Young Railway Man Shot While Attempting to Break in House.

(Special to the "News.") Ogden, Sept. 28.—According to the Grand Junction Daily Sentinel of Sept. Management of September of Sept the morning of Wednesday, at Grand Junction, has been partially cleared up. Mrs. Minnie Hare, a trained nurse, who has resided at Grand Junction for a number of years, has given herself up to the police and admitted firing the thot which caused the death of Coursey. According to Mrs. Hare's story, she was twakened at an early hour Wednesday forming by the sound of some one trying to gain an entrance to her house. She called out, "Who" there?" called out, "Who's there?" and upane called out, "Who's there?" and upon receiving no reply, opened the door

The ward choir and Mrs. Mary Farley furnished the music, and there was a large attendance of friends. Interment was in the city cemetery.

BARBERS FINED.

Tried Before Outside Justice for Barbering Without License.

Ogden, Sept. 28.—The case of the State against J. E. Coulter and Niels Hanson, two of the local barbers charged with violating the state laws by practising their profession without a license, was heard yesterday after-noon by Justice of the Peace Charles

Dinsmore of North Ogden and fined \$10 and costs, amounting to \$24.15 each which amount the gentlemen paid. The prosecuting witness was William Piggott, president of the Barbers' union. Mr. Coulier was very indignant last evening over the turn the case took against them, and said that he

would leave the state rather than pay for a license. These same two defendants were tried two weeks ago before Judge Murphy on a similar charge, and he discharged the defendants, holding that the law requiring barbers to pay a yearly renewal fee of \$1 for their state license was unconstitutional. There is some talk of the barbers appealing the case to the higher court, but it is doubtful if the necessary funds to fight an appeal can be secured from those following the

profession in Ogden. J. M. OLSON DEAD.

J. M. Olsen passed from mortality yesterday morning at his home, 2237 Lincoln avenue, aged 67 years, from disease of the liver, from which he had suffered for over three months. He was one of the oldest and most trusted employes of the Southern Pacific, having been in the company's service for over 30 years in the machinists' department When the shops were at Terrace, Utah, he was in the same department there, and came to Ogden when the shops were removed here, and continued at his work of valve setting, in which he was an expert, until his health began to fail him a few months ago. Besides his aged wife three daughters and one son survive him, also many friends. The funeral services will be held Sunday.

LIGHT PLANT PURCHASE FAILS

Citizens in Mass Meeting Sustain Conncil Majority-Other News Notes.

Special Correspondence, Provo, Sept. 28.-The citizens' mass

meeting called to meet in the old tabernacle last evening for the purpose of considering whether the citizens favored the purchase of the Provo Electric company's distribution plant, was attended by about 100 persons. Mayor Frisby presided.

Councilman Partridge explained the present option, which fixes the price at \$35,000, with the proviso that if the plant is purchased the city shall agree to transmit electric current for power to the Telluride Power company's employes and offices and industries, power to the extent of 10 per cent of the capacity of the plant, said current to be supplied by the Telluride Power company shall be permitted to build its own pole lines in the city, if at any time the amount transmitted over the distribution system is insufficient for the purposes of the company. He read correspondence between the city and the electric light company and the Tel-luride company, relating to the advance of the price of lights and the op. tion to purchase and its terms and explained the action of the council, and that the council could not agree on the matter of purchasing the plant. Seven had voted against the purchase and

three for it. Councilman Bott presented the views of the three councilmen who favored the purchase of the plant. The minority, Mr. Bott claimed, had figures to show that by buying and operating the electric company's plant, the city could from the profits of the system and the waterworks liquidate all the indebtedness of the city in fifteen years, The minority did not consider the agreement to transmit ten per cent of the current free of charge, a serious

Mayor Frisby suggested to Mr. Partridge that inasmuch as the minority had stated its reasons for arriving at the conclusion that it was profitable to buy the plant under the terms imposed by the option, the majority also state its reasons why it considered such purchase disadvantageous for the city, Mr. Partridge, in doing so, objected to the "strings" attached to the option. believing them unfair to the city. offered a solution of the lighting problem that the city use the telephone companies poles for stringing wires on for lighting the city. The city had that privileg with the Independent company, while the Bell Telephone company would charge 15 cents a "hitch," for each wire attached. He also stated that the Utah County Power company would bring wires to the city and sup-ply the city lights for street lighting at 662-3 cents a light by stringing wire over the poles of the telephone companies. He also suggested that temporary power might be obtained from the waterworks pipe system now being

White Bread Starves

Many People.

A piece of bread that is dry, white and very light in weight seems to the

thoughtful person like so much foam or other useless and non-nourishing If one rolls a piece of moist, light

tween the fingers, a ball of dough is the result, with an appearance of solidity that makes one question how the gas-tric joices of the stomach can dissolve It is small wonder that such food

creates havoc in the way of fermentation, gas and consequent disorder. Many persons will find great help by leaving off the ordinary bread entirely, and using in its place Grape-Nuts, in which the starchy and nitrogenous sub-stances have been thoroughly and perfectly cooked at the factory before being sent out.

There is no possibility of this food

assuming the form of wads of dough. On the contrary, it is already predi-gested, the starch of the grains has been changed into sugar in the process of manufacture and passes quickly and di-

rectly into circulation, Grape-Nuts furnish the elements needed by the system to rebuild, particularly the soft, gray matter in the brain and throughout the nerve centres in the body. This statement will be verified by its use. It is delicious doing a good business. Brigham City, Boxelder Co., Sept. 27.—
The trial of the case of the State va Henry Woodland and Edward Sorensen, en
the charge of attempted murder, is now
being heard by Judge W. W. Maughan,
in the district court. Sorensen today plead
guilty, turned state's evidence and told
how he and Woodland plotted a number

The alleged attempt at murder, for which the young men are being tried, was committed June 12 of this year, and on Sept. 20 Sorensen entered a plea of not guilty. Today, however, he determined to turn state's evidence and altered his first plea by declaring himself guilty of the crime as charged. This was objected to by Judge Powers, attorney for Woodland, but was overruled. The court set Oct. 1 as the time for fixing sentence.
