

CAMPION OF THE TERRORISTS

Stolypin Against Repression on Scale That Would Drive Whole Population Into Revolt.

COURT DIVIDED ON QUESTION.

The Novoe Vremya Advocates Granting Cabinet Authority to Prepare a Constitution.

Reactionary Party Urges a Dictatorship and Monarchical Party at Moscow Issues an Appeal for It.

St. Petersburg, Aug. 28.—The court at Peterhof apparently is divided as to how to meet the campaign of the Terrorists. Premier Stolypin and his cabinet, however, have taken a stand against repression upon a scale which would drive the whole population into revolt. The premier's views are reflected by the Russia today which declares the government must not be frightened into abandoning the reform program. It is only necessary, the paper asserts, to draw a line between loyal opposition and those who by word and act seek the destruction of the government. The Novoe Vremya proposes "as an exit from the horrors of the worst kind of civil war" to confer upon the cabinet authority to prepare a constitution which will realize the hope of the image Liberals. The Svet continues to advocate a concert of the powers to suppress anarchy and anarchism.

Against these comparatively moderate propositions the reactionary party at court is urging a dictatorship and the Russia publishes a report that upon the initiative of the council for national defense, an extraordinary conference somewhat similar to that which created the committee of public security, after the assassination of Alexander II, has been called to meet at Peterhof during the latter part of the week.

The funerals of the victims of the bomb explosion of Saturday last at the residence of Premier Stolypin were held today under military escort.

APPEAL FOR DICTATORSHIP.

Moscow, Aug. 28.—The Monarchical party, in an address to the emperor just published, openly appeals for a dictatorship "which will put an end to the demoralization in the administration and also urge the complete suppression of parliament and the restoration of the unlimited autocracy. Should his majesty, however, insist on retaining the parliament the Monarchists promise loyal participation in the election upon condition of a change in the election law providing for the exclusion of the Jews from the suffrage.

The Black Hundred organizations are conducting an agitation against the intelligence and Jews.

POLICE RAID REVOLUTIONISTS.

Riga, Aug. 28.—Police and troops today surrounded a lodging house at Salva street, where bombs had been discovered. The revolutionists inside fired with rifles from the windows on the attacking party and also threw a bomb, whereupon the troops riddled the house with bullets, killing or wounding all of the inmates. Two men and a woman were killed.

At another place in the suburbs a Latvian student was killed and several were wounded while resisting arrest.

CHARLES E. HUGHES SAYS HE IS NOT A CANDIDATE.

New York, Aug. 28.—A cable dispatch to a morning paper from Leamington, England, says:

"Charles E. Hughes of New York, who was the attorney for the American insurance investigating committee, has been spending several days in the vicinity of this watering place, and last night was sufficiently interested in the news of the New York political situation to ask all about the various gubernatorial candidates.

"Everybody knows that I am not a candidate," said Mr. Hughes, "and I have had no communication with anybody in New York on any political subject since I left home.

"No, I have sent no message of any sort to Benjamin Odell, Gov. Higgins or anybody else.

"When pressed to say whether he would be a candidate for renomination against Higgins or would run against Cromie, Mr. Hughes replied:

"I am not going to set up any hypothesis and discuss it."

In answer to further questions, Mr. Hughes said he had discussed the situation with friends before leaving New York, but did not know now who the candidates were and could not intelligently comment on the situation.

"He had come into the matter when he arrived home and make whatever statement he had to make in New York," he repeated.

"I have given no assurance of any kind to anybody.

Mr. Hughes is in vigorous health as the result of his holiday.

"We have been getting a good rest," he said. "We have thoroughly enjoyed ourselves and know nothing whatever about the political situation."

Mr. Hughes will sail for home today on the steamship Carmania.

KILLED BY ELECTRICITY.

Newark, N. J., Aug. 28.—William Hoch, proprietor of a saloon, was killed by electricity in his bar room by a shock from an incandescent lamp while preparing to close his place last night. Hoch mounted a chair to reach the switch of an electric light over the bar. As he came into contact with the button he doubled up, pitched forward across the bar and rolled to the floor dead.

