# A TEST EXPERIMENT.

#### Peculiar Power Possessed by a New Medicine.

Of new discoveries there is no end ut one of the most recent, most re tarkable and one which will prove in cluable to thousands of peopl discovery which it is believed will take the place of all other remedies for the ure of those common and obstinate liseases, dyspepsia and stomach trou This discovery is not a loud! advertised, secret patent medicine, but

This preparation is called Stuart's Dyspepsia Tablets and it is claimed that one of these tablets or lozenges will digest from 300 to 3,000 times its wn weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner. A hard bolled egg cut into small pieces was placed in a bottle containing warm water heated to ninety-eight degrees (or blood heat), one of these Tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digest-ed as it would have been in a healthy stomach. This experiment was undertaken to demonstrate that what i do in the bottle it would also do in the stomach, hence its unques-tionable value in the cure of dyspepsia the representative to meander to the rear and be seated. MAY FIGHT ON DEFENSIVE.

Terry McGovern Practicing to Guard His Nose.

For the next week Terry McGovern will spend much time in practicing blocks and guards to avoid being hit or the nose when he meets Dave Sullivan All his sparring partners have been osked to do a great deal of leading for the nose, always, however, in a light manner. There was a time-not so very long ago-when Terry would take blow willingly in order to be able to land one in return. The fact that McGovern takes such precautions means that he will not

fight in his old style when he goes into the ring at Louisville on Feb. 22. It seems evident that he proposes to make a defensive fight, something that he has never done before and something which even his admirers doubt he can do. The very fact that McGovern proroses to guard against a blow of nose will compel him to leave parts of his body open for punishment. and this fact should greatly increase

Sullivan's chances for victory. MEETING OF DIRECTORS.
