

EVENING NEWS.

Friday, April 9, 1930.

LOCAL AND OTHER MATTERS.

Street Sprinkling.—This hydrant has been already called into use for sprinkling purposes. East Temple Street just south of Walker Brothers' corner received a grateful soaking this afternoon.

Another Benefit Party.—A party will be given this evening in the 21st Ward school-house for the benefit of Elder Joseph W. Burt, son of Bishop Andrew Burt, of that ward. The young man was called at the late conference on a mission to the United States, and will leave in this city, and particularly in that ward, a large number of warm friends.

Police Court.—A Chinaman was arrested last night for stealing wood, and this morning was fined \$10, which he will work out on the streets.

Two young men were brought in to the jail for being drunk and disturbing the peace. Not being in a condition to appear before the magistrate to-day, they will receive their attention to-morrow.

A Hint to Actors.—We suggest to the young disciples of Theophrastus who will walk the mimic stage to-night, the propriety of pronouncing the word "my" in such phrases as "my lord," "my sister," etc., as if "my" was short; not saying "muh-lee," "muh-sister." That is as bad as the long "my" of the novice. This is only a hint you know.

A Faithful Mail Carrier.—We are informed by those who are cognizant of the facts, that much praise is due Mr. Henry Goldsborough, the mail carrier through Sanpete up the river, for the faithful manner in which he has performed his duties this winter. He has given general satisfaction, it is said, and though at a pecuniary loss to himself, has filled his position with credit.

Meetings To-day.—The Territorial Board of Trade held a long meeting in the Council House this morning, commencing at half past eight. After that adjourned, the brethren called to go on missions were set apart and received instructions from those in authority.

In the afternoon at 2 o'clock the presidents of the various societies, with their counselors, assembled in the same building.

The "Glorious Fourth."—A movement is being agitated to get up a big celebration here on the 4th of next July, thus making our city the center of interest and attraction on that memorable day, instead of a tributary, as heretofore, to the surrounding towns and places of holiday resort. It is said that a number of prominent citizens and public officials are interested in the enterprise, and will do what they can to carry the plan into effect.

Railroad News.—Another large shipment of iron for the Utah Southern Extension came in this morning.

On and after Monday next, trains on the extension will run to Black Rock, 35 miles further south than Desert, the present terminus. Tracklaying on to Frisco, the proposed permanent terminus, will be pushed forward without delay. Considerable time has been lost by the washout and the repairs necessary at Mud Lake.

New Painting.—Mr. Louis Pratt, the rising young artist of this city, has just finished a new oil painting. The subject is a household scene, partly imaginative and partly copied. The coloring is excellent, and the four work tastefully executed. Mr. Pratt is making steady progress with the palette and brush, and with perseverance and practice will develop into an artist of reputation. We were shown this picture a week ago, but unavoidable circumstances have prevented its being noticed before.

The "Sorcerer."—The comic opera of the "Sorcerer" was witnessed last evening by an audience tight in number, but quite appreciative. The performance was very creditable, a decided improvement on the former productions of the opera in this city, and as such was deserving of a better house. Conference discussing yesterday took many away on the afternoon trains who would have patronized the entertainment, and the place having been presented here several times before, could not depend so much upon city custom.

However, there is talent in the city and a bright future to develop it, and with study and experience the members of Zion's Musical will yet show "the mettle of their pasture." We wish the society every success.

A Great Attraction.—During Conference about two thousand persons have visited the place with the blue front—the Mitchell wagon premises—where Mr. L. B. Mattison has been kept busy with his assistants in showing wagons and machinery, the great attraction being the Davis Iron Wagon, which is something new under the sun of Utah. The wagon on exhibition will carry fifty hundred and is said to be no heavier than the wooden wagons of its own capacity, while from its non-shrinking qualities it is adapted peculiarly to this arid mountain region. It has been pronounced by some machines who have seen it as nearly invulnerable as possible. Wrought and malleable iron enter into its construction, wheels and all its working parts are protected from dust and grit, it can be easily fitted with repairs when necessary, which cannot be often, and has many remarkable points which we have not space to describe. The cost is only about \$15 in excess of the wooden kind, and it would seem as though one wagon with proper care would last a lifetime. It is well worth a visit of inspection, and can be seen at the time just past, had a block south of the Theatre.

Territorial Insane Asylum.

To board of directors appointed by the Territorial Insane Asylum, meeting on Thursday, April 10, 1930, at 10 a. m., in the office of the "Deseret" National Bank. Full board present.

The committee appointed at the last meeting with instructions to obtain information in regard to the most approved methods for conducting and maintaining the asylum, has reported some very interesting facts embodied in a communication which had been received by Governor Murray, from Anna, Illinois. The committee were not yet prepared to make a final report, and asked an extension of time to complete their labors. Granted.

A motion was made and carried that the secretary of the board communicate with the authorities of the four counties within which district of the Territory the law requires that the insane asylum be located, as well as the officers of different counties in said district, calling their attention to the provisions of the law pertaining to the location of a site for said institution, and requesting them to furnish to the board such information as they may be in possession of relative to the adaptability of sites in their respective localities for the erection of an insane asylum, together with any other information calculated to assist the board in its labors.

