EVENING NEWS.

Saturday · August 1, 1885

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

AMERICAN.

Wired From Washington.

WASHINGTON, 31.—The President today appointed as Presidential postmaster Albert O. Bristol at Pasadena, California, vice Romayne Williams.

ACCEPTED.

The resignation of Edward P. Champlain, Receiver of Public Moneys at Deadwood, D. T., has been accepted.

CONSUL GENERAL.

The President has recognized David A. McKinney as Consul General of Hawaii for California, Nevada, Oregon and Washington Territory.

FORTIFICATIONS.

Officers of the corps of engineers in charge of the improvements upon the fortifications of the country have made their annual report to the Chief of Engineers. On account of the small appropriation made last year, but little work has been done during the past season. The funds available were used in putting in good order the platforms and parapets of the various forts.

THE PUBLIC DEBT.

It is estimated there has been a decrease of about $7,000,000 in the public debt during July.

VACANCIES.

It is understood that the President within a few days will fill the vacant second lieutenancies existing in the line of the army from civil life. There will be ten vacancies after the non-commissioned officers, who are now being examined, shall be assigned to regiments.

WALES.

The findings of the naval court-martion before which ex-Surgeon-General Wales was recently tried, were made public to-day. The court sentenced him to suspension from rank and duty for five years on furlough pay and to retain his present number in his grade during that period. Dr. Wales was tried for culpable inefficiency and neglect of duty.

In answer to the inquiry of the Commissioner of pensions as to his authority to reinstate a clerk who was discharged from the pension office in 1881, the Second Assistant Secretary of the Interior has decided that any person dismissed from the classified service cannot be reinstated after a lapse of one year, and cannot be again admitted into service without examination and classification under the civil-service rules.

U. S. Mails.

WASHINGTON, 31.—Five American steamship companies, the Pacific Mail, San Francisco to Australia; the Redaud, New York to Venezuela; the Clyde, New York to Turk's Island; the New York, Havana and Mexico, and the New York and Cuba lines, have declined the U. S. mails after to-day. Commenting upon this action, Postmaster General Vilas to-day said: "Certain American steamship lines, probably under the lead of the Pacific Mail Steamship Company, have entered into combination, apparently with the purpose of forcing a distribution among them of $400,000 appropriated by Congress for mileage compensation for carrying the mails. Some of them wrote to the Postoffice Department desiring to know what terms would be given. I proposed to each of the companies to go to the full limit of the law and award them both sea and inland postage. This is about three times what they had been receiving for the same service during the past 12 years. It is three times what is paid for carrying the mail across the Atlantic and probably in most cases, all that should be paid for carrying the mails. The companies were still acting in concert, and in consequence of their combination refused to accept these terms, which were so liberal compared with those they had received, that they felt, I suppose, they could drive the Government out of the position it had taken by refusing to carry for the compensation offered. The companies seemed to think that if they refused to carry the mails there would be no other course left to the Government but to make the contracts with them and distribute the $400,000 accordingly. A complete schedule for the transportation of mails will be arranged, and they will go with very little difference in point of time to their destination. The statement has been made in the newspapers to the effect that the United States Government is not so liberal as Great Britain in the compensation of steamship lines. The fact is the rate which has been offered our lines very much exceeds the rate paid by Great Britain. The rate we offer is about 63 per cent more than the British lines receive from their Government. It was a rate unjustifiably large, but the Government deemed it fair to go to the utmost length which the law and reason allowed, in order to avoid any difference with the American Steamship Companies, until Congress should meet. The department has made such arrangements that the public will suffer no inconvenience worthy of mention in respect to the carrying of mails and in some cases, notably in the Cuban service, the mails will be expedited.

The Superintendent of foreign mails said: "The American Companies had refused an offer of $1.60 per pound for carrying the mails. This is what is known as a combined sea and inland postage and is equivalent to $3,200 per ton. They receive at present the International rate or 44 cents per pound.

The Postmaster General has directed the following changes to be made in the dispatch of correspondence for foreign countries to take effect August 1st: Mails for Cuba heretofore dispatched by sea from New York will be forwarded to Key West via Tampa, Fla., for dispatch to Havana by the steamer which leaves Key West every Wednesday and Friday. Correspondence for New Zealand and the Australian colonies heretofore included in the mails made up at San Francisco for dispatch to those colonies direct, will be forwarded exclusively via Great Britain in mails made up at New York as well as San Francisco. There being only one dispatch during August (on the 1st) from San Francisco to China and Japan direct, correspondence for China, Japan and the East Indies will be also forwarded until August 20th via Great Britain in mails made up at New York to contain all the registered correspondence for the destinations above named.

Bluffed the Wrong Man.

