port the rate bill. "Senator Foraker declined to follow this resolution. "When the issue is whether he shall be returned, it must be determined if this is to be a representative form of revenuent, not by the question government, not by the question whether he has followed his conscience, but by the question whether he really represents the principles that his con-stituents desire supported and put into practice. practise," "This

"This quotation shows that the grounds of Mr. Tat's opposition to me wore two-fold; the rate bill and the Brownsville matter. "As to the rate bill, Mr. Taft says of me, in his letter enumerating the rea-sons why he could not accept an en-dorsement for the presidency if coupled with an endorsement of me for senator: "He has opposed the vital policies and principles of the administration' and adds as another reason that I would not vote for the rate, although requested to do so by the Ohio legisla-ture.

WHAT MR. TAFT KNEW.

"Mr. Taft knew I had never opposed the policy of supervising and regulat-ing the railroad and interstate carriers. He knew that my opposition to the rate bill was not because it was opposed to the policy of regulation and supervision, the policy of segulation and supervision. but only to some few methods proposed by that measure. "For instance, he knew that my ob-

by that measure. "For instance, he knew that my ob-jection was confined to certain clauses, among them the rate making clause and the commodities clause. "This bill contained some provision on account of which I disliked to vote against it and so stated in the senate, but it contained others that seemed to me so vicious that I could not doubt that it would bring upon us not only panic, idleness, suffering and distress, but still other evils that did not then seem to be generally foreseen. "Entertaining this view of the meas-ure, I studied the bill with very great conclusions that it was my duty to my conclusions that it was of the Ohio legislature, most of the body of which had probably studied the ques-tions involved but very little, if at all. A SENATOR'S DUTY.

A SENATOR'S DUTY.

"I do not agree with Judge Taft that a senator should be controlled by the legislature of his own state against his legislature of his own state against his intelligence, his conscience, and his judgment, about a great public quos-tion of far-reaching consequence. I think a senator who would thus yield to public clamor against his intelligence and his judgment would be unfit to rep-resent a great commonwealth in this Congress of the United States, "Having such views I felt that it was my duty to present them to the senate and not be coerced into a sur-render of them or to cast a vote in con-filet with them. "I need not repeat the arguments I have so often made to show that

have so often made to show that turning control of the rate making power over to a commission was cal-culated to, and has, impaired confi-"Without disparaging genuine mor-ality, it can be truthfully said that less imaginary and professional 'rightness of action' and 'moral awakening,' and more common sense in the policies of the administration would have been better for the country and would have excited less of that opposition of which Mr. Taft's letter complains. "At any rate, in the presence of the difficulty of the conmodities clause and the unfortunate consequences re-sulting in the enforcement of the trate law as to foreign commerce. I dence in railroad securities to such an extent as to stop railroad construction and do immense injury to all kinds of business, from which it will require us a long time to recover.

VINDICATED ON ONE CLAUSE.

the country. It is commonly ac-knowledged that it will be an abso-lute disaster to the whole country if the supreme court should reverse this decision. "There were other objections to the rate bill that are now making themselves painfully felt. The an-nouncement was recently made that because of abolition of low through rates for our foreign commerce, our transcontinental lines have practically abandoned competition for oriental

An Erie Pastor's Wife Tells How RESPONSIBILITY FOR PANIC. She Overcame a Trouble

"Responsibility for such conditions "Responsibility for such conditions is serious. It is the first time we have had anything like it under a Repub-lican administration. Who caused all this? Not Providence. He has been generously indulgent. All our nat-ural conditions are favorable to a re-sumption of the fullest prosperity, and yet it does not come. A million brimful dinner pails have been kicked over. We know that the melicies of What anaemia is, how to recognize it and the value of the tonic treatment with Dr. Williams' Pink Pills should be known by the mother of brimful dinner palls have been kicked over. We know that the policies of the Republican party filled them. Whose policies emptied them. I am at least thankful, profoundly so, that no one has ever charged—not even my bitterest enemy—that any dinner pall has ever been emptied or that any wage worker has ever lost a day's wages by reason of any act or speech or vote of mine. "It was because I thought I fore-saw all these disasters that I would not stand by the president shoulder to shoulder with the Democratic sen-ators to vote in support of policies that they rightfully, as I thought, claimed as their own. RAPS AT JUDGE TAFT. It is one of the most common and dangerous diseases with which grow-It is common because the blood so often becomes impoverished during development, when girls are too fre-

quently allowed to over-study, overwork and suffer from lack of exerwork and suffer from lack of exer-cise. It is dangerous because of the stealthiness of its approach, often being well developed before its pres-ence is recognized, and because of its tondency to grow so steadily worse, if not promptly checked, that it may run into consumption.