A witness of the accident explained the manner of Hoch's death to the police, and to illustrate the occurrence mounted the chair and touched the same switch. He received a shock that rendered him senseless to the floor, and a physician had difficulty in reviving him.

SAN FRANCISCO STRIKE.

James Farley of New York Has Contracted to Break It.

New York, Aug. 28.—James Farley, the strike breaker, has signed a morning paper, contracted to break the street railway strike in San Francisco.

Two special trains loaded with strike breakers left Jersey City at 10:30 o'clock last night on the Lehigh Valley road for San Francisco. It was estimated

that there were 800 men on the two trains, which had 10 cars each.

On each car were four Farley's detectives, armed with clubs like the night stick carried by policemen.

Every preparation had been made to feed the men on the trip and to prevent any unnecessary delay in getting to the coast. Great quantities of cooked food were put on the trains. A beer supply consisting of 8,000 bottles was on hand to stave off thirst.

There were 500 tin cups for the men to drink from.

Precautions were taken to keep the thing as quiet as possible. The men were brought over to Jersey City in a special freight car from Twenty-third street. Many of the men went without a change of clothing and there were indications that there was great hurry in getting the men off.

Some of the men, it was said, had not notified their families that they were off on a long trip.

Arrangements have been made by Farley, it is understood, to start another batch for San Francisco early this morning.

All trains are delayed on account of the soft track.

STOPPED WHISKY SELLING.

San Diego, Cal., Aug. 28.—A short time ago the California Development company found that the sale of liquor at Algodones, just below the line on the desert side of the county, was detrimental to its interest. The Mexican authorities were notified and five rurales were sent to the place. They put a check to the sale and ordered that no more liquor should be brought into the county under penalty of arrest and transportation to the court at Ensenada.

SHALL NAVAL OFFICERS BE TAUGHT ESPERANTO?

Washington, Aug. 28.—Shall naval officers be taught Esperanto, the universal language? The naval academy board is considering the question. Mr. Buff, Worcester, Mass., who says that with a daily lesson of one hour for a period of five months the midshipmen at Annapolis would readily acquire a complete knowledge of Esperanto said he would be able to read, write and speak it fluently.

Mr. Buff suggests this be heard only as a supplementary language.

BOY CONFESSES FATHER'S MURDER

Sidney Sloane Killed Him in Hopes Of Getting Five Hundred Dollars.

AT FIRST DENIED HIS GUILT.

Stole an Axe From a Neighbor—Dropped Body on Pile of Rocks Near Home.

Spokane, Wash., Aug. 28.—The body of James P. Sloane, a pioneer merchant of this city, was found behind a pile of rocks in an alley near his home on Sixth avenue near Stevens street. Great gashes on his head showed he had been murdered, apparently with a hatchet, and a trail of blood led from the alley to Mr. Sloane's home. Investigation proved that he was murdered in his room shortly after midnight, his body being loaded into a wheelbarrow, trundled to the alley and dumped against the rocks.

Sidney Sloane, the 15-year-old son of the murdered man, was taken into custody by the police shortly after the body was discovered. At first he protested complete innocence, but broke down and confessed the murder. He said he slew his father with an axe in the hope of getting \$500.

He thought his father was carrying. The murdered man has been one of Spokane's leading merchants for years, being the senior member of the Sloane-Paine company.

Investigation of the Sloane murder by a representative of the Spokane Chronicle shows one of the most cold-blooded crimes ever committed in this city.

Sidney Sloane, who was the only member of the family in the city, excepting his father, had made every preparation for covering up his tracks. He had taken an axe from his neighbor's back yard and waited for his father's appearance on the upper floor of his home. Evidently he struck his father on the head with the axe as the latter entered his room. The noise awakened Mrs. and Miss Syphers, who were sleeping directly under Mr. Sloane's room. Sloane was heard to drinker, and they thought he had stumbled over the center table so let the matter rest.

As soon as the boy had searched his father's clothes for the money which was the motive for the murder he went to a neighbor's back yard and unloaded a lot of apples from a wheelbarrow and, carrying his father's body down stairs, placed it in the vehicle. He then wheeled around the block and dumped the body in the alley. Returning, he washed out the wheelbarrow, he placed the apples and left them in their original location. He carefully washed off the axe and also replaced it.

