REMARKABLE CASE OF HEALING.

THE manifestations of the power of God in the healing of the sick in this Church are of almost everyday just and rational to say no courrence. But such cases as the following are rare, requiring faith quite uncommon in this age of skepticism. The particulars here given are contained in a communication to effect upon some of their patients. the Millennial Star, published June Healings by faith are no new phe-nomena. Accounts of them may be 2nd, and signed by W. R. Webb, an Elder from American Fork in this obtained from all nations in all ages-Territory, now on a mission to Eng-land. Prest. A. Carrington:

Dear Brother — George Lowther is a member of the Church of Jesus Christ of Latter-day Saints, and lives at 29 Chilton St., Monkwear-mouth, Sunderland. On May 19th he was at work at a colliery in that trustful, simple and humble and de-place, when he fell from what is voted its members are to the religion place, when he fell from what is called a screen, a distance of about 20 feet from the ground, and broke several of his ribs and some other bones. He was taken home and laid upon the bed. He did not send for any doctor, but did as recom-mended by the Apostle James, chap. v, 14th and 15th verses: "Is any sick among you? let him call for the elders of the church; and let them pray over him, anointing him with oil in the nume of the Lord: And the prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins, they shall be forgiven him." revealed to them, the greater and more frequent are the manifestations of the power of God, tacluding healings, and what are sometimes called "miracles,"among them. This is because they are the effects, not of knowledge, wisdom, experience, determination, wealth or authority, but of faith. Little children and the unlearned of riper years often obtain and exercise the power in a greater degree than the matured and eduthey shall be forgiven him."

They then commanded him in the name of Jesus of Nam-reth to rise up and walk, which he did immediately around the house and in the yard, and on the Sunday following was at meeting and spoke healing process. "All things are possible to them that believe," was a saying of the Savior that is full of deep philosophy, although it is foolishness to the worldly wise. We are well aware that communication, prevailed in the the above statement will meet with derision on the part of godless men, who have not faith themselves, and therefore—very irrationally — deny the existence and force in others. The persecutors of the human will. The persecutors of the ancient seers cried out "Prophesy! Prophesy!" when they smote the servants of the living God. But, as the scriptures declars, "Prophecy came not of old by the will of man, but holy men of God spake as they were moved upon by the Holy Ghost." So in regard to faith, and healings as the results of its exercise. God has commanded his people in the latter days what to do in case of sickness. He does not say that they shall not obtain competent advice and assistance. He does not say they shall use no medical remedies. For this would be a contradiction for the saints that "All wholesome herbs hath God ordained for the constitution, nature and us of man," Basedenas and assistance of state and the God state that "All wholesome herbs hath God ordained for the constitution, nature and us of man," Basedenas and the God state of the source and the constitution, nature and us of man," Basedenas and the God state of the source and the constitution, nature and us of man, "Basedenas and the God ordained for the constitution, nature and us of man," Basedenas and the God ordained for the constitution, nature and us of man, "Basedenas and the God ordained for the constitution, nature and us of man," Basedenas and the God ordained for the constitution, nature and us of man, "Basedenas and the God ordained for the constitution, nature and us of man, "Basedenas and the God ordained for the constitution, nature and us of man, "Basedenas and the God ordained for the constitution, nature and us of man, "Basedenas and the fatter or the source and the constitution in the fatter of the point of the source of \$50,000 has been declaration to the source of \$50,000 has been declaration to the source and the const the point of the point of the point of the point of the p

But while there is no law or cau-sel of God against the employment of akilled assistance in sickness-(and when help is had is not the best available to be preferred?) there is a commandment that if any are sick "the Elders of the Church, two or more, shall be calle I and shall pray for and lay their hands upon them to may meass?" and the promise is, "he that hath faith in me to be healed and is not appointbut they are to be used "with Judgod. 74
