PETRO GROWING STRONGER. |

May Day and Mammoth Firmer-Yankee Con. Suffers a Decline-Grand Central Active Today.

manness of the second

## TODAY'S METALS:

SILVER 60%

LEAD, \$4,00 CASTING COPPER 15%

Business was a little quieter than usual on the exchange during the past week. Prices do not show much change, however. May Day shows a shrinking when Monday's prices are compared with today's. Early in the week it was traded in at 69%, but it weakened to 59% from which figure it advanced to 63

and is now quite firm at 62.

Petro also shows some changes, due to encouraging reports from the mine. Af-ter hanging around 20 for some time past the stock moved up to 22% in the bidding today.

Yankee Con, showed sharp declines. It was held at 7½ with 6½ bid on Monday, but today 1,000 shares were released on entral is not much changed.

A small lot was handed out today at 45.75, while Lower Mammoth, which has hung around 50 for some time past let go 600 today at 49%. Mammoth continues firm at \$2.14½ as does Sacramento at 28. Bullion-Beck, although mactive, con-

tinues stationary on news of regular shipments from the mine, Tesora shows more strength as the result of recent strikes.

## BIG RECEIPTS OF CYANIDE DUST.

Since Last Monday.

SHIPMENT FROM DEXTER.

Mammoth Bullion Shipped - At the Mercur Con-Items from Bingham and Tintie-Notes.

The present week has been full of business for the employes of the gold sampling rooms of the American Smelting company. About 3,000 pounds of cyanide product has been sampled and tested for values since last Monday. Over 2,300 pounds of this amount came from the Sacramento, Geyser Marion, 'hloride Point and Mercur in this State. Idaho was represented by 150 pounds from the Lucky Boy. Montana sent 60 pounds, and properties in Nevada forwarded about 210 pounds. The value of the week's product will doubtless run close to \$30,000.

DEXTER SHIPMENT. Bullion Cyanides Amount to About

\$14,000. The Dexter Mining company, whose roperties are in Tuscarora, Nevada, reproperties are in Tuscarors, Nevada, received a shipment of bullion and cyanides from the mine foday. The builion
is valued at a little less than flo.000 and
the eyanides will amount, it is thought,
to a little more than \$4.000, thus making
the total value of the shipment foot up
somewhere about \$14.000. With regard
to the recently reported strike in the
mine Mr. J. S. Laken said today he had
not heard of any recent strike. The
management is crosscutting to the vein
from the 300 level and it is thought that
the vein will be reached about the end
of the month. For the past three months
the mine is said to have more than paid the mine is said to have more than paid its way. It is anticipated that the water supply for motive power is shrinking, though nothing is stated positively on the matter. This may account for the production running a little behind last menth's output.

### THE CON MERCUR CO.

Preparations to Increase Output -Electric Motor for Ore Hauling.

Mercur is being taken out through the Mercur is being taken out through the mill tunnel. It will be about a month before proper connection is made with the Resolute tunnel so as to enable the management to greatly increase the control.

The ore is being hauled to the Golden Gate mill by horses, but it is the intennear foture.

Questioned regarding the power plant Mr. Dern said that one of the 500 horse power generators is on the ground and the other one is expected shortly. Soon after its arrival the Con. Mercur company will be using power generated on its own ground.

## MAMMOTH BULLION.

Output for the First Ten Days of August Valued at More Than \$10,000.

gust valued at More Than \$10,000. The Mammoth mill at Tinte sent out its second lot of builton today for the present month. The first lot was valued at \$2,750, which, with the shipment of \$7,500 worth today, makes the total for the first ten days of the month amount to over \$10,000. It is said that the grade of the ore treated is a little over at present and a slight. In the mill earnings is expected during the balance of the month. A car of ore was sold yesterday afternoon by leasers, which showed 25 per cent in copper. It was taken from the upper levels. Five cars of concentrates were shipped from the mill yesterday,

## ITEMS FROM BINGHAM.

Strike in Silver Hill-The Mountain Chief-West Mountain Placer. In its review of the week the Bingham

Bulletin says: Increased activity in Ungham mines since August 1st is noticeable. High grade ore is accumulating in the bins of the Fortune. Mill is turning out a fine quality of concentrates.

