

CORPORATIONS CORRUPTION FUND

National Republican Committee
Will Not Accept Contributions
from Them.

DECLARES JUDGE TAFT

Governing Election of President
Electors Will Be Im-
plicitly Obeyed.

Spring, Va., July 18.—The national Republican committee will not accept contributions from corporations, said Judge William H. Taft, presidential candidate of the Republican party, today, and in an interview also referred to labor, prohibition and other questions. Mr. Taft said that only would the law of New York be providing for the publicity of campaign contributions, he obeyed by national Republican committee, but federal law prohibiting such contributions by corporations in connection with the election of president, vice president, representatives or senators be obeyed without regard to any question of validity that might arise respect to any provisions of that law.

Answering questions as to the constitution of the national law to candidates for the election of president-electors, Mr. Taft declared that it would be obeyed exactly as it was written by Congress.

To the right of a labor leader to attempt to influence the votes of members of the organization of which he is head, Mr. Taft at first laughingly declared that was a question of propriety upon which he was not sufficient informed to discuss. When asked as to his idea of the power of the labor leader, Mr. Taft said that he did not believe that there is no so-called class of American electorate whose votes can be delivered by its leaders. He said that after eliminating members of both political parties from an organization, the expression of opinion might indicate how the election but he declared that just the case generally in dealing with a so-called class of citizens, before election could be given of the nature of votes, it would be necessary to make the members of one or the other political parties. The question of this statement referred to President Samuel Gompers of the American Federation of Labor, but Mr. Taft avoided making any personal reference to Mr. Gompers or any other leader of organized labor.

Asked whether he would have any remedy to offer for the so-called problem of the negro, Mr. Taft replied that he had not any of anything new that he could say to a question that had been so fully discussed, and stated that he had nothing to say on that matter outside of what he had said at previous times in his public utterances. Mr. Taft's attention was called today by assertions of some journals representing the liquor interests that he is opposed to prohibition. He explained that he had never publicly discussed the local side of prohibition, and he took view, as he understood Mr. Bryan's done, that the prohibition issue was not involved in the national campaign. From what had come to his attention in respect to the representations these journals, he inferred that they based their statements on speeches he had made in which he criticized the action of some state legislatures in passing prohibition and other laws about providing the machinery for enforcing them.

Part of His Jewelry Found in Possession of His Footman.

Paris, July 19.—Jewelry belonging to the murdered banker Auguste Remy, who was stabbed to death in his home in the Rue de la Peupliere, June 7, was found in the possession of the banker's footman today. The footman who was placed under arrest, denies any connection with the crime. He asserts that he found the jewelry and a small bag containing a sum of money about a month after the murder, hidden in the cellar.

CLEVELAND'S THREE
CENT FARES NO SUCCESS

Cleveland, July 19.—Cleveland has had nearly three months of 3-cent street car fares, and two of the monthly reports have shown a deficit. A similar report is predicted for July. The operating expenses and fixed charges have been from \$40,000 to over \$50,000 a month in excess of the earnings.

combine, whose headquarters he claims are in Ohio, Mr. Bryan had announced that if elected to the presidency he would at once put all the machinery of the government at work to destroy any combination that may exist.

DETAILED PROGRAM FOR TAFT'S NOTIFICATION

Nahant, Mass., July 18.—United States Senator William Warner of Massachusetts is here for a brief stay, and has announced the detailed program of the notification of William H. Taft at Cincinnati on July 28, as follows:

10 a. m.—Flag raising on the lawn of the residence of Charles P. Taft.

11 a. m.—Notification committee escorted to Charles P. Taft's residence and received informally by William H. Taft.

12 noon.—Official notification with speech by United States Senator Warner, and response by Mr. Taft. These exercises will take place on a platform on the lawn.

1 p. m.—Review of marching clubs.

1230 p. m.—Public reception from platform on lawn.

5 p. m.—Releasing of thousands of toy balloons from various parts of the city.

6 p. m.—United States Club members of the notification committee and guests.

WAGES HIGHER, HOURS SHORTER,

According to Statement Issued
By Bureau of Labor on Results of Investigation.

FOOD PRICES ARE ADVANCED

Measured by Purchasing Power of
Money Wages Were Less in
1907 Than in 1906.

Washington, July 19.—The average wages per hour in 1907 were 3.7 per cent higher than in 1906, the regular hours of labor per week were 4 per cent lower than in 1906, and the number of employees in the establishments investigated was 1 per cent greater than in 1906.

