rices Shot Up Over the Eighty-Cent Mark This Morning.

TOCKS GENERALLY DOWN.

aproved Figures in Spots and Business on the Exchange Evidenced

A Decidedly Livelier Tone. A brighter market, livelier tone in siness and improved prices in spots, it generally lower, characterized the ing this morning on the Salt Lake

as done somewhat rapidly and a odly number of shares were disposed by the time the caller's gavel called exter's "human yeast cake" and from

r that bidders could easily get anner "awful rise" out of sellers if they d persisted in their efforts to purhase. Had the business been pro-nged a bit it is probable that 30,000 ares would have been made to change ands, but as it was the stock boasted the banner business of the session. May Day was unfortunate in startout it sales at 88 cents, a figure that ould not be maintained under the test trading, for it was sent down to cents, in the meantime putting out tite a decent bunch of shares. Ajax marketed some shares at figures

close range and about retained its anding of yesterday so far as its due is concerned.

Uncle Sam was quite lively in sales ut lost in price as compared with yeserday.

Poor Tesora was the ram in the bush and fell a victim to slaughter at 7½ ents, only 1,100 shares being called for

ven at that price.

California was battered down and was bliged to roll up like a porcupine in eif defense. It sold at first for 56 and 57, but soon tumbled to 54 cents. hen it concluded that it had got hough for one seance.

Manhattan, with its "dinkey little

rice" and steady mein, slipped in with

sale of 4,000 shares at a penny and a aif apiece.

Con. Mercur seldom dabbles extendively in trading and today there was he usual voice from the wilderness, therwise known as the Johannesburg of America, and 500 shares were direct. f America, and 500 shares were disposed of at \$156, \$156\% and \$1.57. It seems that so far the abolition of "futures" has not had much effect

prices, and the slump has come to an old sore which gives evidence f the truth of the saying, "It will nev-r get well if you pick it." This is e price list:

\$3,300 for Victor Ore.

Manager E. V. McCune has received check for \$3,300 for 100 tons of ore from the Victor mine. Mr. McCune, accompanied by J. A. Czizek, went out to the mine today for an inspection and he expects to arrange for rapid and continued shipments of ore from the mine for an indefinite period. Journal's New Staff.

The Engineering and Mining Journal announces its new editorial staff as fol-lows: David T. Day, Ph. D., editor in chief; Edward W. Parker, managing editor; Frederick Hobart, associate editor: Rossitetr W. Raymond, Ph. D., M. E., special contributor. This paper has also established a branch office at 408 Dooly building. Big Copper Prospects.

Ben. T. Lloyd, after a trip to the Milford and Beaver copper mines, is "chuck full" and overflowing with enthusiasm with reference to the future of the districts named. The extent of the ore bodies is astonishing and Mr. Lloyd thinks there is absolutely no doubt but there will be developed in the near future some of the world's greatest copper producers.

Dexter's Production.

For November the management of the Dexter mine has issued a statement giving the following as the production for the month. Gold bullion, \$8,231; mill cyanides, \$3,550; slime product, \$3,-470; high grade ore, estimated on one assay, with settlement not made, \$3,000.

Wyoming Oil Fields.

Laramie Boomerang.-We are indebted to Prof. E. E. Slosson for a late 18sue of the "Petroleum Industrial and 'Technical Review,' an important English inagazine published in London. In this issue of the Review is an extensive article from the pen of Prof. W. C. Knight on "The Wyoming Oil Fields." The article is very comprehensive and the article is very comprenensive and gives a description of the oil found in the state, where it is found, the output, the obstacles met in getting it to market, the future of the industry, etc. It is certainly very gratifying to note that our state should receive such recognition from the original to state with the form the state of the sta tion from the outside world, and proves that Wyoming possesses one of the richest oil belts in the entire country. A dispatch from Kemmerer, Wyo., says: 'John Knights atruck oil at a depth of twenty feet while digging a

well for water a few days ago near the Fossil oil fields. At a depth of fifteen feet a streak of blue clay was encoun-tered which gave out a strong odor of Immediately under this clay the oil sand was found," Evanston News Register.—A gentle-man of this city has received a request from Editor Dverkovitz, of the London Review, for samples of oil from the several fields in Wyoming. Englishmen are just taking great interest in the Wyoming of injustry, and it is expected that s-versi concerns backed by English capital will begin operations in the spring, batter Dvorkovitz has announced that he will imaged the Unital county fields next spring and

will bring with him a party of London moneyed men.

Montana Mines. H. L. Frank and James A. Murray, owners of the Gem mine, located a short. distance north of the Speculator, are preparing to sink the shaft on the property 300 feet deeper, which will make it 1,000, says the Butte Intermountain. They have ordered machinery of sufheient capacity to do the work and will begin sinking as soon as it is in place.

The Gem is destined to be a good mine. There is ore in it, but the vein is not quite so strong as the ore bodies of some of the other properties in that section. Ore has been struck between the 300 and 400 and between the 400 and 500, and again at the 700, the present depth. No cross-cutting was done between the 500 and 700. At ficient capacity to do the work and will begin sinking as soon as it is in place.

