Another Stolen Child.

A LITTLE GIRL SIX YEARS OLD STOLEN FROM HER MOTHER SOMEWHERE EAST AND ABANDONED IN CENTRAL COLORADO.

A bright, hazel-eyed, dark-haired, good-looking girl, between five and six years old, made her appearance at Black Hawk more than a month ago. She was brought there by a red-haired and red-whiskered man, accompanied by two others. They took up their abode in a cabin, and she was permitted to sleep on an armful of straw in the corner, so ill-fed that she often fell down from sheer weakness. The three men were constantly drunk. One of them who claimed the control of her, told various stories concerning her. One was that she was captured by the Indians when four months old, and he had recaptured her. Another is that her mother had died when she was eight months old, and had given the child to him in Montana. Still another is that she is his own child. To Father Bourion he stated that one day he was going past a house in Minnesota where he saw a woman beat the child fearfully, and he ran to the child, seized her and took her away. Father Bourion gave him \$5 to pay board, with the suggestion that by the time that was gone he would get work. About this time, or two weeks ago, he took the child to P. Black, and engaged him to board it. Since that time the man and his companions have disappeared. After remaining some time with Mr. Black, Mr. Franks, our street commissioner, took her to his home, and has kindly provided for her, and she is winning golden opinions from him and his family. She shows indications of severe abuse and lack of care and nutriment. She calls her name Lizzie Burch, and says that is the name the man who had her gave to her, but that it is not her own name. She thinks she lived in Minnesota, and talks of some bodies of water or place called Canada Lakes. She has a scar under the left side of her lower jaw caused by a burn or scald. She says she had a trunk of clothes among which was a red dress. The man when drunk, told that he had left a trunk containing his and her clothes in Omaha. It is very evident that she has been stolen from her parents, though she cannot tell anything about it.

Our exchanges and other newspapers will confer a favor by publishing this notice, that if possible she may be returned to her friends. Information concerning this child may always be obtained at this office.—Central City, Colorado Register, Aug. 2.

Dio Lewis moderately estimates that he has saved half a million people from the drunkard's fate.

The Southern Troubles.

CIRCULAR OF ATTORNEY-GENERAL WILLIAMS.

DEPARTMENT OF JUSTICE, Washington, Sept. 3, '74.

SIR—Outrages of various descriptions, and in some cases atrocious murders, have been committed in your district by bodies of armed men, sometimes in disguise, and with the view, it is believed, of overawing and intimidating peaceable and law-abiding citizens, and depriving them of the rights guaranteed to them by the Constitution and laws of the United States. Your attention is directed to an act of Congress, passed April 9, 1866, entitled an act to protect all persons in the United States in their civil rights, and to furnish means for their vindication, and to another passed April 20th, 1871, entitled an act to enforce the provisions of the fourteenth amendment to the Constitution of the United States and for other purposes, also, to one passed May 6, 1870, entitled an act to enforce the right of citizens of the United States to vote in the several States of this Union, and for other purposes; which, with their amendments, make these deeds of violence and blood within the jurisdiction of the general government. I consider it my duty, in view of these circumstances, to proceed with all possible energy and dispatch to detect, expose, arrest and punish the perpetrators of these crimes, and to that end you are to spare no effort or necessary expense. Troops of the United States will be stationed at different and convenient points in your district, for the purpose of giving you all the needful aid in the discharge of your official duties. You understand, of course, that no interference whatever is hereby intended with any political or party action not in violation of law, but protection to all classes of citizens, white and colored, in the free exercise of the elective franchise and the enjoyment of other rights and privileges to which they are entitled under the Constitution and laws as citizens of the United States. Instructions are issued by authority of the President and with the concurrence of the Secretary of War.

Very respectfully, GEO. H. WILLIAMS, Attorney General.

The above was addressed to the U. S. Marshals and attorneys, and was prepared with the approval and indorsement of the President, to whom the substantial points were submitted during a visit of the Attorney General to Long Branch.

The Dried Fruits of America.

Up to within a short period the United States has been entirely dependent upon the South of Europe for its supply of the luxury of dried fruit, such as raisins, Zante currants, prunes, figs, etc. The total amount imported by the United States, is not less, in round numbers, than \$15,000,000! Several years ago California started on a large scale the cultivation of the grape and it was successful. Succeeding this came the experiment of drying the fruit to a raisin. Samples of the raisins were sent to Europe, and when shown to Mr. Clemens, the great raisin factor of Malaga, he remarked that in time the California raisins would supply the United States market to the exclusion of the foreign product. California is now coming to the front in the matter, and from recent experiments made by the Alden Evaporator it has become evident that this country is soon to be made independent of foreign supplies of raisins, currants, prunes, etc. There is another article of dried fruit that bids fair to become important in the commerce of this country, and that is dried peaches. In Indiana, Kentucky, Tennessee and Georgia there are immense peach orchards, covering hundreds of acres; by a new process the peach is now pared, sliced and dried in such a manner as to make it one of the most delicious desert dishes. In Michigan, Wisconsin, Iowa and Illinois the trade in dried raspberries and blackberries has become immense, and there are houses in Chicago that can fill on demand an order for 500 barrels. The system of drying fruit in this country by hot air, instead of the old process of drying in the sun or in the kiln, has proved of great value. The enhanced prices at which the foreign fruit dealers have

held their products during the past four or five years have driven our importers to the necessity of reducing their orders and compelling the shipments to be made on consignment; and now that it is demonstrated that our Western slope can furnish all and more than is sufficient for home consumption, we may look for a speedy release from foreign dependence.—Ex.