Petro began hauling to depot yester-day and will send out several carloads if lead ore responding to the late advance to \$4. A pan of gravel taken from one of the dritts of West Mountain Placer one day last week contained 40 grains of

the St. Jos group is being explored by an upraise and is reported making a

fine showing.

The new compressor for Bingham C. G, mines was hinded at mouth of working (north) tunnel by Standish &

Powers & Jones, leasing on Black log, have out 25 tons of one ore and vill soon make another shipment. Sevral hundred tons of the same truck e blocked out.

A 50-ton shipment from the Warden Kee Phonix lease will begin tomor-w. The lease has a large quantity second-class out and in sight, on which one of the custom mills will soon

be grinding. Teachenor & Richards, leasing on the Silver Hill (Red Wing group). Wednesday went into two feet of high grade steel galena. The ground was fermerly under lease to Benyer, Hourgard & Brink. A bad cave having occurred iast spring a detour around it was made by present leasurs, and presently they were rewarded by encountering the ore They will soon have enough out

for a shipment.
This morning cheering nows come from West Mountain Placer. Water is now under perfect control in all the workings, and everything will be ready for business by Monday, when taking out gravel by three shifts will begin a thre edifferent points. After setbacks which have delayed production for a year and a haif. West Mountain Placer is on the verge of demonstrating wheth r Charley Watson's faith in it is well ounded, and we have no doubt that re-

solis will be highly important.

Mountain Chief group, owned and operated by George Hirsch and J. K.
Shaw, is making a good showing and will be a paying proposition when worked for production. Long tunnel on begun work in earnest,

lowing 2 to 3 fewt of mineral, including d streak of carbonate varying from 6 to 12 inches that assays 20 to 40 per cent lead, 16 comes sliver and 56 to \$10 gold; balance assays \$12 gold. Only development work will be done this season.

Miners Leave Tintie.

Eureka, Aug 1a - A party consisting of thirteen of the pick miners of Tintic district, under the foremanship of James Gateley, left this week for Deck James Gateley, left ins week for Deck Creek in Nevada. They have been em-ployed by the Midas Mining company at Ione. The Midas was a producer of high-grade gold ore a few years ago, and a steady shipper, and we learn it is the intention to bring the mine to the front again. The ore has to be hauled across the desert to Casis, and owing to that fact it must be of a goad subre to that fact it must be of a good value in order to pay. The miners are paid higher wages than they received here, hat being the only temptation for them

### Mineral Entries Fited.

The following mineral entries have been made during the week;
Godiva Mining company, by John Q.
Packard, has purchased the Vulcan
claim situated in Tintic district con-

taining 6.745 acres.

The Gemini Mining company, by Lewis L. Hills, has paid the purchase money and seeks a patent for the Venus claim located in Tintic district contain-The Goliva Mining company has paid

the purchase money on the Ajax claim in Tintic, containing 19.312 acres. Zelnora Hopper, by Florinda Crouch on the Evening Star claim, situated in West Mountain district, containing, 896

Payment has been made by Michael Gibbons on the Abner claim, in West Mountain district, containing 12.162 Fritz Miller and Anton Finsted of

Bingham have paid the purchase money on the Harrison lode in West Mountain district, containing 15, 121 acres.

