THE EVENING NEWS.

Tuesday, - - - April, 4, 1871.

PRICE OF GOLD,

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers

SALT LAKE CITY, April 4, 1871.

Buying at $1.08½, Selling at $1.11½.

LOCAL AND OTHER MATTERS.

REMEMBER THE CONCERT TO-NIGHT.—Do not forget Signor Farini's concert at the Theatre to-night. The programme is very select, and the entertainment promises to be the choicest and best. His last concert, after three or four day's labor and teaching, surprised and pleased all who were present. this one, with the number of performers considerably augmented, and three or four weeks' close training, will be far ahead of the last. Remember solos on the piano and songs by Farini; a host of gems by other singers and performers, the whole to conclude with the last act act of Il Trovatore. Attend and get more than your money's worth of capital music.

A FINE DISPLAY.—Z. C. M. I. has had late extensive arrivals of seasonable goods, from the East, which were opened, at the Eagle Emporium, on Saturday. The variety is great and the quality of the goods superior, and those on show make a splendid display, being arranged with Mr. Candland's usual good taste.

TAKE NOTICE, IMPORTANT.—The shareholders in the 20th Ward Co-operative store are requested to meet in the 20th Ward School House at 7 o'clock to-night. A full attendance is requested, as there is important business matters to be laid before them.

A PAMPHLET BY DR. LATHAM.—Dr. Latham is now having published at Omaha, a pamphlet on "stock and wool growing in the west." It will contain about seventy pages, and will be issued within three weeks from now. The doctor is well able to give much valuable information on the subject he has undertaken to treat upon, and doubtless the pamphlet will be one that should be in the hands of all who are interested in the real development of the West.

JAMES LEWIS, late of Talywain, South Wales, Levi W., son of Dr. Levi Richards, wants to see you; he has a letter from your mother for you. Call and get it from the Doctor's place, near the Meat Market.

GRASSHOPPERS IN MONTANA.—An exchange says:

"Grasshoppers have already put in their appearance in the vicinity of Missoula, Montana."

PROFITABLE.—California papers state that Mr Charles Mathews made $2,500 by his nine nights engagement at the San Francisco Theatre.

STOCKHOLDERS OF Z. C. M. I.—There will be a meeting of the Stockholders of Zion's Co-operative Mercantile Institution held at 2 p. m. to-morrow, April 5th, 1871, at the Tabernacle to hear the report of the Board of Directors. This is in accordance with the requirements of the constitution, and a full attendance of the stockholders is desired.

FEMALE RELIEF SOCIETIES AND STRAW PLAITERS, Ho!—The members of the Female Relief Societies throughout the Territory have frequently been advised to teach the young sisters of their various Wards the several branches of domestic economy, straw braiding, straw hat and bonnet making, and other light but very useful branches of manufacture. We believe that this advice has been followed in many places, and that numbers of the girls are now able to plait straw and manufacture straw goods for home wear. This is very good and is worth all the trouble its acquisition has cost if it answer no other purpose than supplying the families of those who have engaged in it. But it would be still more encouraging if a market could be found for good home made straw goods or for any amount of plaited straw. We think that a market can now be found in this city for a large amount of plaited straw of good quality. Mrs. W. B. Wilkinson has opened a fashionable millinery and straw goods establishment on East Temple street, and she is prepared to purchase a good article of plaited straw from town or country plaiters. Ladies and gentlemen desirous of purchasing home-made straw goods, or fancy millinery of any style or quality, home-made or imported, will do well to give Mrs. Wilkinson a call, they will find her stock elegant, and as cheap as the cheapest in the market.

INFORMATION WANTED of the whereabouts of Anthony Charles Du Fosse, who left Salt Lake City, Oct., 13, 1860, for California, with six engineers. Any one knowing of him would confer a favor on his sister by forwarding information to Mr. H. S. Smith, Mill Creek, Salt Lake Co., U. T. California papers please copy.

A MAMMOTH MULE 3 years old, 16¼ hands high and weighing 1,150 pounds was shown in the streets of San Francisco a few days ago. The animal was raised in Oakland, and its dam was a half Mustang and half Clydesdale. The mule is docile and valuable. The *Chronicle* says it costs no more to raise such stock than to raise "scrubs."

"EVERY SATURDAY" for the 1st instant contains the beautiful engraving "Mother and Daughter," being portraits of Queen Victoria and her daughter Louise. It is a very fine picture, and worth a great deal more than the price of the number. It also contains many other choice engravings, and a large amount of interesting reading. If you doubt this, go to Dwyer's and spend ten cents in purchasing it.

FLUCTUATIONS IN BUSINESS.—A great impetus is being given to all kinds of business by the prospect of the development of mineral resources in Utah, and there is every indication that money will shortly be more plentiful here than it has been for some time past. A noticeable fault among a large number of our people, is that in times when money is flush they seem to have an idea that such a state of things will continue always, making no allowances for the fluctuations of trade. Hence many spend their means on things that are of no real or permanent benefit. Many people seem to be so organized that they must spend money as fast as they get it. The best advice that could be given to such persons is that if they must get rid of their means, to spend it in making their homes pleasant and desirable and on other improvements that will be conducive to the comfort and happiness of themselves and families. Money was somewhat plentiful here for a short time during the building of the U. P. and C. P. railroads and, doubtless, many who spent foolishly what they then earned by hard toil, have since regretted that they were not more careful to put the means they then had to better uses than they did. It would be wholly inconsistent to expect a future unbroken continuation of the briskness of trade that will characterize this summer and fall. Trade is like the seasons it rises and falls, comes and goes. Mechanics and laboring men generally will do well to use what they make with an eye to the future.

ARRIVED.—Elder Joseph W. Young arrived last night from St. George to attend Conference. His health is good.

IN TOWN.—J. B. Axtell, Member of Congress from California, is in the city, having reached here a few days since from the East, accompanied by his wife, daughter and niece. Mrs. Axtell has been suffering from severe indisposition since they arrived; but has now recovered. It is their intention to leave for California this afternoon.

GOV. POTTS.—Speaking of the Governor of Montana, the Helena *Gazette* says:

"In his character as a Radical missionary, seeking to extend his power, and to limit our people's rights in many partisan, and ill-judged actions, we have much fault to find with Gov. Potts."

The *Gazette* regrets this for it admits it is disappointed.

PEOPLE'S VERDICT
Over Half a Million sold and in use!
4,000 made and sold per week.
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.
THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.
It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.
Folding Tops and Cabinet Cases.
New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*
The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.
The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some Machines are Greatly Complicated, to do Unseen and nasty things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives Trouble, but is readily and easily managed by those who *utterly fail on other Machines.*
SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machine. These old and well-tried sewers, Machines are appendable *to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.
HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled
MACHINES.
(The numbers on which shows a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on
EASY MONTHLY INSTALMENTS
So that all may possess one of these *Blessings.*
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machine, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.
We Guarantee every Machine we sell to give entire satisfaction.
THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
OTHER SEWING MACHINES REPAIRED on Reasonable Terms.

THE CELEBRATED
COOKING STOVES!

SUPERIOR
For Wood.
They are really what their name indicates, SUPERIOR to any other stove in the market, and for
Economy, Durability, Convenience & Dispatch
Are Unequalled!
KANSAS, ALASKA
AND
IMPROVED AMERICAN
For Coal,
Which for Neatness of Design, Thoroughness of Construction, Capacity of Oven, Economy in the Use of Fuel and Uniformity of Operation, place them as the best Stoves in the market.
They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction, which give these Stoves superiority over all others in the consumption of its smoke, thus saving a large percentage of fuel.
