

## JUDGE C. B. DIEHL HAS BUSY TIME

Hears State Cases and Then  
Holds Court in Civil  
Division.

### THREE TOUGH YOUNGSTERS.

Appear This Morning in Matter of  
Young John Moore, Charged  
With Bold Robbery.

Judge C. B. Diehl of the criminal division of the city court has a busy time before him for the next 30 days or so. In addition to handling the criminal cases for the state during the morning sessions, and the city cases of drunks, vagrants, petty thieves, etc., in the afternoon, he has to attend to civil cases in Judge J. J. Whitaker's branch of the court. The latter has gone away and expects to be absent for a month or so and it is up to Judge Diehl to reciprocate to Judge Whitaker for the work done by the latter in the criminal division of the court.

#### CASES THIS MORNING.

This morning four state cases were on the docket and were disposed of. Two months ago a man giving the name of Jack Colton, was arrested and charged with drawing a revolver upon A. F. Miller and threatening to shoot the latter. Although Colton has been in jail two months he did not have a hearing. This morning he consented to plead guilty to the charge and it was recommended by Assistant County Atty. Meyers that the

court sentence Colton to two months in the county jail the sentence to take effect from the day he was arrested. Judge Diehl adopted the recommendation and sentenced Colton to one day in the county jail. The man will be released tonight.

MAMIE ELDER FREE.  
Mamie Elder, who has been in trouble many times for various offenses ranging from drunkenness to robbery, was in court on the charge of burglary. It was alleged that she entered the room of one R. K. Johnson on Aug. 23 and stole some clothing. She was arrested on the 24th and since that time has been in the county jail. She complained this morning to Judge Diehl that she did not get enough to eat and wanted to get back to the city jail, she said. The prosecuting witness did not care to prosecute the case and upon motion of the assistant attorney the case was ordered dismissed and Mamie went free.

#### THREE TOUGH BOYS.

The most important case of the session, although it was brief, was that of the state vs. John Moore, aged 17 years, charged with highway robbery. Young Moore, with Joe Gardner and George Thompson, youths of his own age, were arrested on Aug. 20 for robbing Herbert Muggleston of a watch and \$8. Muggleston was walking home on the 15th of August about 11 o'clock when three youths, whom he positively identified as the above named, rushed upon him, knocked him unconscious and robbed him.  
The three boys made their way to the O. S. L. depot and concealed themselves in a box car. They were arrested at Ogden and brought back to this city for hearing. Gardner and Thompson pleaded guilty to the charge and were held to await the action of the district court. Moore pleaded not guilty when arraigned several weeks ago. He said he took no part in the robbery, but admits that he threw the rock that knocked Muggleston senseless to the ground. He demanded that his confederates in crime be summoned to testify in his behalf. They were brought into court this morning and young Gardner took the stand. The manner in which he gave his testimony would make a brawny tough or a meat ticket prize fighter blush for envy.

## Some Planks in the American Platform.

As reported in local papers, the chairman of the "American" party mass state convention in the Salt Lake theater Monday evening, Sept. 28, declared a war of extermination to be waged against the Mormon Church officials in the fall campaign. To carry the county and judicial district for the "American" party and thus start the machinery of the courts in motion to accomplish THE IMPRISONMENT OR EXILE of the band of twenty-six, this is the program of the "Americans" as announced at the state convention.—Salt Lake Herald, Sept. 29.

Another plank in the "American" platform, concealed, but there all the same, contemplates the raising of taxes on farm property all over the county. This was foreshadowed in the Tribune, during the bond issue campaign, as follows:

"Queer, is it not, that since the [smelter case] decision the farm lands have decreased in value for the purpose of taxation? In other words, the lands are not so valuable as they were, and farming upon smelter smoke was more productive from the dollar and cent standpoint of the farmer than the tilling of the soil. While there has been a large increase in the value of property for taxable purposes in Salt Lake City, there has been a decrease in the property outside, and the farm lands are not worth as much as they were a year ago. I SAY IT IS QUEER, but remember it is a fact."

Farmers, read this plank in the "American" platform. If it means anything at all, it means that your farms are not taxed anything near what they ought to be taxed. It means that if the "American" party captures the county they will increase the taxes in the county, as they have done in the city by almost criminal extravagance in the expenditure of public money, until you are driven away from your farms and homes. Do you want tax-eaters and bond-eaters to rule?

wid de job, see? Me 'n' Thompson was plikin' down de street when dis bloke (Muggleston) comes along. We seen him all and t'ought he was aslee. We goes t'rough him and glams a dime 'n' a watch. After dat we beats it up de street an' runs across his ribs (Moore) in a box car. He didn't have no't in 't' do wid de job."

It is the firm belief of the police authorities that young Moore was the leader of an organized band of young crooks and that Gardner and Thompson deliberately tried to save him. But their statements did not make the desired impression upon the court and young Moore will share the fate of his companions and go before the district court on the charge of robbery. He was remanded to the county jail in default of \$500. The three were taken into Chief Pitt's office, "mugged" by Carl Peterson, the chief photographer, and then taken to the county jail.

### HONOR UTAH COMPOSER.

Prof. John J. McClellan, of this city, same in for high commendation at the recent irrigation congress, held at Albuquerque, for having written the music of the "Irrigation Ode." Again that great piece of music delighted the congress delegates, being sung this time by a select chorus of over 100 voices from Colorado, and it was one of the features of the great gathering. The report of the resolution committee contained a reference to the ode, and the congress extended a vote of thanks to the composer of the music, as well as to Mrs. McClurg, the latter having written the words.

### Beneficial Life Will Establish Information Bureau

An innovation which will doubtless attract a great deal of attention from visitors to conference and the state fair is the "Life Insurance Information Bureau," established by the Beneficial Life Insurance Co. at the home offices. The offices are located at 14 East South Temple street, within easy reach of visitors.

The purpose of establishing the Bureau is to furnish reliable information on Life Insurance matters, and the company's agents, who are well informed upon these matters, will be in the office to explain the different features of insurance to those inquiring. The increase in business has made it necessary for the "Beneficial" to enlarge its quarters and the offices at 14 East South Temple, adjoining the present offices, have been secured and are now being handsomely furnished for use as agents' headquarters. In the new offices chairs and desk space will be provided for visitors and a general invitation has been extended to the public to call while in the city. It is not the intention to operate this bureau to the disadvantage of any other company, but on the contrary, reliable information will be furnished concerning the policies written by any company doing business in Utah or the surrounding states.

When the Beneficial Life Insurance Co. was organized in 1905 it was with the idea of diverting at least a part of the enormous sums paid for insurance into local channels and use the money to develop the resources and build up the industries of the West. There was some doubt on the part of a few persons as to the outcome of such a venture, but now that more than three years have passed, during which time the Beneficial has forced to the front ranks of companies doing business in the West, even the most doubtful ones see only success ahead.

The business affairs of the Beneficial have been conducted in such a manner that today the company is conceded to be one of the safest and strongest doing business in the western states. The officers of the Beneficial are as follows: Joseph F. Smith, president; John C. Cutler, first vice president; Lorenzo N. Stohl, second vice president; John Stringham, secretary and manager; N. G. Stringham, assistant secretary; Joseph Nielsen, treasurer; and Richard W. Young, counsel. The directors are all well known business men of standing in the community.
