Why Is Fat? It is because one is born with the tendency? Or is it one of life's trials, or is it due to just plain hearty appetite? The doctors say not any one of these phrases the question correctly. They say fat is because the fat person's digestive system is defective. This means that some don't change the fatty foods eaten by stout persons into heat and energy, as they should. In other words, the fatty pass on into the system unchanged. Hence fat layers accumulate under the skin and around the neck, the chest, abdomen, shoulder blades, etc.
