

A Token of Esteem.—A pleasant affair transpired at the establishment of Mr. H. Dinwoodey, on Saturday evening. The employees assembled in the new workshop, where tables were loaded with good things. Mr. Dinwoodey appeared upon the scene conducting Mr. H. P. Folsom. Mr. E. Hanham, in behalf of the entire staff of employees presented Mr. Folsom with a handsome and massive gold watch, purchased for the purpose, from Mr. Eliason. The presentation was occasioned by the fact of Mr. Folsom severing his connection with the establishment to engage in other pursuits, after having been Mr. Dinwoodey's bookkeeper and "right hand man," for a period of twelve years. The workmen took this method of evincing their esteem for and confidence in him. He briefly expressed his appreciation of the good feeling thus manifested to him, and a few appropriate remarks were made by Mr. Dinwoodey. A couple of hours were pleasantly spent in discussing the good things on the tables and in genuine sociability.

The affair was conducted by Messrs. A. Isom, Child, Triplett and others.

Rumors About the Late Murders.—The theory that Joseph Samuels, the colored man who murdered Marshal Burt, was the person who murdered Mat. Brennan at Park City, has a reasonable appearance on its face. Report has it that Murphy, who was lynched a week ago last Saturday, stated to the vigilantes that he did not kill Brennan, but gave a "nigger" two hundred dollars to do it. This agrees with the fact of Samuels going north from this city a few days before the murder of Brennan, and of his returning to this city on the morning of the day he murdered Marshal Burt. It also corresponds with the fact of his pretending to have no money on the day he arrived in town from the north, notwithstanding that \$185.80 was on his person at the time of his arrest. The amount he paid for the rifle and cartridges, his fare from the Park and a few incidental expenses would just about reach the sum said to have been paid him for killing Brennan. Mr. Carter, from whom Samuels bought the gun with which he killed Marshal Burt, intimated in his evidence before the coroner's jury that he believed the negro had committed a robbery and thus obtained the money he had, and thought he was being arrested for that crime when he shot the Marshal. If there is any truth in his connection with the Park City murder then he doubtless believed the officers were after him for that deed. It would be interesting to trace this matter and ascertain its truth or falsity. If correct it was the accessory before the fact or instigator who was lynched at the Park, and the double murderer who met a similar fate here. If Samuels did both deeds it may constitute a new impetus to his champions in this city.

CIVILIZATION IN LOGAN.

BURGLARY ON THURSDAY AND DESPERATE ATTEMPT AT ROBBERY ON FRIDAY.

Logan is already beginning to feel the "civilizing" influence of its licensed liquor saloons, four of which, thanks to the United States Courts, now flourish in that hitherto temperate burg, while others are hourly expected. Apropos of said influence, on Friday night, about 8 o'clock, a man who was a stranger in town entered the store of Goodwin Bros., and commenced negotiating for a suit of underclothes. Having selected what he pretended to desire, he asked and received permission to step into the back office, where the safe was kept, to try on the clothes. There were in the store at the time three men, Mr. Wm. Goodwin, his son Charles, and a Mr. Paine, of the firm of Paine & Mattison. The stranger had no more than disappeared into the back room, than he returned with a pistol in each hand, with which he covered Mr. Paine and the Junior Goodwin, at the same time commanding them to go into the back room. Mr. Wm. Goodwin having no weapon leveled at him, sprang to the back door, ran out, notwithstanding the threat of the would-be robber to shoot if he did so, and shouted for the police. The stranger, whose evident intention was to rob the safe, thereupon became frightened and hastily decamped by way of the front door, and though hotly

pursued a few moments later succeeded in making good his escape. On Thursday night the green-grocer shop of Balluff & Co. was burglarized, but the thieves only found two or three dollars in the till, and so solaced themselves by partaking generously of canned fruit and other articles on the shelves. The pride and gratitude which swell the bosoms of the law-abiding Loganites at these commendable achievements in the direction of civilization and progress, is such as to render words totally inadequate to their expression.

NEW YORK, 2.—Detective Sergeant William F. Hinde killed himself to-night in the bath room of the house in which he boarded with his wife and two children. He had lately been drinking heavily and was financially embarrassed. He was a nephew of Stephen B. French, president of the board of police commissioners.

PROVINCETOWN, Mass., 2.—The recent heavy gale continues a subject of comment. The schooner *J. W. Russell*, of Mahone City, was hove on her beam ends in the gale of Wednesday and the steward and one boy drowned. The crew on deck clung to the rigging until seven of them were washed off and drowned. The remaining four were taken off by the schooner *Flora Delmer*. The schooner *Welcome* of Luenburg, while at anchor off the East Point, Wednesday night, was swamped by the waves, ten men drowned and only one saved. There are thirteen vessels in the Gulf of St. Lawrence from which nothing has been heard for 60 days, but no anxiety is felt concerning them, as it is thought the gale was not severe in that direction. Anxiety is felt concerning the schooners *Lottie Bell* and *Ida K. Damon*. Reports of large loss of life are generally discredited by sea captains. They say the vessels were all loaded deeply and that a heavy sea washed over their decks where the dories were stowed in nests, as they are called. The dories being inside each other, where 10 of them were lashed together, the waves would wash them overboard. As it was Sunday, none of the Provincetown dories would be out fishing, and if there was any loss it would be in case of those tending the trawls.

NEW YORK, 2.—It is reported to-night that the Long Beach train ran into the Rockaway train, both returning to New York. It is said the engines and a couple of cars were wrecked, but no mention is made of the lives lost.