The Gem is destined to be a good was done between the 500 and 700. At the bottom the voin was drifted on east and west and the ore looked fine, much of it being fornia, carrying saver. It requires nearly 1,000 feet of shaft

in that section to reach the larger end of the ore bodies, and unless the vein of the Gem differs from that of the others the prospects for transforming the property inte a large producer are most The Ada mine in Cataract district is

making a fine showing and the lessees are shipping a carload of good ore each day. The property is owned by Messrs, Axe, Downey and McLaughlin, says the The former who is on his first trip

Cast since 1865, wrote to his partners from Chicago a few days ago. He said that country around there had changed some since be went into the mountains of the West, and that he had not met all of the people in Chicago yet.

The Baltimore mine owned by Sam Mackey and operated by Owsley and Pritchett, is doing well and they are 1614: 1,600 at 8614; 1,100 at 86; 1,600 at | mouth of Boomerang gulch

#### ICROUND IS RICH IN PARK VALLEY

District will Unquestionably Furnish Big Gold Producers.

CENTURY ALREADY KNOWN.

Other Prospects Have Splendid Show ings which Encourage Much Development Work.

That the Park Valley district contains much rich ground is daily being who has either visited the place out of curtosity or for the purpose of delving into the ore outcroppings returns with a report of great possibilities for the district. And the fact that all of these people bring practically the same endication that a splendid gold mining re-

gion is being gradually opened up. as to have achieved considerable fame and its bounteous supply of the gold-bearing mineral has been merely com-menced upon. Of the Susie mine Man-ager Owen Balley says that even on the have been shown in the assays. While there recently on an inspection trip he took v fair sample of all sorts from across the face of the workings under-ground and assays gave over \$100 in gold pleased with the property and are going after development work as rap dy as possible, feeling conndent of add-

Ephraim Oil Shale.

John E. Dubois and P. A. H. Frank lin have agreed to develop a lot of oil shale property belonging to Rev. E. E. Mork, at Ephraim. Sanpete county. Although surface tests show 34 per cent of oil a tunnel will be driven in an attempt to find a richer deposit.

Oil Location.

MINING NOTES.

Christmas pocket money,

Germania smelter reports the reduction of 12,000 tons of ore during the month of November.

On Pather creek, near Salmon City. Idaho, a deposit of tin is reported to have been discovered.

district near Buena Vista, Colo., has been leased and bonded to John Kloes, who has been extracting and shipping ore from it for the past three months.

State School of Mines of Butte will have a football team in readiness to meet the famous Princeton eleven, which is due to arrive in Butte about December 15 on their way to California.

er, superintendent of the Bonanza property, came in yesterday with the clean-up of the famous mine. The amount is said to be about \$50,000, and was deposited in the Citizens' bank for shipment to the mint at Boise.

W. S. McCornick, for a consideration

The wagon road which has been built to the Cmaha group in Tuckey creek, Colo, at a cost of \$7,000 is completed. The entire two miles had to be cleared of a heavy growth of spruce, cedar and underbrush and the road graded, muca of it through solid rock. A considerable force of miners is employed and the stamp will is running satisfactorily.
All the buildings are substantially built and there is plenty of timber year at

from \$35 to \$60 per ton. making frecent shipments to the Anacorda smelters, loading their ore at the mouth of Bomerang gulch.

White Pine, a mining camp near Gunnison. Colo., looks very prosperous at this time and promises to be more so

The Century mine is so far developed surface outcroppings immense value alone to the ton. Shareholders are ing a good paying mine to the others

Provo, Dec. 5.—T. M. Surbaugh, et al., have filed notices of location of the O'Connor Nos. 1 to 16, petroleum claims of 180 acres each, situated along the line of the Scofield branch of the Rio Grande Western railway, ranging from 2 to 6 miles from Colton.

Daly-West will distribute \$60,000 for

from Leadville during November. Four days are required to travel from Salmon City to the Thunder Mountain

The Gola Cord Mining and Smelting commany is doing a good deal of de-velopment by driving a tunnel into Jac use mountain, near Kokomo, Colo. The Little Annie mine in Four-mile

if present plans are carried out, the

MARKET IS STILL STRONG

Buying Movement Largely Concentrated in High Priced Railroads and Specialties.

Amalgamated Copper Again a Feature-Large Orders for Gould Stocks - Bonds Steady.