The purchase money has been paid on Spy No. 2, by the Northern Spy Mining company, who desires a patent to the

The Gonyon Mining company has paid the purchase money and seeks a patent for the Gonyon, Gold Dust and Gold Cole claims in Tintic, containing

Tintic Miner. Supt. Underwood is cleaning an some excellent values in spar and quartz on the 100-foot lovel at the Carlssa. The ote averages about \$50 in zold and J to 4 per cent in conportant and had been left by leasers as not containing shipping values. taining shipping values. Mercur Miner: The experimental op-rations at the Overland at Supshine

did not prove entirely satisfactory and the new method has been abandoned the present. An additional force put on this week and the mill will put in shape to begin operations as chir as possible. Tintic Mineri Dan B. Gillies, who has eved the Sloux and Utah Consoli-ated Mining companies as local man-

zer for the past year, and his chief f stau, Julius Smith, left Monday fornir, for Butte, Mont. The gentle-ten have many friends in Tintic district who regret their departure and how to see them return. The extensive property of the company will remain idle for the present. Ringham Bulletin: Yesterday the wheels of the Shawmut mill turned for the first time. Today the machinery is "limbering up." and Superinteddent Earnshaw will but a hatful of ore through the crusher, to keep good his word given last month

## **PARALYSIS OF SPECULATION**

Inactivity in the Stock and Bond Market Not Equaled Since Opening of 1897.

Future of the Money Market Uncertain-Prospect is for Higher Rates, Discouraging Enterprises.

New York, Aug. 11.-The stock and bond markets have dropped back to a degree of inactivity not equalled since the opening of 1892. The paralysis of speculation is plainly due to uncertainty regarding the future of the money market. The placing of over half the last British loan in New York foreshadows the necessity that Great Britain and European governments will be under of resorting to American capital to help-finance future toma, believed to be imminent, to meet the cost both of the Bow war and the cost both of the Bow war and the cost both of the Bow war and the sequence discourage any embarkation upon speculation.

Changes exceeding one sighth were shown by only one or two stocks in the ferred added 7½ point, break, and the common 1% to its recent decline. The bank statement was unneeded. The closing was lifeless and stendy.

tage of it at once, as the offer may not be repeated.

Madsme A. Ruppert has now been before the public for over twenty years as the greatest Complexion Specialist.

She is the pioneer in her art, and stands pre-eminent at the head, she has hed thousands of imitators, but not a single competitor. Face Bleach is not a new intrest remedy, but has been used by the best people for years, and for dissolving and removing tan, sunburn, moth freekles, sallowness, blackbeads, excess, pimples, roughness or redeess of the son, and for brightening and beautifying the complex, for. It has no equal.

It is Absolutely Harmiless to the most.

ion, it has no equal.

It is Absolutely Harmless to the most Delicate Skin

The marvelous improvement after a few applications is most apparent, for the skin becomes as nature intended it should be SMOOTIL CLRAR AND WHITE, free from every importing and blenoish. It cannot fail, for its action is such that it draws the impartities out of the skin, and dees not cover them up, and is invisible during use. This is the only thorough and permanent way.

way.

For the present I will, as stated above, send a trial bettle of my Faco Breach to anyone who will result me Zecents in samps or silver. Maname A. Buppert's body. "How to be Beautiful," which contains many points of great interest to lailes, will be malled free upon application.

The Lace House Co.

NAILS and SUNOL.

PUTNAM NAIL CO. 12, 1890. Dear Sirs .-In reply to your facor I would state that I have used the Pulnam Nail for several years, and hace advised my friends to use it only. It is hardly necessary for me to add

that I prefer it to all others.

Orus til, Mont Bonne. The Putnam Nail enjoys the distinction of being the only Hot-Forged and Hammer-Pointed nail made by machinery, and which imitates the

old hand process. ROBERT BONNER INSISTS ON ITS USE. All others are COLD ROLLED and SHEARED, as an examination of their edges near the point will show, and are liable to SPLIT or

SLIVER in driving, to injure and perhaps all the horse. The above picture, from a photo representing Mr. Bonner in the act of handing his smith a Putnam nail, while superintending the shocing of Sunol, will be sent in the form of a half tone, size, 5x8, on thick, white paper, with wide margin, on receipt

of 2 cent stamp for postage, etc.

PUTNAM NAIL CO., NEPONSET, BOSTON, MASS.
