As a fourth objection, the contestants take exception to the item of \$10,000 extra compensation to the attorneys in the case. They consider that \$5,000 would be ample for the purpose. Dickson, Ellis & Ellis are attorneys for the contestants, and Marshall, Royle & Hempstead for the estate.

The National Tea Importing company filed articles of incorporation today, and will change in the business of importing tea, coffee and spices, buying and selling crockery and glassware, manufacturing baking powder, extracts and grocer's sundries, roasting coffee, and carrying on a general manufacturing and mercantile business in these and similar articles. The capital stock is \$10,000, in \$1 shares. The directors are T. G. Griffin, president; J. B. Cecil, Jr., vice president; E. W. Reese, secretary and treasurer.

Guardianship of John A. Lee.

Mrs. Hattie Lee today filed a petition in the probate court that she be appointed guardian of the estate of her son, John A. Lee, valued at \$750. The boy is ten years old. His father is dead, and he is at present living with his grandmother at Ogden.

Mrs. Francke Wants Divorce.

Pauline Francke today filed a suit for divorce from August Gustave Francke, alleging non-support for the last three years. She also asks for the custody of her eight-year-old son, Louis, that the defendant be restrained from taking him away, and for \$100 attorney fees.

John M. Erickson Divorced.

Anna L. Erickson was today granted a decree of divorce from John W. Erickson on the ground of desertion and non-support.

LAKE IS NOT RISING.

Great Salt Lake is not conducting itself in a seemly manner. It has got its back up and positively refuses to rise, rain or no rain. The measurement from the official gauge Wednesday afternoon at Garfield showed the level to be 1 foot 2 inches below the zero mark, which means that the lake has fallen one inch in the last two weeks. Season Elmer Murdoch of the weather office believes that the reading of two weeks ago was erroneous, showing that the lake had risen slightly when it really had not. Probably a north wind was responsible for the error.

Unless there is a very heavy precipitation this spring, Mr. Murdoch says the outlook for the lake during the coming summer is very blue. But there is no telling what the coming three months will bring forth. The spring of 1899 was abnormally wet, and two feet of snow fell on May 1 and 2, the trees in this city being so heavily loaded with snow that many branches were broken. If there is any such precipitation, the situation will be materially helped.

PERSONALS.

A. T. Moon has recovered from the injuries sustained by his fall ten days ago, and is able to resume his business affairs once more.

F. C. Mandall, of Hailey, is a guest at the Cullen.

V. J. McComb of Bozeman, Mont., is stopping at the Cullen.

Bandmaster Held is having fine photographs taken of each member of his band for exhibition purposes in show windows.

Legends announcing reduction in winter goods are beginning to appear in store windows.

BECAME VIOLENTLY INSANE.

Mrs. William Thompson of Sugarhouse became violently insane last night. She rushed out of her home and began a siege on the front door of the house of Joseph D. Barnes, a neighbor. Obtaining entrance from Miss Stella Daynes, who was alone in the house, the frantic woman ran from room to room, knocking over tables and chairs and whatever came in her way. At last with the assistance of neighbors the unfortunate woman was taken home, where she showed such signs of violence that she had to be tied down. After a few hours of struggling Mrs. Thompson became exhausted, and the violent fit seemed to pass off.

There will be a meeting of Local No. 104, American Federation of Musicians, Sunday next, at 4:30 p. m., at Christensen's office.

Fish Commissioner John Sharp has just received 100,000 trout eggs from Plymouth, Mass., whence he will receive 200,000 more shortly. Then 500,000 are to come from the station at Mauch Chunk, Pa., and 500,000 are coming from Carolina, R. I. With 600,000 eggs to go to work on, the commissioner says he will have something tangible to show for his labors the coming season.

The appraisers of the Lorenzo Snow estate have placed the total value at \$15,401.28.

Dealers remark that the Utah creameries failed this winter to profit by the experience of the last two years, and are now realizing that had they not forced up the price of butter recently to thirty cents, there would not now be eastern butter in the Utah market for the home factories to compete against. As one dealer said today, "The home people thought they would make something by forcing up prices, but as soon as the butter was twenty-seven cents, then the way was opened for eastern butter to walk in here, and it came all right, whereas, had the home creameries been content to not let prices go over twenty-six cents, they could have held the market, and kept the eastern article out."

Sergeant A. B. Cushing of L. company, Eighteenth Infantry, returned this morning from a trip to Houston, Texas, and Columbus, O., where he has been on furlough for a hunting expedition and a holiday visit with his relatives. He took back with him the little Spanish boy who was found by him in the Philippines and who was promptly promoted to mascot of company L. The boy and his adopted sire returned looking exceedingly healthy. The young

Newest Creations

In Carpet Designs.

We are now ready to show the purchases of our buyer who has just returned from the East. The designs and colorings of these Carpets are really beautiful—all of the very latest styles. Prices are very close, too. We take great pleasure in showing these goods and invite you to make careful comparisons as to prices and quality before purchasing.

H. Dinwoodey Furniture Co.

day filed an amendment to its articles of incorporation, which will permit the company to engage in a wholesale and retail mercantile business, establishes the general offices in Salt Lake City, and increases the capital stock from 120 shares to 500.

Today's bank clearings amounted to \$543,000, as against \$512,220.01 for the corresponding day last year.

Mr. William Thompson of Sugar House ward went violently insane last night, and at 10 o'clock ran from his own home to the residence of Prof. J. J. Daynes near by. The professor and his wife were up town at the time, and only Miss Stella, the 13-year-old daughter, and little boy Raymond, were in the house. Mrs. Thompson called admission and went screaming through the premises, and there is no telling what might have happened, but for the quick mind in telephoning for Dr. Stephen Richards, who lives near. He with Mr. Thompson and the neighbors succeeded finally in quieting the maniac and getting her home. Mrs. Thompson has been growing insane, it is said, for some time.

Ajax opened the trading at figures of from this morning's quotations and Corn followed with sales around 12, 12 1/2. Corn is considerably lower, as is also wheat.

The following is a list of the number of shares dealt in of each stock and its closing quotations.

The mining share market this afternoon was quite active, over 30,000 shares being traded in.
