

STAKE CONFERENCE

Came to an End Last Night After a Two Days' Session.

MUCH PROFITABLE INSTRUCTION.

General Church and Stake Authorities Sustained—Reports and Statistical Information.

Monday Morning Session.

A meeting was opened by the choir and congregation singing the hymn commencing:

Prayer was offered by Elder John Nicholson.

Singing by the choir.

Prayer by the choir's senior choir.

Current announcements.

The statistical and financial reports of the Stake and General Conference were read and ordered filed.

Elder A. B. Cannon, of the council of the Apostles, was first speaker. He expressed regret at the fact that so many of the young men of the stake in the association for their special benefit. He thought that surely these young people, if they understood their coming duties and responsibilities, would make great efforts to prepare themselves. The events to occur when the responsibility of the work would pass to the young men of the stake as of great and unusual importance. He pointed to the experience and wisdom of the past would be the part of wisdom, as these events would meet every requirement of the stake. He thought the younger ones should associate with their elders, gaining the advantage of their experience and accumulated wisdom, and of greater assistance than more scholarly requirements.

Many of the educational ideas advanced today were anticipated years ago in the sayings of the Prophet. The speaker referred to the statement of Joseph Smith that the purpose of the universe was to educate, and that the purpose of the church was to educate. He pointed to the fact that the church was to be a school, and that the church was to be a place where the young men could learn the principles of the gospel. He pointed to the fact that the church was to be a place where the young men could learn the principles of the gospel. He pointed to the fact that the church was to be a place where the young men could learn the principles of the gospel.

The conference of the law of God had been given a saving principle. It was to be a principle that would lead to the salvation of the soul. It was to be a principle that would lead to the salvation of the soul. It was to be a principle that would lead to the salvation of the soul.

The speaker urged attention upon the work of the Mutual Improvement Association, which had been instituted for the advancement of the young people. Youth, strong of body and intellect, were needed for the advancement of the work; the young people were urged to fulfill this requirement.

Elder John A. Grant, of the council of Apostles, followed. He spoke of the necessity of pulling into active practice the instruction given in the various meetings. Work was exercised by all the general and local officers of the Church, to instruct the people and assist them in the performance of their duties. The work was to be a work of instruction, and the work was to be a work of instruction.