There were no clues on the floor of the bedroom and the blood from the wound on Mr. Sloane's head had soaked through the rugs onto the floor. These rugs the boy rolled up and took up carrying them to the back porch, thence to the front porch. He washed the floor clean and covered several Indian blankets on the floor.

He arose early this morning and calling to Mrs. Syphers told her his father had not been in that night and that he was going out to look for him. While he was talking a policeman arrived and told the boy that his father had been killed. The boy at first denied innocence, but finally confessed.

The police suspect that young Sloane had other accomplices, including a woman. He is also suspected of being a burglar who robbed two stores in the block where his father was killed. He is also suspected of being a partner of the burglar who was shot and killed a few weeks ago while breaking into Sloane's candy store.

When submitted to a rigid questioning by Chief Waller and Detective McDermott, young Sloane first told a long story about making arrangements with a man named Riley of Sheridan, Wyo., to come on here and murder his father. He said he and Riley planned to secure \$500 in cash which he knew his father had on his person, and divide it. He stated that Riley came last night and carried out his part of the program, and that it was Riley who struck his father with an axe. He said Riley then took \$450 and fled to Roseland, R. C., leaving Sidney with \$50. The police had previously found \$50 on him when he was arrested.

He later broke down completely and confessed that he alone killed his father, but said it was in the heat of passion, his father having attacked him when intoxicated. The boy, who is only 15, broke down and cried.

Chief Waller believes the \$500 planned the murder to secure the \$500 which he believed his father had.

SUGAR MEN OF CUBA WANT ANNEXATION.

Honolulu, Aug. 28.—The Advertiser this morning says that a leading member of the Hawaiian Sugar Planters' association asserts that he was told, within a year, by a sugar magnate who was a fellow passenger with him on a trip from Honolulu to San Francisco, that the sugar men of Cuba wanted the island annexed to the United States, and were raising a fund of \$5,000,000 to use in creating a disturbance which will compel the United States to interfere and take control of the government.

The Hawaiian planter says he believes that the present revolution has been promoted and is being financed by the planters with the object of securing annexation.

TWENTY-ONE PERSONS RESCUED

Taken From Burning Steamer Charles A. Eddy Off Port Salinas, Port Huron.

VESSEL ITSELF DESTROYED.

The Captain Who Was Sick Had to be Carried—All Lost Their Possessions.

Detroit, Aug. 28.—Twenty-one persons, including the captain's wife and two little children were rescued early today from the burning steamer Charles A. Eddy by the Detroit and Cleveland line steamer City of Mackinac, off Port Salinas, in Lake Huron. All of them escaped unharmed and were brought to this city on the City of Mackinac. The Eddy was destroyed.

The Charles A. Eddy was bound down from the head of the lake with a cargo of ore. Fire broke out early today while the steamer was off Port Salinas. It spread with great rapidity and was soon beyond control of the crew. Distress signals were sounded and Capt. Simpson, of the City of Mackinac, which was bound down from Mackinac Island to Detroit, crowded to its capacity with passengers, responded with his boat.

Capt. Eley, of the Eddy, was sick in bed with lumbago and had to be carried from his ship to the Mackinac with his wife and two children, aged three and four years. The other passengers were taken off without difficulty.

Every one on the Eddy lost all his possessions except the scanty clothing he had on.

A large part of the boat had been consumed by the flames at 7 o'clock but the fire was then believed to be under control.

The fire broke out in the forward end of the boat and spread so rapidly that several members of the crew had to break the windows over their bunks and crawl through as the regular means of egress were blocked by fire and smoke.

Capt. Eley's wife was driven from her cabin bed in only a night gown and the two baby girls were almost nude. The half dazed, frightened people huddled unprotected from the cold wind on the open deck while waiting for help.

A message from Port Huron this afternoon says that the steamers Ordensburg and E. A. Meyer succeeded in extinguishing the flames on the Eddy and have towed her into the St. Clair river.

DURAND AT LAST IN TOILS OF LAW

Notorious Justice of Peace at Murray Worked a Big Bluff.

