As a result of the method employed by the "American" party the read financial condition of the city is uncertain. The auditor's report, which has been due for three menths, will probably be ready in a week or two. It has been withheld until the freemed for the second quarter come in. With this, which will amount to about \$150,000, the city will probably be able to cover up some of the high deficus on paper.

Vast Irrigation Scheme Assumes Definite Shape With Capital Secured.

LAND ONLY AWAITS WATER

Prest, W. T. Jack of Cassia Stake Declares Region is One of the Most Fertile in Idaho,

Among the visitors in this city is President William T. Jack of Cassia etake, Idalio. President Jack is much uthused with the promise of a vast rrigation enterprise for Oakley, In peaking of which he said today.

Today marks the greatest epoch in ie material interests of Cassla county general and of Oakley in particular fter years of waiting and hoping for ne company or individual to come some company or individual to come with money and mind to erect a system of reservoirs with which to store the waters of the cloose creek and make habitable the thousands of fertile acres lying to the north of our prosperous village, the deliverer came today in the person of W. S. Kuhn of Pittsburg. Pennsylvania, who in company with a number of other distinguished gentlemen visited our valley and was immediately converted to the proposed irrigation scheme which has been in the hands of a number of expert engineers under the direction of R. W. Faris of Boise for at least one year.

IN OTHER SYSTEMS.

IN OTHER SYSTEMS. "Mr. Kuhn, who is the amanchi backer of the Twin Falls North Side Land &
Water Co., had been at Jerome on April
1, attending the ecremonies which were
held at the turning of the water into
the north side canni system, and before proceeding to the Salmon river
project, about to be commenced, and
which will open up 180,000 acres of land,
the party, consisting of four auto loads
of state officials and others, made a
run to Oakley via Twin Falls. The
party consisted of I. R. Perrine, father
of the irrigation systems of the lower run to Oakley vis Twin Falls. The party consisted of L. R. Perrine, father of the irrigation systems of the lower Snake, Salmon. Bruno. etc. W. S. Kubn, who has brought multions of dollars into Idaho to make homes for thousands of people. Governor James H. Brady, who. like his predecessor. Governor Gooding, is a stanch friend to empire building, Atty-Gen. D. C. McDougal, Seey. of State Robert Lamsdown, Paul Blekle, D. C. Spencer, R. W. Faris, D. C. McWaters, secretary of the north side system, Judge S. H. Hays of Boise, attorney for the company, Mark Austin, personal representative of the Utah-Idaho Sugar Co., Mr. Porterfield, Mr. Glass and others chaperoned by myself.

"I bad gone to Jerome to meat the distinguished party. The run from Twin Falls to Oakley was unde through the heart of a very choice agricultural tract in four and one half hours.

MET BY BRASS BAND.

MET BY BRASS BAND.

"At Oakley the party was not by the raiss band and several hundred people the had gathered to do honer to the sponded to the greetings of the as-zembled populace with impromptu ad-dresses as follows, being introduced by President Jack; Gov. Brady, Mr. Kuhn, en. McDougal, Secy. Lansdown and fr. Austin, all speaking in highest raise of the splendid lands in the beauiful valley of Goose creek. The gov-rnor and other members of the state and board present pledged themselves o do all in their power to assist in the opening to settlement of the broad sires of fertile land north and west our settlement, and Mr. Kuhn proto Oakley and erect the reservoir in-side of 18 months. So that with the signing of the papers with Mr. Kunn and the state land board today, all preof actual construction will begin in

due time.

"The people or Oakley feel that much credit is due floy. Brady for the valuable assistance rendered and his influence in bringing Mr. Kuhn and the

fluence in bringing Mr. Kuhn and the citizens of this valley together whereby this condition was reached.

'This project will convert 50,000 to 60,000 acres of as good land as can be found in the west into fruitful fields and happy homes. Mr. Kuhn is a man of about 42 years of age, with that clean, honest appearance that immediately recommends him to the people as a man of honor and integrity. There has been some question by members of the state land beard as to wheth r as not the people of this section of country were getting enough water to successfully raise crops under the reservor. were getting chough water to successfully raise crops under the reservor, the citizens having signed contracts to accept 18 inches of water per acre. We feel that if after 50 years of experience with water on these lands the people have demonstrated that is inches or less, is sufficient to make crops, that they should be permitted to determine that question for themselves and not be connelled to buy to determine that question for them-seives and not be compelled to buy more water than they need to use; so that it is understood that the land board will sign up with Mr. Kunn on this basis and close the deal.

"After leaving Oakley the party sap-arated, some going to Burley, some to Milner and some back to Twin Falls, and the people of this valley consider this the brightest day that has ever-dawned for them."

In his lecture of last evening, Ralph Korngold, Socialist, teacher of languages at Dunville, Ill., spoke to 150 locialists, on "What Socialists Have Done in Office." The speaker said in

"It is said that Socialists are imprac-tical and that they have little under-standing of the movements of the day. If it were not for Socialism in Germany the small reforms which recently have the small reforms which recently have been enacted in that country would not have come. They also say that if you don't give some concessions to the working man the Socialists will get them. Now, I wish to say that the Socialist party is responsible for a great deal. In the first place, if you want reform you must not vote for William J. Bryan. You must not vote for any radical member of the old party, but you must vote for what you want, even if you don't get it.

The man was engaged in decorating the interior of Sparey & Mehse's restaurant on Second South when he situted from a ladder and fell against a window. The super portion of the window, measuring 5 by 5 feet was loosened by the blow and would have fallen across the man's nesk, possibly decapitating him, had not Patrolman Griffiths rushed to the man's assistance. Griffiths thrust his body un-der the failing slass and received the blow on the shoulders. Cracroft received several cuts about the head and war taken to his home on sast Sixth Sout-street, where the wounds were dressed by Dr. W. F. Beer.
