### CITY COUNCIL SESSION.

At its meeting last night, the city souncil sustained the voto of the mayor materposed against the council remitting the fine of \$10 assessed against J. J. Brummitt in the municipal court. The action of the council was in acordance with the opinion of the city attorney, that the council had no right to remit the fine. The council also passed over the mayor's veto a resolu-tion remitting taxes for Mrs. Brown.

Payrells amounting to \$1,887 and aims of \$2,591 were allowed. The ornance permitting the establishment waste paper boxes passed its second ading, and \$12,116 was allowed to L. Relsey on sewer contract.

New York. N.Y.

A petition was presented by the Book lub, signed by Senator Reed Smoot club The voters of Ogden will have the op. and 425 other taxpayers, asking the TALK ON DAIRYING.

Prof. R. W. Clark, of the Agricultural ollege, stopped off in Provo yesterday college, stopped on in Frovo yesterday on his way home from attending farm-era' institutes in the south. Prof. Clark is in charge of the dairy de-partment, and his special mission here was to visit the creameries and to give some observation of those engaged some encouragement to those engaged in that industry, and to the farmers who supply the milk. He stated to the "News" representative that on ac-count of the low price of butter fat the past summer, many of the farmers had become discouraged in furnishing milk to the creameries, and the industry was therefore languishing. This is a mat-ter he desired to correct, as he says, Coughing Spell Caused Death. "Harry Duckwell, aged 23 years, chocked to death early yesterday morning at his home. In the presence of his wife and child. He contracted a slight cold a few days ago and paid but little at-tention to it. Pesterday morning he was slezed with a fit of coughing which con-tinued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St Louis Globe-Democrat, Dec. 1, 1991." Ballard's Horehound Syrup would have saved him. Ze ide and H.00. Sold by Z. C. M. I. Drug Dept. that if present conditions should con-tinue, it will not be long before butter would have to be imported into the state. At the price it is now bringing, 25 cents a pound, wholesale, it is a pound, wholesale, it is a profitable industry to those who sup-ply the milk, and even at lower prices it can be made to pay if the sugges-tions of Prof. Clark are followed out. They are for the farmers to keep good cows and breed to males of a better producing strain, not to a beef pro-

lucing breed, and to feed and care well for the stock. He maintains that to feed the products of the farm to milk cows and turning it into butter is the most profitable way to dispose of it. Prof. Clark promised to come down again and lay the matter before the farmers in a meeting called for that purpose.

The only condition Mr. Ec-cles asks is that the people of the several towns will contract to plant 1.500 acres of sugar beets each year for three years. A committee representing the towns of Hy-rum, Wellsville, Millville and Paradise met with Mr. Eccles and agreed to com-ply with the conditions asked provided the railway company would build its line through the towns named to accommo-date the needs of the people in passenger and freight transportation. Mr. Eccles could not state at the meeting just where the line would be built until the surveys were completed, but would do all that he could to comply with the wishes of the people.
