The prince, like other well informed persons, attributes the revolution to dissatisfac-tion at the late King Alexander's marriage to the attendant, and to the king's

hostility to the Radicals. The new Servian premier, M. Avakumovies is quoted in a dispatch from Eel. grade today as saying: "I returned home" yesterday from Alkniable, where I was on professional

I accepted the premiership. The cabinet meets today and will consider what steps shall next be taken. At present we are not in communication with Karageorgevitch, even if the army has proclaimed him king. His election has proclaimed him king. His election as king is probable, however, as there is no other course open. It will remain for the skupshtina to remove him or

There appears to be an epidemic of uicide in Salt Lake, During the last five days, three cases of self-destruction have been reported. The latest victim of uespondency is Anna Downey, alias Ruby Wilson, 24 years of age, and an inmate of Ada Wilson's house on Commercial street. It was four hours later before medical attention was called for, and then Dr. J. U. Giesy was called in and worked with her for some time but without results. According to the story related to the physician by the inmates of the house, the lover in question is a your surveyor employed at the city and county building, and is the son of a proniment Salt Lake man. The woman came to Sait Lake from La Crosse, Wis., where her father is still living, Her mother is dead. She had been an inmate of the Wilson resort for about a year

The police were noti-fied and Sergeant Roberts and an offi-cer made an investigation. Dr. Glesy was instructed to remain in the house until the coroner was notified, which he did. It is hardly probable that an inquest will be held because it is a clear case of suicide. The woman was unconscious when the doctor reached the place and she never regained consciousness.
