More about A. D. R.—Petitions for beligerent rights.—Bonds paid for the P. R. R.—President's Message, &c.—Suits for libel.

CHICAGO.—The Republican has a special from Whitelaw Reid, stating that Richardson, at midnight last night, was in a critical condition, and that everything depends on the next twenty-four hours. The doctors have good hopes of his recovery and think the wound in his stomach is suppurating, which is favorable for the patient. Last evening, for the first time, his mind showed a disposition to wander, and he became fretful and flighty. Skillful physicians are with him constantly. Petitions for granting beligerent rights to Cuba have been signed very extensively, and will be presented to Congress. Washington specials say that Vice President Huntington of the Central Pacific, President Ames and Secy. Rollins of the Union Pacific, met Secretary Boutwell and Government Director Wilson, on Saturday, and finally adjusted all difficulties. The Secretary paid the Central Pacific two and a half millions in bonds, which were immediately turned over to the Union Pacific, as part of the purchase money for the section between Ogden and the Promontory. This completes the Government issue of bonds for the entire road. The junction will hereafter be at Ogden. The Central Pacific does not pay for grading this side of the Promontory; the Union Pacific gets nothing for the other side. It is understood that the President's message will fill about three newspaper columns. This message and Boutwell's report will be sent to Congress in writing, and must be telegraphed from Washington. The other Central Pacific Bureau reports will probably be mailed through the Associated Press on Friday or Saturday. The Treasury, Navy and War reports are only half or two-thirds as long as last year. Binckley caused a suit for libel, damage \$50,000, to be instituted against Commissioner Rollins while passing through Baltimore on Saturday. The complaint is based on Rollins' letter to Grant recommending Binckley's removal.

A man murdered.—More drawback frauds.—Laborers' strike.—No Postal Treaty with France.—Alabama Claims. The Tribune on Spanish Policy.—A. D. R. sinking, no hopes of recovery.—A. D. R. again, Ball extracted.—Sale of Gold, etc.—Case of Hydrophobia.—Man kicked to death.  
New York.—Early yesterday morning, Cornelius Stahl, a German, was murdered in a shocking manner at Newark, N. J. Five persons are in custody, but the supposed real murderer has escaped. The affair is involved in mystery. Another phase of the drawback rascality, in the Custom House, is now under investigation by the District Attorney. The new frauds differ from those previously discovered in the fact that the goods on which the drawback was claimed were ostensibly shipped, although the packages were really bogus, barrels of water, for instance, being substituted for barrels of oil. The culprits seem to be a different set of offenders to those connected with the previous frauds. So far as known no officers are implicated. The extent of the frauds is not fully ascertained. No arrests have yet been made. A set of sharpers, calling themselves Tasker & Co., having an office in William Street, have succeeded in swindling about 150 laborers out of \$5 each, under the pretense of furnishing them a passage to New Orleans, at which place they would be set to work at \$3.75 per day. On Saturday, the day of failing, the office was closed and the Company failed to put in an appearance. It is stated that the French government which refused to give a postal treaty with Senator Ramsey, on more liberal basis, has asked that the present treaty, which expires on the first of February, 1870, shall be renewed for one year; this request our Government has positively declined. The Times urges the transfer of the negotiations relative to the Alabama claims to Washington, and doubts the report that negotiations have been reopened by Motley. It says: "however, we have reason to believe that the British government was officially notified some time since by the Secretary of State, that this Government is ready to receive any new propositions which the British Cabinet might choose to submit. This was a new formal notification, but was certainly not a reopening; it was simply a necessary formality on any event. The Tribune says that in spite of the representation of the Captain General's questionable organ, it is asserted that the Spanish Admiral Compo, did intend reprisals upon American commerce and that Minister Roberts has not changed

the demonstrative tone of his diplomatic base. Admiral Compo, and Minister Roberts will now, perforce, await the issue of the gunboat litigation and the action of Congress. If by that time they wish to treat, to sell out or to make war, they will be in order. A. D. Richardson this morning is thought to be gradually sinking; no hopes are entertained of his recovery. The ball was extracted from Richardson this morning and his condition is more precarious than ever. The Assistant Treasurer has announced that the Government will sell eleven millions in gold and buy thirteen millions in bonds in December. The announcement caused considerable excitement in the Gold room with great pressure to sell; the price closed at 21 1/2. Government fell heavy and made a decline of two per cent. ALBANY.—Henry Dunn, who was bitten by a dog in August, was taken with hydrophobia on Thursday afternoon, and after intense suffering, died yesterday. Alex McConnell, who was kicked in the abdomen a few days since by Lorenzo Murphy, died last night. Murphy is under arrest.

Marine Hospital—Suspension—New Capitol Building—Sutro Tunnel Company.

SAN FRANCISCO, 29.—Attention has been called to the condition of the United States marine hospital; the building has been deserted since the earthquake in October, '68. It is said that fifteen thousand dollars will make the building better than before the earthquake. The property is worth at least half a million. An impression prevails that a plan is maturing to obtain it from the Government for a nominal sum. The suspension of Edmund Marks & Co., grocers, is announced. The State Officers have moved into the new Capitol building. The Sutro Tunnel Company was incorporated to-day with a capital of twelve millions. The first trustees are Samuel Merritt, Michael Reese, Abraham Seligman, Joseph Aaron, William H. Sharp, Jno. B. Felton and Henry Burrall.

In closing he complimented the United States.

**CANADA.**  
The Red River Rebellion.  
TORONTO.—A special from St. Paul says that a letter from Pembina of Saturday night, states that the insurgents were arranging to hold a council of the representatives of the different districts, to consider the state of the country and determine as to their future action.

At an enthusiastic religious meeting among the negroes in Blount county, Tenn., when the mourners' bench was crowded with penitents groaning in agony, one of them a sable dame, of elephantine proportions, sprang to her feet crying: "Glory, hallelujah! Lord Jesus de Jesus! I've got religion! Lord if I didn't had de wings of a june bug, I'd fly right to heaven." Her enthusiasm was checked at that juncture by a matter-of-fact sister, who raised her head and brought the new convert's thoughts back from the ideal to the real; thusly: "You fool nigger, what do you mean? If you had June bug wings don't you know a wood-pecker'd gobble you fore you gothalf a mile?"

The Grand Requiem now being written at the proposal of Verdi, by no less than thirteen composers, as a monument to the memory of Rossini, will be a curious piece of musical patch-work. The performance is not to take more than one hour and a half, thus allowing about seven minutes to each composer. No restriction of key or time is laid on any one of them beyond the obligation of beginning and ending in the initial key. The following are the names of the contributors to this strange work, which is expected to be terminated on the 15th of September: Bizet, Bazzani, Pedrotti, Ognoni, Ricci, Nini, Boucheron, Coccia, Gaspari, Platania, Perella, Mabellini, and Verdi.