In pursuance of section 5 of the act establishing an insane asylum, which section requires the location of a site for said asylum to be confined within that portion of the Territory embraced in the counties of Salt Lake, Utah, and Weber.

It was decided that the board of directors, Governor Murray among them, shall visit the counties alluded to, in the following order, to wit: On Tuesday morning, 20th inst., to visit Farmington, Davis County, and in the evening of the same day to proceed to Ogden Weber County, returning to Salt Lake City on Thursday, the 22d inst., to interview the authorities of Salt Lake County, and on Friday the 23d, to complete their tour of inspection with a visit to Provo, Utah County. Adjourned to meet at Farmington on Tuesday, April 20th, at 10 o'clock a. m.

The "Romance" To-night.—The "Romance of a Poor Young Man" underwent its closing rehearsal last evening, and will be put upon the stage to-night, for the second, and last time, by the Home Dramatic Club. Those who witnessed this beautiful play before, were surprised and delighted at the excellent style in which it was given by the young company, and their successful debut of a week ago is still the topic of much conversation in social circles.

Those who were prevented from going at that time, realized that they missed a treat, and together with many who attended the first performance, are determined upon witnessing the drama this evening. It will be produced with precisely the same cast of characters, and all the striking scenic effects and stage appointments that marked its opening presentation, with a change of orchestral music to render it still more attractive. Besides, the playing can scarcely fail to be an improvement, since the first time took the place more of a good dress rehearsal than anything else. The experience, increase of confidence, and comparative absence of stage terror, will doubtless be manifestly manifest.

The Careless orchestra will open with the new overture "Bastien le Savoyard," at a quarter to 8 o'clock, and between the second and third acts will render the ever-popular, soul-stirring "Turkish Review," which our Conference friends should, by all means, hear. The other selections will also be fresh and beautiful. Tickets are going rapidly. All who wish to see the performance should make haste to secure seats.

A Tumble.—About 4 o'clock, on Wednesday afternoon, a young man seated in a buggy between two smiling damsels, drove down Main street at a speed and style that rendered the party the observed of all observers. Suddenly while executing a brilliant flank movement around the Deseret Bank corner, the horse stumbled and fell heavily to the ground. The halt was necessarily sudden, a couple of screams rent the sky, and before they were aware, both ladies were making the most encouraging progress over the dash-board in the direction of the horse's ears. They would undoubtedly have succeeded in gaining the prostrate animal's back had not the gallant driver dropped his lines at the perilous moment and held the errand maidens in the buggy. The horse quickly recovered himself, but the customary runaway supplement was prevented by several bystanders, who grasped the steady by the bit until the driver and one of the girls had descended themselves, when the vehicle rolled away. The other girl could not be persuaded to re-enter the buggy, but walked off in the opposite direction, completely satisfied with her day's experience.

Cincinnati Festival.—We have received the official programme of the fourth Cincinnati Biennial musical festival, which will be held May 18, 19, 20 and 21, conducted by Theodore Thomas. During the festival will be presented selections from the greatest classical composers, and the concluding concert of the series will consist of Beethoven's most popular instrumental work, "C minor symphony," and the best composition of his life, the "Missa Solenne," in D major. Among the names of performers we notice Signor Campanelli, Messrs. Whittier, Harvey and Rudolphsen, and Misses Annie Louise Cary, Annie B. Norton and Aday Sharwin. The latter has many friends in this city who will be pleased to hear of her success in her musical studies. The festival will doubtless be the grandest musical performance ever given in America.

Rock Report.—The Lowenthal (Newark, England) News and Observer, of Feb. 28th contains a very favorable account of a conference of the Saints, held in the chapel which was built many years ago by Bro. Samuel Neslen, now of this city. It passed out of the hands of the Saints for a time but is now held by them again. President Wm. Badger and Elders Parker, Walsh and others addressed the large assembly, and their remarks were very fairly reported. We hope to give credit to papers that do justly.

I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen of this vicinity known to every one as a most influential citizen and Christian Minister of the M. E. Church, just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure. It is having a tremendous sale over our counters and giving perfect satisfaction in all cases. Diseases, such as nothing else has done."

It is Truly Wonderful.

AN INTERESTING EXHIBITION.

Among the many attractions of this city during the present Conference of Latter-day Saints, nothing of more solid merit is to be seen than the grand display of Mowers, Reapers and Self-Binders by D. M. Osborne & Co., at their extensive branch house No. 101 and 103 East Temple Street, where they have a complete line of their celebrated machines in motion during all hours of the day.

A small water motor is attached to a line about 100 feet long, which connects by belt with the different machines, thus enabling persons to observe and understand the mechanism, and utility of every part that enters into the construction of these machines.

The busy whirl of Mowers, Reapers and Self-Binders, affords a very interesting and instructive sight, and is fully appreciated by the constant crowd of visitors pouring into that establishment.