HE MADE THREAT OF MURDER.

Was Arrested on Warrant and Placed Under \$100 Bonds—May be Removed From Office.

A complaint was issued today by Assistant County Attorney Job P. Lyon against Justice of the Peace Charles F. C. Durand of Murray, charging him with threatening to kill J. S. Barlow, the editor of the Murray Eagle. The alleged threat was made last night when Durand called at the Eagle office and in a loud and angry voice, declared that he would kill Barlow if the latter mentioned Durand's name in his paper again.

As soon as Durand left the office, Barlow telephoned to the sheriff's office and informed deputy about the matter, whereupon Deputy Sheriff Steele was sent to Murray and placed Durand under arrest.

PUT UP \$100 BONDS.

The prisoner was brought to this city, where Assistant County Attorney Lyon was communicated with and instructed the deputy to release Durand provided the latter furnished a bond in the sum of \$100. The bond was finally secured, and Durand returned to Murray. He will be arraigned late this afternoon before Justice of the Peace Holm at Murray, and will no doubt be bound over to keep the peace.

The threat made by Durand was due to attacks made upon him and his court proceedings by Barlow in the columns of his paper. For several weeks past Barlow has arraigned Durand for the manner in which he conducts his court and nearly all of his articles were based upon suits filed in the district court against Durand to set aside actions taken by him in his official capacity. The paper has been very bitter in its attacks on Durand and the Luke collection agency and Durand thought he would try to put a stop to the articles by threatening the life of Barlow.

THREATENED TO SHOOT.

It is alleged that he went to Barlow's office last night in company with another man and used the following language: "You see, if you ever mention my name again I'll shoot your head off." Just before leaving it is claimed that he made another threat against the life of Barlow in which he used the following language: "So help me God, if you ever mention my name again I'll blow your brains out."

REMOVAL FROM OFFICE.

After he left the office the deputy sheriff was sent for and arrested him. There are a number of correspondence articles in the district court against Durand and his conduct of last night will not help matters in any way so far as he is concerned. It may prove very detrimental to him and cause his removal from office.

WOMAN MURDERED AND MUTILATED

Annie Moore's Jugular Vein Severed. Windpipe Cut and She Was Disemboweled.

HUSBAND HAS BEEN ARRESTED

No Signs of Any Struggle in the Room Where She Was Found.

New York, Aug. 28.—A woman known as Mrs. Annie Moore was found murdered early today in a furnished room at 6 Second street. She had been horribly crippled and slashed. One gash had severed the jugular vein in the left side of the throat, another had almost severed the windpipe, the breast was badly slashed and a deep knife thrust had ripped open the body, disemboweling it.

No weapon was found and there were few blood marks around the room.

James Moore, who had posed as the woman's husband, was held by the police on suspicion. It was he who had killed the woman, the police believe.

Moore told the police he and the woman had been living together for seven years. The woman, he said, was the widow of his brother, who died 10 years ago.

No one in the house could be found who heard any sounds as if a struggle was taking place. Herman Von Kollen, who has an adjoining room, was aroused by the police and said he had been in bed since 5 o'clock in the afternoon and had heard no noise whatever.

The dead woman was 50 years old. The horrible wounds found on the woman's body recalled at once to the minds of the officers and doctors, who were called, the "Jack the Ripper" murders of some years ago. A hurried investigation by the police showed no signs of a struggle and the police concluded that the woman had been attacked in her sleep. On a pillow which lay across her face was the imprint of a bloody hand. The victim's hands were clean, so that the police believe the mark must have been left by the murderer.

Moore maintains that he is innocent. He told the police that he left the house at 7 o'clock last night and returned at 1 o'clock this morning. Police inquiries at the melon developed the information that Moore had been there until just before 10 o'clock when he left. Lodgers in the Second street house told the police that Moore returned home at about 10 o'clock, and that he did not go out again afterwards.

The murdered woman before her marriage to the prisoner's brother was Annie Fitch. After her husband's death she went rapidly down the scale of life. Moore, the prisoner, is in an advanced state of consumption. He has a wife and two children living hardly a stone's throw from the scene of the crime.

