WILL NOT BE OPEN BEFORE MAY 30TH

Saltair Beach Will Remain Quiet Until That Time.

DOLLAR RATE IS CONTINUED

By the Railroad Company, and Any Change Before June Would be at Financial Loss.

It was stated in a morning paper that there was a possibility of Saltair Beach being opened for the season on May 21st. The statement was an erroneous one, however, as the original date. May 30th, will be adhered to. Officials of the Salt Lake & Los Angeles railroad say that the dollar rate will be continued up to the regular time of opening, and that were they to inaugurate earlier than usual, the change would be at a financial less, for the additional patronage would not be sufficient to offset the present dollar fare with small attendance.

However, when the resort does open it will be in proper trim to do business and take care of patrons after the most approved fashlon.

The charge and specification of which Captain Hassing has been found guilty are of a grave and serious nature. It is almost beyond belief that a man honored with a commission in the Nationored with a commission in the National Guard of the State and clothed with the accompanying authority, would permit himself, even for a moment, to lose sight of that high sense of honor which should always attend the faithful discharge of duty. The conditions which exist among the militia forces are not such as are found in the regular army, and this fact considered in connection with the previous good record of the accused undoubtedly accounts for the light sentence in the foregoing case, otherwise, dishonorable dismissal from the service would be the penalty that the merits of the case seem to warrant. It is hoped that members of the Na-tional Guard will take warning by the infortunate incident which is the oc casion for these orders and strive by individual effort to keep the Guard above the plane of adverse criticism and maintain it a department of the State of which the citizens will con-
