SPECIAL ORGAN RECITAL.

Many More Trainloads of Elks Pass-
ing Through City Today—Salt Lake-
ers Off for Convention City.

The Montana Elks, in charge of James D. Hyman, delegate to the grand lodge, Charles Swartz and Thomas Kilgallon, and headed by the famous Boston-Montana band of 12 pieces, and led by Conductor S. H. Treloar, and a Texas delegation of 125 strong, with a scattering of about 100 eastern Elks, swarmed down upon Salt Lake City this morning and all day were royally entertained by the hard working bunch from 85 who did not go to Los Angeles.

The Montana delegation consists of 100 Elks and 60 women. They were whisked from the depot to the club house in automobiles and a light lunch was served. The famous band with a hundred or so following marched to the club house, rendering sweet music on the way. At the club house, the band rendered the new "Colonial" march, and after refreshments the visitors were escorted to the tabernacle, where a special organ recital was given. Prof. McLellan rendered four numbers on the great organ and the music was a source of wonder and pleasure to the visitors. Following the organ, a medley was rendered. Another organ recital was given at noon.

The master plumbers are still holding out, and the city is in a state of emergency. The men for \$6 per day instead of \$5.20 as given heretofore. They have been out for two weeks, and the masters claim to have received a number of additional men from the east during the past week, which has helped to relieve the situation slightly. They are still short-handed, and with the view of getting more non-union men, one of the master plumbers will leave for the east today. He will be absent about two weeks, and while he is away it is expected that he will be successful in inducing sufficient men to come west to fill the places of those who have struck. The journeyman plumbers are holding meetings but they do not care to talk about their strike. It is known that they have made no proposition for a settlement, and it is said to be doubtful if any proposition is to be made. They are working at the old wage would be entertained by the masters, who are at present confident of winning out in the dispute.

Governor Spry Asks Support For the Irrigation Congress

Governor William Spry issued a proclamation today in regard to the Seventeenth National Irrigation congress which will be held a month from today in Spokane, Washington. The document urges the support of the people to make it a success and asks everybody to attend who can. The proclamation follows:

Impressed by the wonderful influence wielded by the National Irrigation congresses in the development and upbuilding of the west, and realizing the great importance of the question which will be discussed at the coming congress, I, William Spry, governor of the State of Utah, do hereby direct the attention of the citizens of this state to the Seventeenth National Irrigation congress, to be held at Spokane, Washington, August 1-14, 1909, and urge your thoughtful consideration of its purposes: "To save the forests, to store the floods, to reclaim the deserts and to make homes on the land."

"The wanton waste of nature's most generous gifts is being noted by the country over with regret and condemnation. An effort toward the checking of this waste is being put forth in the national 'conservation of resources' movement—a remedial campaign along scientific lines for the preservation of our forests and the reclamation of our lands."

"The National Irrigation congress is a potent factor in this national movement, and in addition is one of western origin."

"Utah has always taken an active and prominent part in the deliberations of these congresses and I earnestly recommend the hearty support and co-operation of the people of this state in making the Seventeenth Irrigation congress a pronounced success. This support and co-operation can be best given in a strong Utah delegation at the congress."

Of Poor Work in South-
eastern Section.

NAMESAKE IN COMPETITION.

Pat Moran Has to Run Against William J. But Then Pat Bears Official Stamp.

The James Kennedy Construction company, which has had so much trouble and dissatisfaction with its work on sidewalk extension 108 in the southeastern part of the city, received two contracts yesterday afternoon for two more sidewalk extensions, comprising 40 miles of walks in the Second and Third wards. The bids amounted to \$177,917.40, which was considerably below the other bidders and lower than the city engineer's estimate by \$33,000. The board agreed that the taxpayers who were benefited by these improvements were obtaining cheap work. For sidewalk extension 126, Kennedy's bid was \$103,219.92, and on sidewalk extension 128 the concern's bid was \$74,660.48.

The bidders and their respective tenders were as follows: Sidewalk extension 128, Third ward—James Kennedy Construction company, \$74,660.48; William J. Moran of Ogden, \$93,200.63; S. Birch & Sons Construction company, \$94,750.92; J. W. Mellen, \$92,941.38; Z. Miracle Concrete corporation, \$85,917.57; Frank Doran, \$94,854.70; Whittier & McBride, \$84,002.25. The engineer's estimate for this work was \$95,232.81.

Sidewalk extension 126, Second ward—James Kennedy Construction company, \$103,219.92; S. Birch & Sons Construction company, \$180,775.90; William J. Moran of Ogden, \$127,147.86. The city engineer's estimate for this extension was \$115,402.