CHICAGO, 3.—Specials report that Lord Hoadley, who accompanied the Hatch excursion to the Yellowstone, went into the wilderness in search of game, accompanied by two experienced hunters. Report reached the hotel at Mammoth Hot Springs yesterday that Hoadley had sustained injuries by slipping down a precipice while pursuing game. A party was sent out and brought his lordship to the hotel last night. The injuries sustained, though painful, are not serious.

WASHINGTON, D. C., 3.—Advices from Pensacola state that two new cases have appeared since the last reports, but no deaths.

ST. PAUL, 3.—The Villard party arose early this morning and repaired to Lake Minnetonka depot, where a train of eight cars was in readiness to take all to St. Paul. Upon their arrival at St. Paul a grand reception was given the party. The mayor and members of the city council and many distinguished citizens were on hand with abundance of carriages, in which the party proceeded to their destination. Soldiers were drawn up in front of the depot, presenting an imposing appearance, and military bands filled the air with music. As the procession moved up Third St., from the depot, an ovation of the most eloquent character greeted them on every side. Buildings were profusely decorated with flags and streaming banners. Beautiful archways were visible from every corner. The military, and fire department were out and leading citizens and wagons representing every industry of the Northwest. It was received by President Villard and party at Rice's Park. After reviewing the procession the guests were drawn all over the city. President Villard, with General Grant, occupied the foremost carriage. From St. Paul

the party left for Minneapolis at 12.30, there to receive a second reception.

ST. JOHNS, N. F., 3.—Captain Nickerson, of the schooner *Becky*, has just arrived from the Grand Banks. He left the fishing lodge, 20 miles north of Rogers shoals and one hundred and twenty miles off Cape Spear. Nickerson describes his vessel as passing through a perfect sea of shattered dories and broken booms, spars, gaffs and other gear of fishing vessels. No further reliable particulars yet to hand. The *Becky* narrowly escaped going down with all hands. She was badly strained and leaking.

NEW BRITAIN, Conn., 3.—The east bound passenger train on the New York and New England R. R. consisting of seven passenger cars and one baggage car, jumped the track near here this morning, owing to spreading rails. It collided with two freight cars standing on the siding. They were smashed to pieces and the engineer Allen Balch was cut about the head and arms, but not fatally. None of the passengers were injured, although the train was running 35 miles an hour.

PORTLAND, Me., 3.—Judge Webb, of the U. S. District Court, this morning, invited Lord Coleridge and party to sit in court. The invitation was accepted and upon recess of the court, Lord Coleridge was presented to about 25 members of the bar. This afternoon members of the Cumberland Bar take the party to drive about the city and environs, returning this evening, when a dinner will be given by the Cumberland Bar.

FOREIGN.

LONDON, 2.—It is rumored at Plymouth, that the General Transatlantic Company's steamer *Amerique*, Captain Santelli, which sailed from Havre yesterday for New York has foundered. The *Amerique* passed Lizard Point all right last night. But a heavy gale prevailed throughout England on Saturday night and Sunday, doing much damage to property. Many wrecks and some loss of life are reported.

Later inquiry fails to confirm the report of the foundering of the *Amerique*.

The *Times* says: The fact that the *Amerique* sailed in the teeth of the gale, probably gave currency to the rumor of her loss.

Madrid, 2.—A royal order, preceded by a circular from General Martinez Campos, Minister of War, in relation to the recent insurrectionary outbreak in Spain, was gazetted to-day. It provides that any officer, or sergeant, proved to be a member of the republican military, or any other secret society, shall be dismissed from service and criminally prosecuted.

Glasgow, 2.—Two men were arrested to-day, charged with being connected with attempts to destroy property with dynamite in this city last January. Their names are Casey and Kelley.

London, 2.—The deaths from cholera on Saturday were 50 in Upper Egypt and 9 in Lower Egypt.

Vienna, 2.—A fire broke out in a timber yard near this city to-day. A gale of wind spread the flames to a number of adjacent houses. Damage several million florins.

Halifax, 2.—Telegrams report several vessels wrecked and damaged during the recent heavy gale.

Paris, 2.—A correspondent at Amsterdam says: It is now believed that 100,000 persons perished in North Bantam, in the recent calamity. It is also believed that the garison and fort at Angler were swept away. An extensive plain of volcanic stone was formed in the sea near Lampong, Sumatra, preventing communication with Telokbelong and Southwest Java.

LONDON, 3.—Intelligence is received that a fight occurred on the 3rd and 5th of August, at Comasie, between King Kaffie and Misah. Sixty of the latter's men were killed.

The rumor that the steamer *Amerique*, which has on board a cargo and passengers, was disabled and that the steamer *St. Germaine* had foundered proves untrue.

LONDON, 3.—A dispatch from Hong Kong notes that the French General Bouet demanded of the war department a national reinforcement

ment of 5,000 men. The country is still suffering from floods.

The French admiral has issued a notice declaring all the ports of Anam, including Saigon, in a state of blockade.

Glasgow, 3.—The nine Irishmen arrested here, charged with being connected with attempts to destroy property by dynamite, are known to the police as Fenians and have been under surveillance for several months.

Dublin, 3.—At a mass meeting held on Sunday at Cappalors, Michael Davitt, delivered an address stating that by the tyrannical operations of landlordism in Ireland, 8,000 householders have been deprived of their homes within the three months ending July the 1st. Davitt contended that the question of complete abolition of landlordism must be kept before the people. The land act he stated, if not a failure at the present time is rapidly becoming so, and not one-sixth of the tenant farmers of the country have yet succeeded in having their rents raised. He urged the people to be re-olute, calm, and not to lose self control.

Vienna, 3.—The Chinese government intend to issue a formal protest to the Great Powers, declaring the treaty of peace between France and Anam, signed at Hue is void, as the King of Anam was forced by the French to sign it.