SAN FRANCISCO, 31.—While the testimony was being taken to-day in the office of Master in Chancery Houghton, in the case of Sharon vs. Hill, Judge Davis S. Terry, counsel for the defense, attacked with his cane H. J. Kowalsky, an attorney engaged on Sharon's side. Kowalsky drew a revolver and Judge Terry immediately drew his, whereon Kowalsky fled into the hall. No shots were exchanged. Judge Terry is the same man who killed Senator Broderick in the early days of California.

The *Call* to-morrow will say: The Pacific Mail steamer *Colima*, which leaves August 1st, for Panama and the way ports, refused to carry the mails for the postoffice authorities, destined for any South or Central American port except Costa Rica. The company is subsidized by the Republics of Costa Rica and Mexico, and will take the mails from the postoffice for these two countries only. For other points on the steamer route the mail will be received at the steamship company's office and forwarded as usual.

Triple Hanging.

PLAQUE MINE, La., 31.—George Wilson, Charles Davis and Mathilda Jones, all colored, were executed here to-day for the murder and robbery of Mrs. Hariet Cole in this town on the night of January 27th last. Wilson was captured in Memphis a few weeks later and before the trial made a voluntary confession, giving the names of his accomplices. The principal witness against the prisoners was a little colored girl, the servant of Mrs. Cole at the time of the murder. She heard the murderers conspire to rob her mistress and give them the information about Mrs. Cole's money and jewelry and saw them with the jewelry in their possession after the murder. The conspirators entered Mrs. Cole's dwelling, strangled her to death, and robbed the house of the money, diamonds and other valuables. She was the widow of the late Judge Jas. L. Cole and was highly esteemed. Wilson was baptized yesterday. He seemed resigned to his fate and said he was ready to go. He acknowledged the justice of his sentence. Davis declared he was innocent, but ready to die. The prisoners did not sleep at all. Mathilda Jones said this morning she was ready to die and thought she would go to heaven. She appeared quite cheerful and did not allude to the crime. On the scaffold she was extremely nervous, and after saying "Good-bye to all," and while shouting and singing she gave way completely and fell from the scaffold just as the black cap was drawn over her face. This displaced the ropes somewhat, and it required two strokes by the executioner to cut them. The necks of Davis and Wilson were broken. The woman died from strangulation.

Fully 5,000 people gathered about the court house and grounds. Davis was a little nervous and Wilson seemed to take it coolly. When the woman fainted, she fell against Davis and then fell off the gallows. Davis lost his balance and caught hold of the ropes to the right, which held the trap and was in that position when the trap fell at 12:45, Wilson standing cooly all the time. After the trap fell the ropes of the woman and Davis were twisted together. The woman got her hands loose in her struggling and grasped at everything in reach. She was known as the wife of Davis. They both said they were innocent of the crime. Life was declared extinct 14 minutes after the trap fell.

Investigating Jones.

INDIANAPOLIS, 31.—The investigation of the acts of Postmaster Jones was continued by Civil Service Commissioner Thoman and Chief Examiner Lyman to-day. During the day statements were made by both the prosecution and the defense, but the examination is conducted privately. Several of the witnesses examined to-day were men who had either failed to pass their examination or who had been removed from their positions in office. The action of the local board of examiners is being investigated with great care, and Messrs. Thoman and Lyman have taken possession of all the examination papers and records. Particular attention is being paid to the cases of Woods and Wilmington, the discharged register clerks, whose places were filled by Byfield and Browning, who had satisfactorily passed their examination. It is understood that the independent committee will press the other charges of making unworthy appointments and the inefficiency of some of the new appointments, before the President, after the Commissioners have made their report; and a particular effort will be made to prove that Captain Dodd, the assistant Postmaster, is not the proper person to hold his present position and also that he and Mr. Ben Jones were paid large salaries at the expense of the subordinates who either had their wages reduced or were discharged. The investigation was practically completed to-day and Thoman left to-night for Washington. Lyman remains to give attention to some unimportant details.

$74,000 Abstracted.

BUFFALO, 31.—Many rumors have been circulated the past few days of a deficiency in the accounts of the late Henry Conover, Assistant Cashier of the Manufacturers and Traders Bank, of this city, who died suddenly on Friday last. The officers of the bank this afternoon furnished the following for publication: Mr. Conover had charge of a responsible department in the bank, in which department the errors appeared. His death deprived the bank of his assistance in examining the books or reconciling the errors. The officers of the bank have been obliged to make an examination of the books under very disadvantageous circumstances, but it develops the fact that the abstraction of the bank's property had been made from time to time, dating back several years and aggregating $74,000, which is probably lost. The examination justifies us in saying that the soundness of the bank is unaffected and its capital of $900,000 is unimpaired and that there is a considerable surplus in addition.

The War in Colombia.

