Information Wanted. - J. W. and A. C. Hardy, of E. Palmyra, Wayne County, New York, and for which we really here by as utterly groundless, without a shadow of foundation. As light dawns upon us, however, we are inclined to view the matter from another standpoint. In fact we do not Wayne County, New York, are and for which we really have no know but we have found the shadow of the foundation for the reanxious to discover the whereports. There is no use denying the abouts of their son, Irving A. or Dell Hardy. They last heard from have under present arrangements him four months ago, at which time he was in this city. He is twenty-three years of sge. Any existence of that shadow any longer. It is but justice to the great public that that shadow should be exposed to the gaze of the anxieus multitude, if for no other reason information concerning him will be It is not only not dividend paying, than that some people are so con-

we are unwise, but not more so than in our extravagant purchases of certain classes of machinery. It has been estimated that there are, in Cache County alone, aixty threshing machines, which at an average cost of \$700 each, shows a total of \$42,000. The season's threshing here is generally done in thirty days of the very busiest time of the year. Thus this \$42,000 worth third is a cheese maker, and will be hard at work in that line at an early date. Won't somebody go into the manufacture, on . an extensive

The duce that amount of earnings durwhole difficulty appears to come ing the basy month of October of from the too limited capacity of each year, while our past experithe culvert. It is nice to have the ence plainly indicates that employstreams crossing the sidewalks months, been furnished, only to a culvert-covered, but it is nicer very limited extent, either for man to have the culverts made big or beast, the general practice being to consume during winter just about all we accumulate during summer. Hence misapplied labor in the latter, which could be utilizthere is about it, only people whose ed during the former, is, according

to my view, a positive loss. I have but little doubt that there are in this county not less than 200 harvesters and reapers, with an av-

erage cut of 100 acres each, which if kept in good condition and well managed, would cut 200 acres each during the harvest season. Thus we have \$20,000 worth of this kind of machinery more than we really ueed, and we may safely say that we have an equal amount of surplus in mowers and sulky rakes. Now one item for our sisters, but which also vitally concerns the orethren, I mean sowing machines. The matter of amending the or- stand that, in addition, a train will firms, not iong since informed me that his company had sold in this and Bear Lake County \$50,000 worth of machines. And several years since one of another firm told ne that the sales of the company which he represented had been in this county alone \$30,000. I in-quired of the former agent how much he could increase his sales by reducing the price one-half and de manding payment on delivery of goods. His reply was, "We could

not sell one machine where we now sell twenty." Upon this point comment would be gueless, it tells its own story.