The contract for paving Edison avenue, formerly known as Franklin avenue, with concrete was awarded to J. D. Hanley. His bid was \$5,073.11. The other bidders were Whittier & McBride, \$5,992.71 and H. J. Gikerson, \$5,731.19. The city engineer's estimate for this piece of concrete paving, which appears as paving extension 58, was \$5,960.

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies but without avail, and I find that Cascarets relieve more in a day than all the others I have taken would in a year."

JENNIE PARSONS MUST BE CONTENT

Discontented Wife With "Desires Alimonic" Must Worry Along.

JUDGE SAYS SHE HAS ENOUGH

She, However, Thinks \$200 a Month About Right for Her Needs—The Friday Divorce Mill.

Mrs. Jennie B. Parsons, wife of C. C. Parsons, an attorney for Samuel Newhouse, failed yesterday in an effort to secure an increase of \$75 a month in her allowance, making \$200 a month. Judge Morse, who heard the application, stated that Mrs. Parsons had sufficient means to live on and her testimony that her health was failing and she needed a change of climate, had no bearing with the court. In answer to this application, Parsons declared that his wife was of a roving disposition, ill-tempered and not satisfied to live in one place for any length of time.

Parsons was called to the stand by Atty. Willard Hanson, counsel for Mrs. Parsons, and questioned him on his salary. He said that his income amounted to \$500 a month. Of this amount he showed that \$200 was consumed in expenses. More than \$50 a month was spent for club dues which he said that his position demanded. Some light was also thrown on social entertainments indulged in by professional men.

Parsons said that he had \$20,000 worth of stock which Mott Newhouse was buying for him. On this stock he was getting \$6,000. He also said that he had an overdraft at the bank of about \$500 now. He also owed about \$600 for law books.

When Mrs. Parsons took the stand she referred to her failing health and said that she wanted a change. Her daughter, a young and beautiful 22-year-old, sat behind Mr. Hanson and prompted him in asking her questions. Mrs. Parsons also said that the \$25 a month which had been allowed her had included nothing for her daughter.

In passing upon the application Judge Morse held that he thought that Mrs. Parsons had been allowed a sufficient sum. As to the daughter, Judge Morse said that the question of her allowance was without the jurisdiction of the court. He referred to Parsons' testimony in which he stated that his

daughter had sent all the checks back to him that she had received because her mother had requested it.

STILL IN DOUBT.

After making an adjustment of property rights with the view of getting a divorce, Mrs. Eliza Pinchin and Job Pinchin have been unable to decide which shall secure the divorce. Pinchin had the papers prepared about a year ago to file, but the charges were not sufficient, so he gave that up. Then he left home for a year and now Mrs. Pinchin has brought the suit for divorce, having filed it three days ago. They were in court yesterday afternoon on an order secured by Mrs. Pinchin to prevent Pinchin from disposing of any of his property. Pinchin declared that she owned no interest in any of his property that the adjustment had already been made. Pinchin says that his wife is now trying to get some of his property after an adjustment was made. After the plaintiff and defendant had both testified there seemed to be no disposition of part of either to sell the property. The order was dismissed. Pinchin, with driver and Mrs. Pinchin and daughter conduct the Pinchin Floral company. Mr. and Mrs. Pinchin have been married 29 years and are both old and gray.

HIT WITH A CREAM PUFF.

Sarah May Cowan, whose husband, Don M. Cowan, a switchman, snatched a cream puff in her face, hit her over the back with a chair and slapped her in the face, knocking her down, was granted an interlocutory decree by Judge Morse. On another occasion when she wanted to go out to Saltair, he choked her and tore off her waist. They were married in Salt Lake on April 8, 1903, and have three children. Mrs. Cowan was given the custody of the children and \$20 a month alimony. The entire Cowan family have been before the juvenile court, and on one occasion the children were taken away from them and placed in the orphanage until the father and mother agreed to do better by their children.

MADE HIM NERVOUS.

W. C. Morris, a clerk, declared that his wife had nagged at him until she gave him nervous prostration. He then deserted him when he was less in love. Despite all this Judge Morse decided that the evidence was not sufficient and the attorney was given leave to amend his complaint. The couple were married in Salt Lake on Jan. 1, 1891, and have a son, Rex, 13 years old, who is with his father. Morris said that the wear and tear of married life has been too much for him. His brother, A. C. Morris, said that his wife, Mrs. Lavina Morris, was always complaining about her husband, or quarreling about something.