New York, Dec. 5 .-- The opening dealings in stocks showed continued strength in yesterday's leaders. Amaigamated Copper opened up % and then ran off to last night's close. The buying movement was largely concentrated in the high priced railroads and specialties, but their strength had a sustaining effect on other stocks. Rock Island and Central Electric advanced 4% and 5 points respectively, and St. Paul, Northwestern, Missouri Pacific and Canadian Pacific rose 1@11/2, Amaigamated Copper declined a point below its opening and there was later profittaking in Manhattan and the rallroads which forced the market below the best. Rock Island reacted 2 and General Electric as much. Chicago Terminal stocks lost 21/2 each on rumors that the company would lose one of the rail-roads now using its terminal. Short-ly before 11 o'clock Amalgamated Cop-per was lifted to 751%, causing a steadier tone al around. The general market leveloped a yielding tendency again when Amalgamated reacted a point and stop-loss orders were uncovered in Metropolitan, breaking it 24. Some of the western and Pacific railroad stocks fell to the lowest and there was free selling of Sugar and the coalers. Large buy-ing orders were distributed among the Gould railroad stocks before midday, and they advanced materially, espe-cially Missouri Pacific, which touched 105. The general list was dull and reavy. St. Paul and New York Central reacted a point or over from the

Bonds were steady. Prices went lower after noon, Manhattan receded 2 points below the best. There was a recovery before the end of the hour, extending in some cases to a point. Large offerings of Amaigamated Copper on a heavy scale depressed it to 72%, the lowest of the day, and caused renewed heaviness elsewhere. Trading then became dull, but grew firmer todawrd 2 o'clock when the Gould stocks were bid up strongly. Western Union was heavily bought at an advance of ¼, Manhattan as much and Missouri Pacific crossed 105.

BUSINESS NOTES.

The contract for the new steel bridge to be erected over the Logan river will be let on December 10th.

There is considerable inquiry for Z. C. M. I. and Utah Sugar stocks and the Church bonds at 105 can't be moved. The last sale of Utah Sugar brought

Today's clearings amounted to \$734.-897.62 as compared with \$540,435.54 for the corresponding day of last year. The increase of \$194,426.08 is considered very Contractor George Curley Mated to day that building is progressing sat-isfactorily troughout the city and that

and that the masonry work is com-Dealers in leather goods say that prices have an upward tendency and a raise in prices is predicted very soon that will affect every branch of the business. It is stated that leather, both the raw and finished product, has not been so high in years.

the continued open weather has

of great assistance. He said the Elks' building will be under roof in two days

The Phillips Congregational church is planning to begin the erection of a fine new place of worship on the corner of Fifth South and Seventh East early in the spring, the hullding to be com-pleted during next year.

The price of wheat has advanced since yesterday afternoon between three and five cents per hundred in Chicago, San Francisco and Oregon. It is expected that the prices may reach a still higher point owing to the scarc-ity of corn. The local prices of wheat and flour are yet the same but may be affected by the markets in eastern and western points in the near future.

The Salt Lake offices of the American The Sait Lake offices of the American Bridge company will in future be the head offices for the states of Montana, Nevada, part of Wyoming, Idaho and Utah. The office in Butte will be continued, but H. A. Fitch of this office will supervise it as well as the one here. He is now in Butte and will return account to the company of the province of the company of the c some time next week. The two offices have practically been under Mr. Fitch's direction for some weeks.

Architect Neuhausen is preparing to leave on Sunday for New York and other eastern cities. He expects to meet Hon. David Keith and with him to examine some eastern fire proof business blocks with a view of ascer-taining just what kind of a building to erect on the Walker House property. Mr. Neuhausen says that Mr. Keith has not yet decided, so far as he knows. just what sort of building he wishes

George R. Bennett, secretary of the 'olorado Investment Loan company of Denver, which is represented in this city by Messrs, Blissard and James, is expected to arrive in this city tomor-rom evening. The Salt Lake branch was the first to be established west of Den ver and the business has been so suc essful that it is stated that Mr. Ben nett will continue his trip westward with a view to reporting the advisabil-ity of establishing other western

CHRONIC DYSPEPSIA

of the most stubborn and distressing kind positively cured permanently by NAU'S DYNPEPSIA CURE, which is now recorpositively cired permanently by Acade Deep Per Ac Cut E. which is now recognized in medical circles as the only specific known. No matter how long you may have suffered you can find immediate relief if you wil do what thousands of others have done—try this wonderful remedy. It is not a patent medicine. It is the prescription of one of the most famous physicians in the world, and has been doing good for the past ten years. A woman who writhed in agony for 25 years found perfect health through this marvelous medicine. Hundreds of men and women who were painfully troubled for from 10 to 20 years have been cured. Ordinary cases of dyspepsia—of from one month to a year's duration—cured with one bottle. If you have a sore sput in the pit of the stomach, if you are subject to vomiting, severe pains, heartburn, bloating, reproduction of food in the mouth, a distressed, heavy and aching feeling before eating, or after eating, or if your tongue is coated, or if you are subject to dizziness, or sour breath, or any of the other symptoms of dyspepsia, and you desire permanent relief, there is nothing but NAU'S DYSPEPSIA CURE that will give it to you. Beware of so-called remedies that only afford temporary help. NAU'S BYSPE it to you. Beware of so-called remedies that only afford temporary help. NAU'S BYS-PEPSIA CUESE is for sale by druggists at \$1.02 a bottle or a bottles for \$5.00. If your druggist cannot supply you write to FRANK NAU & CO., 4 Vesey street, New York, or to Portland, Oregon.
