

MINING, BUSINESS AND STOCKS

NO PAY ORE YET SAYS MR. KNIGHT

Right Kind of Rock Not in Evidence In Mountain Lake Tunnel.

OUTLOOK IS GOOD, HOWEVER.

Two Furnaces Ready So New Tintic Smelter Will Soon Be In Operation.

The report which gained considerable circulation about the streets several days ago to the effect that a large body of shipping ore had been encountered in the main tunnel of the Mountain Lake, was denied by "Uncle" Jess Knight, who was in the city today.

"Work is progressing steadily in the Mountain Lake mine," said Mr. Knight, "and we have been encountering well mineralized ground right along, but there is no pay ore in the main tunnel and I am satisfied that it will be some time yet before it is encountered. I rather expect that the tunnel, which is now in over a mile, will have to be pushed ahead for possible drifts before much of a claim takes place."

Mr. Knight gives the situation at the Mountain Lake with complacency, however, and is just as confident as ever that the mine will ultimately develop into one of more than ordinary importance. He has never lost faith and there is nothing about present conditions that should discourage anyone.

Mr. Knight says that while no definite time has been set for the placing in of the new Tintic smelter, two furnaces are practically ready for service, so it will not be many days more until the actual treatment of ore will begin. Construction work is being pushed ahead very rapidly.

DULL MARKET DAY.

Interest In Stocks Experiencing a Lull—Forenoon Sales.

Brokers complained again today about a dragging market, and this is fully verified by a glance at the quotations and sales. There was no heavy trading participated in by any one particular stock and the volume of sales was not large. Crown Point sold as low as 19 cents; Mountain Lake sank to 66; Uncle Sam Consolidated remained steady; but Iron Blossom was inclined to stiffen.

There was light with the unlisted stocks. Ohio Copper sold at \$3.10; East Tintic Consolidated at 45¢, and Eureka Swans Extension at 15 cents. The closing quotations and sales were:

THE RECENT PANIC

Compelled some people to sell good stocks. Prices have been steadily rising ever since and good stocks are a little scarcer all the time. For this reason, if you have the money NOW IS A GOOD TIME TO BUY. Send us an order for any good commercial stock you wish to buy. We specially commend the preferred stock Utah-Idaho Sugar Company. It pays a DIVIDEND OF 17½ CENTS ON A \$10 share EVERY QUARTER; and market price is certain to advance and future dividends SURE.

GOLDFIELD IS TO HAVE SMELTER

Advises from East Indicate That Plans to Reopen Deep Creek Property Are Working Out.

MINE CONTAINS MUCH ORE

Fifty Thousand Dollars Needed—Net Profit of \$7.40 Per Ton on 15-Cent Copper.

According to information coming from an authoritative eastern source, the plan outlined in the "News" some months ago to revive the Western Utah Copper enterprise out in the Deep Creek country is likely to materialize at no distant day.

The manager of the property, commonly known as the Gold Hill mine, is H. H. Green, formerly assistant general manager of the Bingham Consolidated. Last year a very vigorous development campaign was carried on for several months resulting in the development of some excellent bodies of ore; but when the "panics" came on, the producers of the metal July was a good month from the producers' point of view. There was little need to make heavy shipments to Europe, with the result that the market stiffened considerably. American consumers for the improvement in the quality of the produced material, and were buyers to the extent of their requirements over the summer months. The curtailment of production at producing points had had a sentimental effect on the market, but this will not be felt for three months yet. If at that time there is a heavy call from consumers, there will be little squeeze in the metal in the market.

The situation on the other side is very promising. There is no pressure to sell, and the withdrawals from the warehouses of American metal has strengthened the market considerably. The Rio Tinto interests have a good supply of the metal on hand, and are not pressing it for sale. There is a general feeling of confidence in the future of the market, despite the fact that the market prices are now more than double their stocks and are bidding for more before there is any further advance in price. On the other hand, the outsiders who took long lines of future copper some months ago, are unwilling to part with their holdings at the present time, believing that in the fall they will be able to secure much higher prices.

PARK CITY SHIPMENTS.
(Special to the "News")

Park City, Aug. 14.—During July ore shipments were made from producers in this camp to the amount of 13,596,673 pounds, or 6,798 tons, as follows:

—
Daly West, 8,000; American Flag, 4,933,154
Charles Moore, 349,120
Grassall Chemical, 205,359
Daly Judge, 2,355,633
Silver King Coalition, 5,745,762
Clegg & Herman, 52,670

The new equipment ordered recently for the Uintah Treasure Hill is being hauled up to the mine and will be installed without delay.