These are some of the facts of interest in a statement issued today by the bureau of labor as the result of an investigation of the principal working occupations in 415 establishments representing the principal manufacturing and mercantile industries of the country. The article is entitled "Rates of Wages and Retail Prices of Food, 1890 to 1907."

Investigations covering the sales of 1,014 dealers in 68 localities, show that the retail prices of 30 principal articles of food, according to consumption in representative workingmen's families, were 4.2 per cent higher in 1907 than in 1906. As the average hourly wages in 1907 were 2.8 per cent higher, the purchasing power of an hour's wages, as measured by food, was slightly less in 1907 than in 1906, the decrease being one-half of 1 per cent.

The average hourly wages in 1907 were higher than in any year of the 18 years period from 1890 to 1907, and more than 20 per cent higher than the average in any year from 1890 to 1900. As compared in each case with the average for the 10-year period, 1890 to 1900, the average hourly wages in 1907 were 28.8 per cent higher, the number of employees 14.4 per cent greater and the average hours of labor per week 5 per cent lower.

The average price of food in 1907 was higher than in any other year in the 18-year period. The average price or 30 principal articles were gathered according to family consumption of the various articles 22.6 per cent higher in 1907 than the average price for the 10 years 1890 to 1899.

Compared with the average for the same 10-year period, the purchasing power of wages in 1907 was 6.7 per cent greater. The increase in average hourly wage in 1907 over 1906 was quite general, occurring in 40 of the 41 industries investigated. The greatest increase was in the manufacture of cotton goods, where the average wages per hour in 1907 were 12.9 per cent higher than in 1906. In the manufacture of paper and wood pulp the increase was 10.1 per cent; in several other industries the increase was 5 per cent, and in 20 industries less than 5 per cent.

In one industry, Bessemer steel, there was a decrease in wages of 0.5 per cent. In the 41 industries, according to importance, the increase in wages per hour was 3.7 per cent. Of the 30 articles 29 were higher in price in 1907 than in 1906.

DEAD OF HYDROPHOBIA.

Six Weeks Ago While at Play Little
Girl Bitten by Dog.

New York, July 20.—Hydrophobia has caused the death of Florence Kirkman, the 6-year-old daughter of Ralph Kirkman, Brooklyn. Four hours before the child was removed from her home to a hospital, her cries could be heard all over the neighborhood where she lived.

Six weeks ago the child was bitten in the hand by a mongrel dog. She was playing in the street at the time, tossing a ball into the air. As she stooped to pick up the ball the dog ran up to her and bit her. The girl's mother took her to a nearby drug store, and had the wound cauterized. The wound seemed to heal and nothing more was thought of the incident until about a week ago, when the girl began to get spells of dizziness.

Mrs. Kirkman called in a physician but he thought that the dog's bite had nothing to do with the child's illness. Then the child had one convulsion after another. The doctor advised her removal to a hospital, and she was taken to the Kings' county hospital, where she died.

TAFT WILL BE MADE A STEAM SHOVEL MAN

Hot Springs, Va., July 19.—When Judge Taft goes to Cincinnati to be notified of his nomination for the presidency by the Republican party, he will receive notice of his election as a member of a labor organization. He has been elected member of the International Society of Steam Shovelmen, of which T. J. Donah of Chicago is president. Mr. Taft has a great deal to do with steam shovels at Panama. His notification of his membership in the union will be made on July 29. He will probably leave here next Saturday for Cincinnati and may not return until the following Saturday. Judge Taft has concluded that it will not be possible for him to attend any state fairs before the election.

Willis Moore, chief of the weather bureau, will be here tomorrow. Mr. Moore has some ideas concerning the treatment of the labor problem which he desires to talk over with Mr. Taft. Judge Taft will attend the opening of court at Germantown, five miles from Hot Springs, tomorrow morning and will deliver an address on the administration of justice.

TRAIN STRIKES AUTOMOBILE. KILLING SIX PERSONS

Warsaw, Ind., July 18.—Charles Sherman King of Fort Wayne, Ind., his wife and two daughters, Carl Timmins, the chauffeur, and Miss Fawcett Bradshaw, were killed in an automobile accident by being struck by a train on the Pennsylvania railroad west of Columbia City this afternoon. The party was in Mr. King's automobile, and was going from Fort Wayne to Lake Wawasee to spend Sunday.

JUDGE RYNER HURT.

Sustains Two Broken Ribs in an Automobile Accident.

Cheyenne, Wyo., July 19.—While Judge J. A. Ryner of the United States district court and his family were returning from Silver Crown this evening their automobile overturned about 20 miles west of town and Judge Ryner sustained painful but not fatal injuries, including two broken ribs.

