IMPORTANT TO THE TRAVELER—It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburgh, Fort Wayne & Chicago, Kanaback Line and Pan Handle routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets from the Old Pioneer Route.

The Chicago and North-Western. You will find on all through Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City; A. H. Earl, Ticket Agent at Ogden; or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago.

Bad Accident.—Yesterday afternoon as some workmen were firing a blast at Tannersville, Little Cottonwood, a piece of rock was thrown, by the force of the explosion, a distance of over 200 feet, striking John Majors upon the back, inflicting injuries that may result fatally. Surgical assistance was sent for to this city.

Imitation Stone.—Mr. Horace S. Eldridge is having a large brick residence built, adjoining the one now occupied by him, on First South street. We are pleased to notice that the corner pieces and the door caps and window caps and sills are of the home made composite or imitation stone, from the factory of Mr. John H. Russell. They are of a cool stone color, sharply cut and as hard as the genuine rock, and it is claimed will stand the action of the weather equal to stone.

New Music.—We have received copies of the following new music, published by Oliver Ditson & Co., of Boston—

"Sonatine" for piano, by Carl Reinecke; "Kinderschenen, Scenes from Childhood," for piano; "Salve Regina," for baritone, or contralto, with Latin and English words. Also the following, published by C. E. Ditson & Co., 711 Broadway, N.Y.—

"My Fair Lady Waltz," by Ziekkoff; "Marche Heroique," by Madame M. Giovannini; "Fox Chase Galop," by W. B. Steiner. All for sale at the music store of Calder & Charles.

Runaway Smash Up.—Last night Col. Patrick was driving along South Temple Street, when a spring wagon, carrying a heavy load, suddenly dropped at one side, throwing a couple of ladies, who were with the Colonel, upon the ground, but not hurting them.

The situation of Col. Patrick was rather unpleasant for a while, as the splendid team, having become frightened, put out at their best speed. He held on to the lines until the vehicle was turned down side up, and he was laid out on the street, but luckily not much hurt.

The horses were brought up opposite the Temple block. The carriage was reduced to a wreck.

The Bullock Printing Press.—We have recently added to The Sun press room two new Bullock presses that are capable, without extra burrying, of printing some 30,000 copies each of The Sun per hour. They are beautiful pieces of machinery, and do their work to our entire satisfaction. They complete the number of seven Bullock presses in our press room; and when they are all working, we can turn off without extravagant exertion 120,000 copies of The Sun in an hour. We like the Bullock press very much, and intend to purchase one or two of the new Hoe press, which, like the Bullock, prints from a roll of paper, and prints both sides of the sheet in the same operation.

The Bullock press does equally good work, occupies about one-half the space, makes about one-tenth as much noise as the Hoe press, and much less costly. N. Y. Sun, July 24.

The SUE Question.—Miss Margaret A. White, of Mill Creek Ward, has, we consider, accomplished something of a feat in milk raising. She obtained some milk-worm eggs from President Young's coöperative farm, which she produced something over 16,000 worms, and from these latter thirty pounds of the largest and finest cocoons we have ever seen. We were shown some specimens, which we were assured were only worms, and they appeared like the best and largest picked from other loaves.

Being personally entirely unfurnished in the subject of silk raising, never having seen a silkworm till she got the eggs mentioned, Sister White paid a visit to President Young's coöperative and received instructions from Sister Zina Young and Sister Danyette and her daughter, a girl eleven years old, has attended to the feeding of the worms.

The cocoons are worth \$2.50 a pound, and the reeled silk \$5.00, and she purposed reeling it herself. This is but another proof of the adaptability of the climate of Utah

## to silk raising, a most important industry.

Lectures in Glasgow.—Here is a beautiful announcement of a series of lectures by Elder David McKee, of Utah, in the Hall of the Great Western Cooking Depot, 31 Tron-gate Glasgow, on Wednesday evenings, as follows—

August.—The Mormons; their Rise and Progress.

