SIMPLE WASH CURES ECZEMA

Why Salves Fail While a Simple Liquid Has Accomplished Thousands of Cures.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease due to a germ and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and thereby prove they have no diseased blood.

Salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid. Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound known as D. D. D. Prescription, stops the itch instantly and cures all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy. D. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment.

JORDAN HIGH SCHOOL ENTERTAINMENTS

(Special Correspondence.)
SANDY, Utah, Nov. 22.—Last night at West Jordan the first of a series of public lectures under the auspices of the Jordan high school was given. Prof. A. L. Larsen, secretary of the state board of education, being the speaker. His subject was "Manners and Customs in the Holy Land." Prof. Larsen has traveled extensively in Asia Minor, and his lecture was highly satisfactory. The high school orchestra, assisted by Salt Lake's talented young lady violinist, Romaina Hoff of Birmingham Junction, Col. Charter of Sandy, and Ernest Greenwood of Union, were others who assisted in making the program entertaining. Last year the Jordan high school conducted similar entertainments in most of the towns and villages in the south half of Salt Lake county, and much interest was thereby awakened in educational matters. One result is that the attendance at the high school this year is almost double that of last year.

Persons in the south end of the county are eagerly watching the progress of the street car line construction in Sandy. The weather is as balmy as spring and the sun's rays falling on an array of flags and bunting throughout the city make a picture to gladden the heart of every resident and visitor; and we behold on that same point a building whose magnificence has given it a world-wide reputation and the view from these temple grounds of the city at its feet with the great temple valley stretching as far as the eye can see, leads the beholder to believe that Father Morley's remark was an inspiration.

Salt Lake's popular young violinist, Romaina Hoff, attended chapel exercises in the Jordan high school this morning and entertained the students with a number of solos. Miss Hoff will ever be popular in Sandy.

MANTI CELEBRATES FOUNDERS DAY

Entertaining Reunions Mark Anniversary of Sixtieth Anniversary—City Beautifully Decorated.

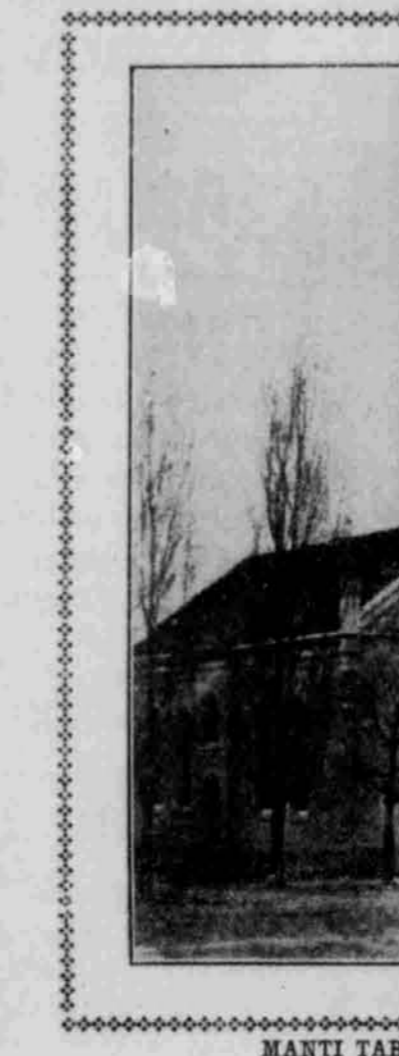

(Special Correspondence.)

MANTI, Utah, Nov. 22.—The celebration of the sixtieth anniversary of the founding of Manti began here yesterday, under very auspicious conditions. About 700 visitors from Canada on the north to Mexico on the south are here. About 200 of them are old time pioneers of Manti, some of whom had not been here in 50 years, and were eagerly surprised at the changes in the half century.

The visitors were met and welcomed at the depot by the reception committee and taken to the tabernacle which is beautifully decorated for the occasion and embellished with pioneer relics. The domestic science department of the high school furnished a well prepared luncheon.

The afternoon was spent in social reunions and the day was concluded with a grand concert.

Today will be devoted to entertainments of various kinds, among the features being a reminiscence program at the tabernacle. A banquet will be given this afternoon and a grand ball tonight concludes the day's festivities. Tomorrow is governor's day, when Governor William Spry and other distinguished visitors are expected. The weather is ideal. The streets are beautifully decorated and string with colored electric lights. Many of the residences and business houses are also decorated with bunting. All the visitors are well cared for, being assigned by the committees to stopping places in the city.

MANTI TABERNALE.

THE MANTI HIGH SCHOOLS.

Sixty years ago yesterday the small band of pioneer settlers that reached this spot were debating whether they should stop in such a "long, narrow canyon" as both the Mormon and the pioneer called it. Father Morley, whose word carried much weight with the colony, said: "We behold here the stake driven by P. P. Pratt in his exploration of this valley; this is our God-appointed hiding place, and stay I will though but 10 men remain with me." The vigorous winter was then winter of many trials and much suffering as they nestled under the brow of the hill forming the north point of the crescent shaped mountain encircling the spot, for protection. Today the weather is as balmy as spring and the sun's rays falling on an array of flags and bunting throughout the city make a picture to gladden the heart of every resident and visitor; and we behold on that same point a building whose magnificence has given it a world-wide reputation and the view from these temple grounds of the city at its feet with the great temple valley stretching as far as the eye can see, leads the beholder to believe that Father Morley's remark was an inspiration.

"Mix one half ounce of Concentrated pine compound with two ounces of glycerine and a half pint of good whiskey.