RAPS AT JUDGE TAFT.

RAPS AT JUDGE TAFT. "But what manner of man is Judge Taft, anyhow? I have known him for a great many years, and I thought intimately, and yet at times I feel as though I dld not know him at all. "Judge Taft, when he wrote the letter the president publishes, was so devoted to the trust smashing policies of the administration that he could not consent to be made president, if as a part of the same move I was to be honored with a re-election to the senate because of my opposition to that special feature of 'my policies,' and now since the Standard Oli com-pany matter, there is manifested the most unusual indignation. Apparent-ly, every man who has any relation to the company is to be driven out of public life. If so, I shall probably have a great deal of company. "Only one month ago, when Mr. Taft visited Middle Bass and Toledo, he was the guest of C. T. Lewis, of the law firm of Doyle & Lewis, who have been the attorneys of the Stan-dard for many years, standing next in rank in that relation, to Virgil P. tondency to grow so steadily worse, if not promptly checked, that it may run into consumption. Mrs. E. Wolfe DeWitt, of Reed and Twenty-third streets, Eric, Pa., the wife of the pastor of the Second Bap-tist church, suffered with anaemia for two or three years before she heard of Dr. Williams' Pink Pills, and was cured by their use. She says: "When a girl and at the period when I was growing fast, I was in an anaemic condition and suffered ter-ribly. I was weak, without ambition and the least exertion tired me. I had suffocating spells, severe head-aches at the base of the skull and over one eye. I was almost blood-less, and my ears were so transparent you could almost see through them. I had no appetite and finally became so weak I had to leave school. "I would be faint at times, and the suffocating spells, the doctor said, were due to a nervous affection of the heart. "I began taking Dr. Williams' Pink Pills and only took a few boxes before I was restored to perfect health. I can heartily recommend the pills to all young girls suffering from an-

Kline, and when Mr. Taft had occa-sion to pass back and forth between Middle Bass and Toledo, where I had the pleasure of meeting him, he traveled on the yacht of Mr. Richard-son, a prominent magnate of the glass trust, and while he doubtless paid his fare, at least the papers so announced, when traveling from Hot Springs to Toledo, on his way to Middle Bass, yet nevertheless, Re rode in the private car of one of the officers of the road, for which Mr. Doyle and Mr. Lewis are attorneys. What a series of unpardonable crimesl..... There did not seem to be any such righteous dislike on these Standard Oil and other trust representatives, rankling in the bosom of Mr. Taft on the oc-casion to which I refer. On the con-trary, he acted like a good, square, sensible, honest-minded man, who really enjoyed the company he was keeping and the entertainment ho was receiving, and who recognized, as the late Senator Hanna was ac-customed to say, that there were 'good trusts as well as bad ones,' and even decent people in the employ-ment of the Standard Oil company As well as other people, and all that is to his credit. CALL OF JUDGE DOYLE. aemia." Send today for a copy of our "Diseases of the Blood." It gives further information about anaemia and is free upon request. Y. trade, and that all ships flying the American flag in the Pacific are going out of commission. From the same cause, rates on shipments of grain for export have been advanced from Buf-falo to all northeastern Atlantic ports from 3 to 3½ cents, and as a result it was announced two or three weeks ago that for the month previous more grain had been exported from Mont-real than from all the ports of the United States. Other evil results might be noted, but that is unneces-sary for present purposes.

POLICIES OF ADMINISTRATION.

