Red Men Reorganized.

Ogden, Utah, Jan. 21.—At the meeting of the board of education last night, William Allison submitted his monthly report for the period ending Jan. 13, showing a total enrollment for the month of 4,303; the average number belonging, 4,050.

The finance committee reported that the city's portion of the state school fund recently disbursed amounted to \$22,224.50, and that the cash on hand amounted to \$33,916.44.

Two new teachers were elected—R. E. Williams and Miss Myrtle Fuller. Supt. Allison recommended that the principals of the schools be permitted to accept fees of pupils joining the anti-Chinese league, and transmit them to the treasurer of the league.

After considerable discussion the recommendation was adopted. The report of the board of examiners showed that out of 12 applicants at the mid-winter examination for teachers two only had received certificates, and the remaining ten were required to re-examine.

DISTRICT COURT.
In the district court yesterday, George J. Marsh, attorney, asked in behalf of the administratrix of the estate of Heber Wright for permission to continue the trial of the estate against the Southern Pacific company for \$3,300. Judge Howell took the request under advisement.

Dist. Atty. George Halverson made a request of District Judge Howell that he summon a grand jury to investigate conditions as regards violations of the law in this district. The particular question calling forth the request at this time is the bounty fraud business, but the attorney implied that there were many other matters which should be investigated and could be best looked into by a grand jury. Judge Howell took the matter under advisement this morning at 10 o'clock.

the district court for the February term which begins Feb. 6 was made today by County Clerk Madison in the presence of Treasurer Alma D. Chambers and John D. PUTTING IT STRONG.

But Doesn't It Look Reasonable.

This may read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia is a chronic form of incurable or practically so. But we have long since shown that Dyspepsia is curable and it is such a difficult matter as at first appears.

The trouble with Dyspepsia is that there are continually dying, starving themselves or going to the opposite extreme or else deluging the already overburdened stomach with "bitters" after dinner pills, etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach needs is a rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its success and popularity leave no doubt as to its merit.

The Tablets will digest the food anyway, regardless of condition of stomach. The sufferer from Dyspepsia, according to doctors, should eat a diet of plain, good, wholesome food and use the tablets before and after each meal and the result will be that the food is digested no matter how bad your Dyspepsia may be, because, as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 180 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be so weak yet that the tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time the radical, lasting cure of Dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest. Four druggists will tell you that all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

A SIMPLE LIFE.

One of the first things of importance

in living a simple life is in using a simple diet. This does not mean that you must eat the coarsest food and that which is unpalatable to you; but, for you to eat the very best you can get of the ordinary necessities. First among these is good bread and butter. Poor food is the family which cannot afford the best of this! It is not extravagance to pay an extra price for better extra in quality, as it makes you eat more bread. People not used to butter alone and when they are eating good bread and butter, they will not eat so much of other foods less healthful and more expensive. There is only one best sold in this market and that is Hatch nut Brand Butter. Your grocer can get it for you.

MRS. DRANEY LAID TO REST.

Mrs. Mary Jane Park Draney, after a brief illness, passed peacefully to rest on Sunday evening last, Jan. 15. Funeral services were held Wednesday afternoon in the Plain City meetinghouse. The floral offerings were numerous and beautiful. The ward choir rendered sweet music and Elders John Carver, Chas. Weatherston, Robert Maw and Counsellors Peter M. Poikman and Henry J. Carpenter offered consoling remarks and spoke feelingly of the lovable disposition and sterling character of the deceased through all the hardships of a pioneer life. She was the dearly loved mother of the Draney family, and always ready to lend a helping hand or offer an encouraging word where occasion required.

Mary Jane Park Draney was born Oct. 25, 1826, in Newbury, Co., Ireland, but was of Scotch parentage and was raised in Scotland, where she also embraced the Gospel. She emigrated to Utah in 1856, crossing the plains with her second husband, John Draney, that year, and together with her husband, the late John Draney, drew a heavy handcart with their few belongings and their small children across the plains. They remained in Salt Lake City until the move south, and made Lehi their home until 1861, when they came to Plain City with the early settlers, and have since resided in that place. Sister Draney was a devoted mother and faithful Latter-day Saint; she is the mother of nine children, 39 grandchildren and 11 great-grandchildren also reverberate her memory. MAYOR VETOES ORDINANCE.

Ferguson-Tippetts Wedding—Real Estate Transfers News Briefs.

Special Correspondence.

Provo, Utah Co., Jan. 21.—Mayor Roy-lance has vetoed the ordinance passed Monday evening by the city council, prohibiting peddlers from entering upon any railway car or depot platform or upon any passage leading thereto within a distance of 100 yards from any station building. The ordinance was intended to stop children from peddling fruit at the depot on account of the danger to them from the moving trains.

The mayor's reasons for the veto is that he does not believe the proposed ordinance would be just to those who have a tendency to keep the smaller children away from the depots.

came from Payson, Utah, Benjamin and the surrounding country. The hall was filled to overflowing, and every one seemed to think that it was the event of the season. The festival was opened by prayer by Patriarch Wilkins. An address of welcome was delivered by Robert McKell, which was responded to by David Lewis. Then followed the grand march led by Master of Ceremonies Fred Lewis. This was followed by a dance. Then an address by Comrade George Hicks on "the cause of the Walker war." The dance was then resumed until four comrades invaded the hall carrying four large tin milk cans. From the delicious aroma that soon filled the hall, it was discovered to be coffee. Every one asked as to his habits with regard to the use of the beverage; all responded that they were not in the habit of using coffee, except on this occasion, when they would take a cup. But most of them called for a second. What delicious sandwiches! And the cake—well, you can't describe it. Some more dancing, then a solo by Miss Lewis, and after a little more dancing a speech or two. This was kept up till about 2 a. m., when the gathering broke up, fully resolved never to let a year pass without a similar meeting.

The snow has nearly all melted off, the streets being quite "slushy."

From Strawberry Creek—Vote for Bonds—Black Hawk Encampment Plans.

Special Correspondence.
Payson, Utah Co., Jan. 20.—A meeting of the land owners and water users of Payson and vicinity was held in the Second ward meetinghouse yesterday afternoon for the purpose of considering the government's proposals to secure the Strawberry water for this part of the Utah valley.

By a majority vote it was decided that the farmers are willing to pay as high as \$10 per acre for 217-100-acre feet. There seems to be no doubt that all the water will be subscribed for, so soon as the water will not be sufficient water for all who will want it in this vicinity.

There will be a meeting of the general committee of the Utah county at Springville Saturday, Jan. 27, for the purpose of deciding the time and place for holding the next encampment. The people of Payson feel like welcoming the veterans in our city this year, and the committee from Payson will most likely extend an invitation to meet here this year.

A vote to bond Payson city for \$12,000 to improve our electric light plant will occur Feb. 21.

A lively runaway occurred at Murray on Tuesday last, when a team owned by J. E. Atwood, which had been left standing, became frightened. The horses dashed along Third street and then up Atwood road, where they collided with a buggy, overturning the same and greatly exciting the people of the neighborhood. They were finally stopped and returned to the owner.
