THE "BOYAL" THE STRONGEST AND PUREST BAKING POWDER.

Attention has been called to publications fro the Price Baking Powder Co., the obvious purpose of was to rid themselves of the recent exposure of the iority or low test of the baking powder manufactur that home

As to whether the Price baking powder is equal " Royal," the truth is that when the cans were puron the open market and examined by Prof. Chand the New York Board of Health, the report reveals fact that Price's powder contained twenty-seven per

less strength than the "Royal,"

When compared in money value, this difference be as follows:

One pound can Royal Baking Powder worth 50 cents. One pound can Price's worth 36 cents.

The Royal Baking Powder Company have been fight ing for years past to break up the practice of substituting Alum, Phosphates, Lime, etc., as cheap substitutes for cream tartar, as well as short weights and low test in baking powders, and the " stop thief" cry will not prevent the exposure of all who are engaged in the nefarious business of palming upon the public cheap or injurious haking powders at the same price at which a pure and wholesome article is sold.

The Royal Baking Powder has the commendation of the most noted chemists in the country for its purity and freedom from every substance of an injurious nature, being manufactured from grape cream tartar, in which no lime, alum or impurity exists.