His daughter, Mrs. Frank Gleason, was slightly hurt. Other members of the party escaped injury.

CANADIAN PROGRESS MAKES GREAT STRIDES

Washington, July 19.—Canadian progress is outlined in introduction to the annual consular reports of the Dominion just published by the bureau of manufacturers, department of commerce and labor.

The total trade for the calendar year was \$44,153,000, of which \$37,225,000 were imports and \$7,928,000 exports. The increase in imports over the previous year was \$2,758,000, and in exports \$3,430,000.

The United States exported to Canada in the calendar year goods to the value of \$22,582,000, which was an increase of \$4,455,000 over the previous year. This increase was maintained in the face of the preferential tariff which gives the United Kingdom an advantage of about 20 per cent in the customs duties. The exports from the United States to Canada are more than to all the rest of the North America, including Cuba and the West Indies, and more than twice the amount to South America or Asia.

The imports from the United Kingdom were \$36,849,000, an increase of \$19,204,000 over the previous year. Exports to the United Kingdom decreased \$8,458,000 over the previous year. Exports to the United Kingdom decreased \$8,458,000 over the previous year.

UTAH AND FLORIDA. Keen Rivalry to See Which Shall be Finished First.

New York, July 20.—The naval constructors at the New York navy yard, who are to have the supervision of the building of the 19,000-ton battleship Florida, authorized by the last Congress, are not going to lose any time in getting the ship ready for commission. The preliminary work is now well under way, and within a few weeks the navy department will ask for bids for material needed in building the battleship.

There promises to be keen rivalry between the private concern that will build the Utah, the Florida's sister ship, and government workers who will build the Florida. It is expected by naval officers that both ships will be ready for the fleet within two and a half years. At the close of 1910 the United States will own her first squadron of all big gun ships, to consist of the two vessels already named, and the Delaware and North Dakota, both of which are over 20 per cent completed.

Naval constructor William J. Baxter, the man who built the Connecticut, will again be at the head of the government force.

CHICAGO INFANT MORTALITY.

Chicago, July 20.—The Chicago health department today began a systematic warfare on the causes of the high death rate among infants in this city.

In the week just passed there were 151 deaths of children under 1 year old, as compared with the record of 111 for the corresponding week of last year. The weekly health bulletin says regarding this increase in rate:

"Much of Chicago's increased infant mortality in the last few years is due to the increased Slavic population. Our immediate efforts to further reduce the death rate among babies must therefore be especially directed to the education of the Slav mother in the care of her young."

The city council last week provided a special fund of \$10,000 for the hot weather care of children, and accordingly 75 physicians will be placed in the field today.

HARDWOOD MANTELS.

Combining beauty, durability and economy. The finest line of genuine piano-finished Mantels ever shown in the state, from \$50.00 up.

ICE COLD TEA.
Is delicious and healthful in this hot weather. No drink is more refreshing and invigorating, but make it right—follow this recipe: Brewing of tea requires fresh water that has come to a furious boil, steeping five to nine minutes, then pouring the liquid of the tea leaves into another pot. Follow this simple direction and with the addition of a small glass of lemon it makes a delicious, appetizing and cooling drink fit for the gods. But poor tea would spoil this drink. Get good tea.

QUEBEC CELEBRATION.
Opened With Monster Parade of
Young French Canadians.
Quebec, July 19.—The formal opening of the week's exercises began today with a monster parade of the young French Canadians, who assembled at the foot of Champlain's monument.

Earlier in the day Lord Roberts, accompanied by Earl Grey, the governor general, attended the Anglican cathedral, where a special service was given at the Catholic basilica in honor of the Duke of Norfolk, head of the English Catholics, and the officers of the French warships.

The scene on the Dufferin terrace tonight is one of striking beauty, with the feet of warships dimly outlined below, their searchlights flashing and the lights of Levis and the shore towns sparkling in the distance while great crowds surge about the kiosks and band stands to hear the concerts.

The franchise permits a rate of six cents for 25 cents. The operating company's franchise has been attacked in court and also will be voted on under the state initiative and referendum law.

Later, Senator Frank R. Monnett, former Republican attorney general of Ohio, who conducted the prosecutions that state against the Standard Oil company and later was employed by the interstate commerce commission to gather material upon which to base the government's suit, arrived here and held a lengthy conference with Mr. Bryan. Mr. Monnett announced that it is his purpose to actively support Mr. Bryan in Ohio in the campaign and that he will make numerous public speeches in behalf of the Democratic ticket.

Mr. Monnett said that he was authorized by Mr. Bryan to state that because of the government's dereliction in prosecuting the alleged wool
