ARRIVED AT SANTIAGO.

Ironships Carrying the American Army Join Admiral Sampson's Fleet off the Southeastern Coast of Cuba.

Tremendous Enthusiasm Awakened Among the Men of the Fleet at the Appearance of the Transports, Which Were Received With Cheer After Cheer.—Army Was All Well.

No Landing Was Attempted on Monday Afternoon, but Gen. Shafter and Admiral Sampson Held a Conference as to the Best Place for the Work, Which Was to Be Made on Tuesday. Troops Were Eager to Get at Their Work, and Every Thing Was Expected to Go Smoothly and Making Every Effort to Concentrate Forces, and Not Fighting to Abroad. Prairie Landing Places Unknown, but Probability Will be at Agua- diente, Six Miles from Morro Castle, and at Guanabacoa Bay.

Washington, June 21.—The day was spent by most of the officers and men of the fleet, while we were engaged holding the two forces and their transports in position. The American admiral had a conference with the Cuban admiral, and the two forces were finally concentrated on the Cuban side. He is also engaged in the work of getting the transports to the best place for landing. It is expected that the transports will be ready to land on Tuesday morning, and the men of the fleet are making every effort to get the work done as quickly as possible.

It is to be noted that direct communication has been established to communicate via the French cables.

New York, June 21.—A dispatch to the *Herald* from Port Adams, 2 p.m., says:

"Admiral Sampson has now (Monday evening) completed the arrival of the first division of the American army of invasion under command of Major General Wm. R. Shafter."

No attempt was made during the day, according to the report, to land any troops.

Gen. Shafter, it will soon after be revealed, had a conference with Admiral Sampson. They discussed at length the operations planned by Admiral Sampson's forces on the most rapid and direct route to Santiago.

The points examined by Admiral Sampson for the most advantageous and the most rapid route to land the troops were examined by Gen. Shafter, and the final decision was reached.

There was enthusiasm over the news that the transports had arrived.

The most remarkable point of interest was the military arrangements for the landing of the American troops, which were to be made in the most rapid and direct manner.

Reported delay in the departure of the force from Tampa had made the men with the idea that they would be unable to land on time.

There, however, the fact was that they had been held up in Tampa by the arrival of Admiral Sampson's forces.

There was no lack of enthusiasm over the news that the transports had arrived.

There was a great deal of enthusiasm over the news that the transports had arrived.

TUESDAY, JUNE 21, 1898, SALT LAKE CITY, UTAH.

NEGOVATING FOR PEACE

Event of Importance With the United States Promised in a Few Days.

FRANCE AND RUSSIA ARE MOVING.

Assurance That the War is Backing Up. Hostilities in Working for Sedition. Rumors on the Alert.

London, June 21.—The correspondent of the *Evening Deseret* here reported this afternoon that he learns from an authoritative source in sight of details that the question of armistice peace between the United States and Spain has been for some days the subject of lively correspondence between the two governments.

He adds that none of the authorities here were particularly perturbed by the thought that the war might end in a few days. M. Martínez, the Spanish minister, is said to be in full agreement with the American admiral, and there is a strong probability that the two governments will be able to reach an armistice within a week or ten days.

More than a dozen American sailors have been sent to the Cuban coast to assist in the protection of American interests.

It is to be noted that direct communication has been established to communicate via the French cables.
