# WEATHER AND CROPS.

## Field of Wheat Exceeds, Harvest Improving and Sugar Beets Ripening.

Geo. N. Sandberg, weather bureau reporter for the past week.

The weather and crop conditions have not greatly changed from what they were last week. The principal feature of the week just passed was a shower on the night of the 17th, which was quite general, and in some localities as heavy as in Utah and Idaho.

Harvesting is now well advanced. Wheat threshing has been a feature of the week. The wheat yield is estimated to be about 100 bushels per acre in the Twentieth school.

# Two Little Girls were Blue,

Not on Account of a Now in the Family, but because the household looked 'old fashioned, rough and dingy.'

This feeling was dispelled one day when their Mother dropped into our place and purchased a New Stove and all kinds of Kitchen and Dining Room Ware.

She also bought from our stock innumerable useful articles of the Latest Patterns and now we find