CALL OF JUDGE DOYLE. "It is also to his credit that when, three years ago, the president had occasion to appoint a United States district judge for the Northern dis-trict of Ohio, Mr. Taft, knowing the abilities and high character of John H. Doyle, of this Standard Oil firm of Doyle & Lewis, did not hesitate to recommend him to the president in strong language for appointment to that judgship. "The Standard Oil relation of Judge Doyle has been well known to Judge Taft; and did not prevent him from recognizing his high character and gen-eral fitness for such a sacred trust, and I happen to know as did Mr. Justice Moody, who was then attorney-general, that the president on the recommenda-CALL OF JUDGE DOYLE.

sertion that the colored people of the country who have been grieved by what was done in the Brownsville matter have simply been hoodwinked by de-signing selfishness. This is bad enough, but the president makes it worse when he says: "The entire agitation over Browns-ville was in large part not a genuine agitation of the colored men at all, but merely one phase of the effort by the representative of certain law-defying corporations to bring discredit upon the administration, because it was seeking to cut out the evils connected not only with the corrupt use of wealth, but es-

It does not matter how beautiful a woman may be, if she is afflicted with bad breath she will be shunned and pitted by men and even women will studiously avoid her. with the corrupt use of wealth, but es-pecially with the corrupt alliance be-tween certain business men of large fortunes and certain politicians of

fortunes and certain politicians of great office." "In other words, the Brownsville pro-ceeding was not only all Judge Taft said it was, but in addition to being designing and selfish, it was prompted by the representatives of law-defying corporations to bring discredit upon the administration of its policy with respect to them." If any woman doubts this statement let her make a point of asking a friend in whom she may confide, a man friend or relative. If he be honest he will tell her that foul breath from the mouth of a woman will drive men from her more rapidly than any other personal affile-tion. Foul breath arouses in man disgust and where this quality is brought into play no amount of self-denial or rea-

WORSE THAN PRESIDENT'S CLAIM play no amount of self-denial or rea-soning can ocercome the natural re-pugnance which comes to man when he is in company with such a woman. What is true of bad breath in wo-man is not true in so great a degree in men. Women are looked upon as the incarnation of sweetness, breeding, virtue and refinement. Foul breath will sicken a man so that he cannot feel for such a woman a companion-ship necessary to make him desire to be in her company. There is absolutely no occasion for bad breath in either men or women. Charcoal, the strongest absorbent known, when taken into the stomach, will prevent this repugnant tendency or affliction. "This is worse than the president's claim that the panic last October was provipitated by a lot of rich men in Wall street who wanted to bankrupt themselves and the whole country that they might discredit him and worse even than the story that these same men raised a fund of \$5,000,000 dollars with which to prevent him from naming his chosen successor. I happen to know better than anybody else can know, that there is not the slightest to know better than anybody else can know, that there is not the slightest ground for such a charge. It is the invention pure and simple, and judg-ing by the frequence with which the president is bringing the matter to the front, born of that disquiet which comes to the conscience when there is consciousness of having done a great wrong wrong.

Stuart's Charcoal Lozenges are sold in tremendous quantities all over Am-erica and Canada. They cure and have cured all forms of bad breath. A sin-gle box will convince you of this fact One should cat some of these lozenges after each meal and upon retiring. You might eat fifty of them without harm. passed. "I have said enough, I hope, to jus-ify my course both as to the rate bill and as to the Brownsville case, and it is not necessary that I should say It is not necessary that I should say anything in justification of my course with respect to joint statehood, except only to point to the national Repub-lican platform upon which Mr. Taft stands, one plank of which declares in favor of the separate statehood for New Mexico and Arizona.

PARTY AND FAMILY.

"If in making this defense I have said anything that will work the slightest injury to the Republican par-ty I shall regret it, but I shall always feel that those who have no consid-eration for me, my family or good name, but would gloatingly rejoice if they could accomplish the shame and humilifition they have attempted, are not entitled to any consideration at my hands, and that my duty to the party should be subordinated to duty to fam-ily and the good name I have striven to make, that I may leave it to them as their herliage, more priceless in their "If in making this defense I have as their heritage, more priceless in their estimation than anything else within my power to give them."

