DURYSAN "Satin Gloss Starch" is the most popular Starch in the United States.

A SEVERE TEST.—The Commissioner General of the United States, after a trial of all the principal starches in the country, decided that Durysan "Satin Gloss Starch" was the best that could be procured, and the Government from that time to the present has bought this article. This is a fact worthy the attention of consumers.

BRIGHAM YOUNG, GEORGE A. SMITH, DANIEL H. WELLS. SALT LAKE CITY, Jan. 29.

Y. M. L.—We are requested to announce that the members of the 19th Ward Young Men's Institute will meet to-morrow night at the Literary Institute of that Ward, at 7 past 7 o'clock.

Utah County Sdk.—Reports from Utah County concerning the silk industry there are very promising. Those who are engaged in it feel greatly encouraged at the success of their efforts.

Number Thirteen.—No. 13, vol. 9, of the *Juvenile Instructor* is before us. Like its predecessors it is filled with instructive and entertaining reading matter, suited to all classes, but especially the young.

For Lake Side.—We understand that a number of the employees of Z. C. M. I. and their friends propose having a gala day at Lake Side on the Fourth. It is a charming place for picnicking.

See Stealing.—Some miserable sneak or sneaks entered the lot of Sister Rich, 17th Ward, last night, and stole therefrom a hive containing a fine, full swarm of bees. It is to be hoped the thief or thieves will be discovered and taught to let other people's bees be. Some people never seem to be happy except when they are stealing.

Criminal Statistics.—During the present month of June the police of this City have made 101 arrests of persons for various crimes. Seventeen of these parties were discharged and the remainder, 84, were either punished according to the municipal laws, or were committed to jail in higher courts. This is rather a bad showing, indicating an increase of criminality on previous months.

Sharp Practice.—Yesterday a party, who used to be employed in one of the hotels of the City, called at one of the stores and ordered a quantity of goods in the name of the proprietors of the hotel establishment. He said he would carry the major portion of the articles away himself, and the others could be sent along with the bill. When the remainder of the goods were presented at the hotel, the storekeeper learned that the fellow had not been employed there for four months, and that when he left he collected a bill for the proprietors, pocketed the money and disappeared. The storekeeper mourned the loss of his goods, as the fellow cannot be found.

Piscatorial.—Now that summer has fairly set in and the thermometer begins to get its back up, the gay and festive portion of the community are uneasily casting about for a lodge in some vast wilderness, with an endless contiguity of shade. "Excursioning" seems to be the order of the day, and old and young, doffing their store clothes, may be seen almost daily taking their places behind the iron horse, tail to be hauled.

Anywhere, anywhere, out of the world.

Logan Canyon is a favorite resort with many, and most of the voyagers carry with them fishing rods and grubs of various shapes and colors wherewith to entice the finny inhabitants of our mountain streams. Trout is what most anglers are in pursuit of, and these can be found in rich abundance in the waters of Logan Canyon, but those who are not so ambitious and fastidious, parties who are content with chub, sucker and mullet—may be advised to take a run down to Provo. There the streams are filled with fish and they are growing in the water scale. No bait is required. You can capture a wagon load in a few hours, with the baked hooks. Everything around Provo tastes and smells of chub, mullet, and sucker. If you have any relations who are troubled with indigestion, send them to Provo.

The Fourth.—Next Saturday is "Independence Day," and it may be inferred from present prospects that there will be no public parades and show in celebrating it. Excursions and picnics seem to be in order, a number of which have already been arranged for, to come off then. Whether there be "speechifying" and processions or not, as a matter of course the Fourth will be observed by the citizens as a general holiday.

We are somewhat in favor of occasional holidays. Suitable times of cessation from the toils and perplexities of business, times of relaxation, recreation and general enjoyment are good for both mind and body, which are too apt to become cramped under unrelenting labor and the harassing cares of the world. Certainly we must have a holiday sometimes.

Wanted a Boy.—A big, curly-headed, named Washington, from Camp Douglas, seemed anxious to get up a row last night. He went into a house in Commercial street and turned the inmates out of doors, threatened to kill them and kicked up a row on general principles. The aggrieved parties complained to the police, who when they found Washington, and the latter appearing subdued and promising to return at once to Camp, he was released. It turned out afterwards, however, that he had, during the evening, threatened to shoot into the face of William Bowman, of the 11th Ward, and threatened to shoot him.

Washington belongs to Major Gordon's company, which left for St. Louis this morning.

The Madman Case.—The argument in the case of C. C. Clements, ex Robert Campbell, City Recorder, for the issuance of a writ of mandamus, to compel the latter to allow the former to inspect and take copies of the city records in his possession, commenced in the Third District Court this morning.

His honor Chief Justice McKean presiding. Mr. Baikin, opened the case for the plaintiff, and was followed by Mr. Sutherland for the defendant, who cited authorities showing that precedents, almost without number, had been established denying the right demanded by the plaintiff, so far as taking copies of the record is concerned.

Many of the authorities cited were English, but the counsel for the defense stated that his research had been very extensive, and he was prepared to say that in all the books of law reports, whether American or English, there was only one instance on record occurring in New York—which favored the demand of the plaintiff in this case.

At one o'clock the Court took recess for one hour.

The Court resumed its session at a few minutes past 2, when Mr. Sutherland resumed his argument against the granting of the mandamus.

Theatre.—There was an excellent performance at the Theatre last night.

This evening, for the benefit of that able, painstaking, and effective actor, Mr. J. B. Lindsay, he will appear as "Rolla" in the grand drama of "Pizarro," Mr. Sawtelle as "Pizarro," Mr. Thorne as "Alonso," Miss Cogwell as "Elvira," Miss Adams as "Cora."

The performance concludes with the favorite farce, never before played here, of the "Lottery Ticket," Mr. Crobie as "Wormwood."

The Goal Question.—There was great excitement among coal dealers in this city this morning, the cause of which being that the U. P. R. Company had suddenly raised the freight on the article between Echo and Ogden from \$1.50 to \$3.80, being a jump of \$2.30, amounting in reality to a positive prohibition.

The dealers received no notification of the change, until the coal arrived at the depot, and they refused to receive it. Weber coal, heretofore sold at \$3 at the car, retail, cannot, under this imposition, be sold at less than \$10.50, and can be positively freighted from Weber to this city by wagons cheaper than it can be brought by railroad at those rates, and if a reduction be not made, it is the intention of the dealers to have it brought in that way.

THE POLAND BILL.

Article IV, Sec. 2, of the United States Constitution says: "The citizens of each State shall be entitled to all the privileges and immunities of citizens in the several States."

AMENDMENTS.

Article V.—"No person shall be compelled, in any criminal case, to be a witness against himself; nor shall private property be taken for public use without just compensation."

Article XIV, Sec. 1.—"No State shall make or confer any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

Can the power of the United States government, under the Constitution, and its form of government, ever be discretionary in a Territory?

We get the powers of the government and the rights and privileges and immunities of the citizens of the States and of the United States as plainly defined in the Territories as in the States?