Three life insurance policies were found in the room. They were issued by the Prudential company on May 1, 1906. One of them, for \$125, was on the life of the woman, and made payable to the prisoner. There were on the life of Moore, payable to his wife.

James Moore's son Edward, aged 18, was arrested and technically held as a witness in the Moore murder case after his father had been examined by the police. The child is said to have suffered from epileptic fits. Moore, freed from epilepsy, was now a free man.

James Moore was held without bail to await the action of the grand jury. Moore's son, Edward, testified that his father was accused by the dead woman of having brutally beaten her last Sunday. Moore admitted striking the woman.

CALL FOR AMERICAN MINING CONGRESS.

Denver, Aug. 28.—A call for the ninth annual session of the American mining congress, to be held in Denver Oct. 16 to 19 next, was issued today by J. H. Richards, president, and James F. Call, secretary. The president of the congress, Richards, is a native of the United States, and the congress is for the purpose of discussing the mining industry of foreign nations and the government of cities and territories are invited to appoint 10 delegates each, and mayors of cities and towns, boards of county commissioners, boards of trade, chambers of commerce, mining bureaus and exchanges, miners' organizations, and scientific societies, two delegates each.

In a letter accompanying the call, in which he urges a full representation at the convention, Secretary Call states that the object which it is hoped to accomplish is as follows:

"The active assistance of all those interested in the mining business must be enlisted at this time if we are to hope for the creation of a department of mines and mining during the present national administration. An active campaign is being carried on and this time is now ripe for a pull-all-together."

"Two matters of great importance will be brought up for final action at the convention: 1. A law for the protection of mining investors; 2. a law for the creation of mine drainage districts."

"The first will largely increase investments in mining enterprises by furnishing protection against absolute dishonesty in mining promotions and thus bring about a largely increased development of our mineral resources."

"The second will provide means for continued production in the many districts where a common system of drainage is necessary to profitable operations."

PROGRESS OF SPELLING REFORM MOVEMENT.

Oyster Bay, Aug. 28.—President Roosevelt's correspondence is now spelled in accordance with the recommendation of the Carnegie reform spelling committee, of which Prof. Brander Matthews is chairman. An official list of the 399 reformed words reached the executive office yesterday and the letters which were mailed yesterday afternoon were spelled in accordance therewith.

Washington, Aug. 28.—The president's order regarding phonetic spelling will be extended to all acts of the government. By his direction all documents are to be printed with the use of spelling. A meeting was held yesterday, called by Public Printer Stillings, of all the chief clerks of the various departments and a committee was appointed to formulate rules for carrying out this order. The committee will report at a future meeting.

CAMPION DEBTS DRIVE HIM OUT

Heritage of American Party Campaign Much Too Heavy for Willard Snyder.

WILL DO THE SKIDOO STUNT.

Some Other "Patriot" Will be Herded into Direct Battle and Make the Ghost Walk.

Will Hold Meeting This Afternoon to Plan for Campaign in Several Counties of the State.

This afternoon the last of the three political parties who are to take turns stirring at the political puddle this fall, will organize. W. F. Snyder, state chairman of the American party, is to follow in the fashion of State Chairman Spry and State Chairman Bamberger and cash in his affections. With Spry it was Uncle Sam who was the interfering factor, and with Bamberger it was business pressure. Snyder is incumbered with dead soldier debts that belong to campaigns that were lost while the barrel leaked.

Snyder doesn't like to live with the dead bills, and that is about all there is to his resignation, and the bills are a princely heritage for him to hand on to whomsoever comes to relieve him this afternoon.

The meeting to organize the state committee will be held in the office of Mr. Snyder in the Atlas block at 4 o'clock. Besides electing a new chairman, or taking up a labor with Mr. Snyder to work on, the state committee may plan for a state convention.

The contest will, however, be an empty one for the "American" party. The state officers are only a judge of the supreme court and a member of Congress. Nobody has yet voiced the slightest hope that the American party will make a running in the state for these offices.

In this county, however, hope runs higher and the organization will go out with its game bags for county members in the legislature, and a full complement of the party. The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.

The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.

The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.

The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.

The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.

The party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party, and the party is in the hands of the party.