Mare Island Navy Yard, Cal., Sept. The original intention was to locate the original intention was to locate the station in the vicinity of Valdez, but the atmospheric conditions there are such that White Shed Point was considered a more desirable place. The erection of this station will complete the chain of wireless stations establishing communication from Point Loma in southern California to the ex-treme north.

Whitney's History of Utah at Half Price.

The Deseret News takes pleasure in announcing that it has secured the sole rights to the HISTORY OF UTAH, by Orson F. Whitney, originally published by the George Q. Cannon & Sons Co.

This work, which was begun in 1890, and printed in three large volumes (the fourth volume issued being biographical, and not a part of the direct history of Utah), is one of the largest and most exhaustive histories ever compiled of any western state. The three volumes bring the history of the state from the foundation down to the year 1890, at the time of the issuance of the manifesto, and includes the history of the Church from its organization in New York. The first ten chapters are devoted to this subject.

In the three volumes are included 235 full page steel plates, mostly portraits of leading figures in the history of the State, originally obtained at a cost of many thousand dollars. The volumes each contain approximately 800 pages, a total of 2,351 pages in the three. The binding is quarto size, full morocco with gilt edges, no other style of binding being issued.

The three volumes were originally sold at \$30.00, and several thousand sets were placed throughout the state at that figure. The "News" having obtained the unsold copies of the edition, will place them on the market at the coming October Conference and sell to the first comers at half the original price, or \$15.00 for the three volumes. No single volumes will be sold. Without doubt many libraries throughout the country will avail themselves of this rare opportunity, and Utah people who desire to add this work to their libraries are urged to call at the Deseret News book store and inspect the work during Conference.

The low price at which this rare work is offered will undoubtedly exhaust the edition in a short time. The work will then be OUT OF PRINT, so that every book-lover should avail himself of this last chance.

The original subscribers, who already have the first three volumes of the History of Utah are entitled to the fourth volume (containing individual biographies) free, by addressing George Q. Cannon & Sons Association.

The "News" has no interest in the fourth volume, the work being complete as above stated, in the three volumes, now offered at \$15.00.

S.S.S. A CURE FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which is carried through the circulation to all portions of the system. Every muscle, nerve, bone and joint absorbs the acrid, pain-producing poison, causing aches, inflammation, stiffness and other well known symptoms of the disease. Permanent relief from the pains and discomfort of Rheumatism cannot be expected from the use of liniments, plasters, and other external treatment which does not reach the blood, where the cause is located. Such measures give temporary relief, but in order to cure Rheumatism the uric acid and inflammatory poison must be expelled from the blood, S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes down into the circulation, neutralizes the uric acid and drives it from the blood. S. S. S. expels the irritating, inflammatory matter which is causing the pain, swelling and other discomfort, enriches the weak, sour blood, and permanently cures Rheumatism. In all forms of Rheumatism, whether acute or chronic, S. S. S. will be found a safe, vegetable remedy, possessing the properties needed to cure, and at the same time a medicine that builds up the entire system by its fine tonic effects. "But if the Standard Oil company was in good repute only three years ago, to warrant Judge Taft in recom-mending Judge Doyle and President Roosevelt appointing him to a judge-ship, much more as it is sufficiently in good repute six or seven years earlier, before any of the recent virulent at-tacks were made on it, to warrant me in accepting employment of the char-acter mentioned. "In view of Judge Taft's statement I trust I may be allowed to repeat what I have said a number of times, that in this whole matter I had no re-venges to seek or special end to serve, but was anxious to see that common justice was done to the representative to a noble and loyal race, everyone of whom is by nature a Republican. The colored voters are known to be more or less displeased with the action of the Republican party in not passing some relief measure for those soldiers, and many of them have signified a purpose to vote against Judge Taft because of his official relation to the matter, Much work has been done to overcome this trouble and to induce the colored Re-publican voters of the country to stand by the party with which they have al-ways affiliated. And now comes the president and publishes Judge Taft's letter containing his unfortunate refer-ence to this unfortunate case. COLORED RACE'S GRIEVANCE. COLORED RACE'S GRIEVANCE.
