

## THE EVENING NEWS.

Saturday, Oct. 12, 1874.

## NEWS NOTES.

During the year 1873, 338 new schools were built in England.

Corn stalks nineteen feet high at Los Angeles.

The silk factories of New Jersey employ 7,000 girls.

Middle Tennessee had rain on the 28th of August for the first time since the 15th of May.

The champion two-legged runner of Vermont makes his miles in 5.22.

The Springfield Republicans say that great quantities of stuff for dipping and carding in New York.

The Miss at Orleans is to be canonized, so that she will be styled Saint Joan of Arc, hereafter.

Thiers is the only venerable public man in France, now that Guizot is gone.

The young ladies of East Tawas, Ill., have organized an amateur base ball club, known as the White Stockings.

Opera glasses in church are described in Richmond, and just as the new bonnets are coming out, too.

Ex-senator Ross, of Kansas, is now foreman on a Lawrence paper when he held eighteen years ago, before embarking in politics.

Mrs. Van Cott says that she does not ask for "ordination," but for simple liberty "to take a text." She can take as many as she likes.

British beer and ale have been pronounced as dangerous by the House of Commons Committee appointed to consider the matter.

Parliamentary Committee appointed to consider the matter.

To make an investigation.

Four bridals for \$4,000; one of them for \$1,800; another, a light blue silk trimmed with point lace, for \$1,500, at New York.

The Vokes family take their farewell of America on Monday, October 12. Mr. Daly will give them a parting festival matinee at the Fifth Avenue Theatre.

The degradations of river thieves along the Brooklyn shall have become so frequent and extreme that they will be liable to constitute a regular business.

The Methodist Recorder, addressing church and congregation, says, "Let your pastor's wife alone." Very good advice those degenerates days.

A Brooklyn Theatre makes the following extraordinary announcement: "Thrilling Execution Scene! A Man Really Hung! For two nights only."

Many of the water power mills in different Eastern States are compelled to stop during the continuance of the drought, but they are all right again.

At Patterson, N. J., nine chickens were hatched out of a nest of egg that happened to get covered up in a manure heap. The natural warmth of the manure did the business.

The relatives of Captain Ryland, the "Prisoner of War," \$500,000 in compensation for his death. Half a million dollars is better than nothing, but why didn't they put in for his full value?

Mr. Wilson has thoroughly explored the Uncampagne range in despite of the storm, and reports finding coal and rich veins of gold, silver and galena. He is a member of a lay expedition.

A French writer in the Revue des Deux Mondes says that England is "preparing to give herself up, body and soul, to emotional politics, by opening the electorate to the female sex."

The newspaper interviewer has been playing his vocation so industriously that a revolution has set in, and it is to be thrust out altogether. There is such a thing as being too familiar.

Dr. J. J. Hayes, in a letter to the New York Tribune, declares his conviction that an open polar sea can be reached by a steam vessel through Smith sound, and announces his readiness to start on another voyage of exploration when means are forthcoming.

Dr. Petri, of Berlin, has perfected a process for producing odoriferous blocks of fuel from excrements, which also burn without odor, with a heating effect equal to brown coal, and affording an ash excellent as a phosphate fertilizer.

A Connecticut lady who wants to know, is informed by the Woman's Journal, that the free love movement advanced, as an theory, by the Anabaptists of Munster, and other religious fanatics, during the Protestant Reformation in the sixteenth century.

The New York Tribune says, "It is fast becoming a proverb that our police authorities are far more a terror to respectable citizens than to the criminal classes." That's about how it is with many of our federal officials here.

The American Newspaper Reporter thinks the printing of the future will be done without types, that the form will be written on a vacuum plate, and printed by electricity on one side of chemically prepared paper, a hundred thousand copies in the time it now takes to print one copy.

Money is so plentiful and cheap at Chicago that the most conservative loan agents are urging it for loans on mortgages at nine per cent for a term of twenty years. The cost of building has been reduced thirty-three per cent, good brick is \$6 per 1,000, and brick and mortar laid in wall cost only \$9 per thousand.

AWARDED TO THE

BOOK AND JOB WORK

Reliable Testimony

CARL C. ASMUSSSEN,

BORN very desirous to dispose of all his

Business Jeweler, Watchmaker, Clocks, Field

and Opera Glasses, Spectacles, etc., etc., offered

for sale, and will sell at the lowest price.

The JEWELRY is selected with the

utmost care, and is excellent.

The WATCHES are unsurpassed

for both strength and good taste.

All pieces are guaranteed to be

from reliable sources well known in the Territory.

The Watch I bought of you last year proved to be the best. It was in the water, once at the depth of six feet, besides many other mishaps, but still continues to run with perfect accuracy, being always right to time.

JOHN SANDO, Camp Douglas.

The Watch I bought from you is all that can be desired. As a timekeeper and for its reliability, it is second to none.

A. C. BROWN, Brakeman U. S. R. R.
