

CORNELL ALUMNI
ORGANIZE COUNCIL

New York, April 17.—Cornell alumni have organized a body to be known as the Cornellian council whose purpose shall be to promote systematic donations to the university on the part of

alumni. The movement was started last fall but the organization was not perfected until yesterday when a meeting was held of the Cornell alumni in this city. In a nutshell the plan is to induce every alumnus, or former student, to give a stated sum to his alma mater each year. This is similar to a general way to the plan in vogue in Princeton, Yale and Harvard.

According to the preliminary arrangements of the Cornellians, the council shall be composed of 50 members, 16 at large and one appointed from each of the last 46 classes. Each year the newest class names a member who displaces the member from the other class. The terms of office are for 1 year and the members are appointed by classes at each of their five year

reunions. There is to be a paid secretary to do the collecting. This work will be supervised by an executive committee of five members. Princeton's systematic giving in the last four years has totaled more than \$4,000,000 and as Princeton has approximately 8,000 graduates, or former students, while Cornell has 15,000 or more, the Cornellians are sanguine as to the

result of their project. It is hoped to raise at least \$50,000 in the first year.

MENE, THE ESQUIMAUX BOY.

Cobleskill, N. Y., April 17.—Mene, the Esquimaux boy and sole survivor of the band brought south by Commander Peary, is here in Cobleskill with Mrs.

C. W. Carter, for whom he has a great attachment because of her kindness to him when his father died. It has been reported from New York that Mene was on his way to the Arctic to join his people, but he apparently has no definite plans for such a trip. He is in poor health and Mrs. Carter says that he can remain at her home until he recovers or decides to go elsewhere. The

strange lad will probably not resume his studies in Manhattan college, New York.
