### MAY TIE UP THE "L."

### Painters Threaten to Do it Unless Union Men Are Employed.

New York, Oct. 3.—Threats are being made by the Brotherhood of Painters that unless the members of their union are put back to work in the shops of the Manhattan Elevated railroad and none but union painters employed they will call a general strike involving employes of the system and completely tying up the road.

James P. Archibald, district organizer of the Brotherhood of Painters, has an-nounced that, at a conference in which every branch except the motormen, who are members of the Brotherhood of Locomative engineers, was represented, it was agreed that unless the Inter-urban company granted a conference with the painters and put them back to work by next Tuesday a general strike would be ordered. ordered

ordered. Frank Hedley, general superintendent of the Inter-urban company, declares that the painters were not locked out and that they have no real grievance. "We laid off our painters last Satur-day," he said, "because there was no work for them at present. The cars we intended to have remainted we have N C N intended to have repainted we have obliged to put into service on account of a heavy rush of traffic, and as soon as we can get to it, probably within 30 days, the painters will be put back to \* work. These are the exact facts in the

matter." Mr. Archibald insists, however, that beind out and that it the men were locked out and that it was done for the purpose of destroying their union.

their union. "We do not ask for more wages or shorter hours," said he, "but we shall insist that General Manager Bryan take the matter in hand and receive a com-mittee of our union. If he refuses the company must expect a tie-up. We will have all the employes except the engine drivers with us and if they should re-fuse to aid us in this fight they need never expect assistance from us in the future."