September.—Polygamy in the Christian Church.

October.—Restoration of the Everlasting Gospel.

November.—Literal Fulfillment of Prophecy.

December.—Divine Mission of Joseph Smith.

Normal Institute.—Programme of the Normal Institute to be held in the University building in this City, for the week beginning Monday, Aug. 2nd—

8 to 9 a.m.—Theory and Practice of Teaching.—Prof. Karl G. Maeser.

9 to 10 a.m.—Arithmetic.—Prof. J. M. Cogner.

10 to 11 a.m.—Oral Grammar.—Miss Della Gier.

11 to 12 p.m.—Object Lessons.—Miss Mary R. Stultforth.

12 to 1 p.m.—Intermission.

1 to 2 p.m.—Reading.—Prof. W. H. Rager.

2 to 3 p.m.—Penmanship.—Prof. F. M. Bishop.

When to Vote.—The First, Second, Third, Eighth, Ninth and Tenth Wards are in the First Precinct, and the polling place is at the Ninth Ward school-house.

The Fourth, Fifth and Sixth, Seventh, Fourteenth and Fifteenth Wards are in the Second Precinct, voting place at the County Court House.

The Sixteenth, Seventeenth and Nineteenth Wards are in the Third Precinct, voting place at the Sixth Ward school-house.

The Eighteenth and Twentieth Wards are in the Fourth Precinct, voting place at the Twentieth Ward school-house.

The Eleventh, Twelfth and Thirteenth Wards are in the Fifth Precinct, voting place at the City Hall.

The polls will be open one hour after sunrise on Monday morning, and continue so until sunset in the evening.

Every legal voter should walk up to the polls, deposit his or her vote, as the case may be, and walk quietly away, avoiding everything calculated to cause a disturbance. For every peace and right-loving citizen to exercise the franchise, is a duty which should not be neglected. That honest and capable men only may, by their suffrage, occupy public posts of trust and responsibility.

Moved In.—Messrs. Latimer, Taylor & Co., wood workers, have moved into their new factory, at the corner of South Temple and Second West Streets. It is a two story building, measuring forty-eight feet by eighty feet, with plenty of room between floors. Their machinery is set up and in full blast in the new premises, and numbers nearly a dozen pieces, including scroll saws, turning lathes, planing machines, sash and door and moulding machinery, etc. About one hundred different descriptions of mouldings are manufactured by them. In fact they have all kinds of machinery in the wood working line, excepting that for the manufacture of blinds, which, however, they purpose obtaining as soon as practicable.

Reids's factory, there are other buildings on the ground, in which is stored a large amount of stock.

At present about twenty-four men are employed at the factory, and the facilities for doing every kind of work in the line are excellent.

The gentlemen who compose the firm are well known as old members of the community, and efficient business men. Besides Messrs. Latimer and Taylor, Messrs. Geo. Romney and Frank Armstrong are members of the concern.

The frames and other ornamental work for the remodeling of the residence of the Hon. Geo. W. Cannon, also for the new residence of Mr. Feramor Little, are being made there.

As a home manufacturing concern we wish the factory success.

The Lee Trial.—The following was received Thursday afternoon:

BEAVER, 29th.

Samuel Pollock, who had been a witness for the prosecution was called for the defense. He repeated much of his testimony given for the prosecution.

Sutherland asked a question seeking to prove that witness heard Lee capitalizing with the Indians for peace with the emigrants, the Indians having the property, but the emigrants be taken to Cedar city.

The court held that what Lee said on the stand before the massacre was inadmissible.

William Young was recalled, and by him the defense offered to prove conversations with Lee, in which the Lee expressed a desire that the emigrants might be saved, and that he gave a dispatch to Higbee telling him "for God's sake, for his own sake, and for the sake of humanity, to go to Cedar for reinforcements, that the lives of the emigrants might be saved." The court ruled out the testimony on the same ground that he had the above.