NEW YORK, 31.—Senor Beccerra, Minister to this country from the United States of Columbia, has received the following telegram from Panama: "Baranquilla has been taken by the forces of the national government and that port is soon to be open to commerce. Preston, who, since his escape from Aspinwall after its surrender to the national troops, has been operating with the rebels at Baranquilla, was made a prisoner and will be tried for the part he has taken in the rebellion."

Senor Beccerra was seen to-night and added the following information: "General Santa Domingo, with the national troops, has at length succeeded in procuring a number of steamers with which to pursue the enemy up the rivers. General Camargo, who commanded the rebels, is already in custody and will be immediately tried and sentenced. There are no leaders left who are able to do anything with the remaining shattered forces of the rebels. The war, although a small one, comparatively speaking, has been a costly one. Since receiving the above dispatch I have had several confirmatory dispatches from Cartagena and Colon."

Death in a Mine.

NEW YORK, 31.—Nine men got into a bucket to-day to be hauled to the top of a shaft connecting with the new Croton acqueduct. When 60 feet up, the bucket caught on a projection and tipped. Four men were thrown out. Two clung to the bucket and the other two, Wm. Cunningham and Timothy Harrington, were dashed to death. Of the men who clasped the bucket, John Carr had his left thigh broken and his scalp injured in several places, and Wm. Ryan suffered injuries about the head, besides probable internal wounds.

Attempts to Wreck a Train.

DENVER, Col.,—The incoming Leadville passenger train, due here at 9:30 this evening, exploded a dynamite cartridge about two and a half miles south of this city. The engine and tender were badly wrecked and one length of the track was torn out. The passengers were injured. The explosion was distinctly heard within a radius of ten miles. The popular belief is that the outrage is the work of strikers.

Services at Mt. McGregor.

MT. MCGREGOR, 31.—A considerable number of people came to the mountain to-day to view the remains of the dead General. The expression of the face remains very natural. A magnificent floral memorial was received at the Grant cottage this evening from ex-Governor Leland Stanford, of California, and Mrs. Stanford, representing "The Gates Ajar."

The programme of the services for Tuesday is as follows:

Scripture reading, 90th psalm.
Prayer by Rev. Bishop Harris, of the Methodist Episcopal church, New York.
A hymn, "My Father Looks Up to Thee."
Discourse by J. P. Newman.
Hymn, "Nearer My God to Thee."
Benediction.
Contralto solo. "Beyond the Smiling and the Weeping."

FOREIGN.

Lord Churchill Attacked.

LONDON, 31.—The *Standard*, which is the accepted Tory organ, uses the following language in its attack on Lord Randolph Churchill, as the leader of the Conservative party: "To speak plainly, Lord Randolph Churchill has been puffed in the press with admirable assiduity, with a well organized clique, which is always ready to cry, 'Prodigious!' whenever he opens his mouth, but it is all in vain. The Liverpool incident shows the extent of the alarm which Churchill's blundering and blustering have inspired within the bosom of his party. It was aggravating to be exposed to the humiliation of such things as Churchill's attack on Earl Spencer's government of Ireland. Unless the Government disowns these attacks it will feel the bad effects in the future more seriously than it has yet contemplated. The truth is, Lord Churchill has been much overrated. If his pranks be encouraged longer he will smash the Government and the Conservative party. We will follow Salisbury, but we will not follow this overgrown school boy without knowledge sufficient to fathom his own ignorance of statesmanship. It is a common saying that Lord Churchill is equally radical with Joseph Chamberlain, and the popular estimate is not far wrong."

BRIEF TELEGRAMS.

There were 6,516 new cases of cholera in the plague stricken districts of Spain on Thursday and 1,039 deaths.

Stanley Huntley, a popular journalist and author of the *Spoopendike Papers*, died on Thursday night at his residence on West Forty-fifth Street in New York.

It is reported that the alleged looting by the volunteers in the Northwest, will be brought to the notice of the British government, unless the Dominion authorities take some steps in the matter.

All the Palo Alto racing stable left Sacramento this afternoon on the palace horse car "Palo Alto" for the East. There are twelve in the string. Short stops will be made at Ogden, Omaha and Chicago, and they will then go to Rochester, where they are to be trained for engagements at Albany at the Breeders' meeting.

The well-known sporting man, Ed. H. Gillman, issues a challenge to any oarsman in the world, and especially to Beach, of Australia, to row Hanlon on the Detroit river any distance, at any time agreed upon for $5,000 a side. Gillman will put up $500 or $1,000 forfeit with any reliable newspaper in the United States, and will put up the whole $5,000 before Beach leaves Australia if necessary.

Several months ago a masked body of men visited the residence of Prof. P. J. Slocum, a school teacher near Horse Cave, Kentucky. Slocum fired into the crowd and killed three of them. Slocum yesterday began a suit for $25 against 19 of the best citizens of Hart county, charging them with conspiracy to drive him out of the country.

A Denver, Colorado, dispatch says: At noon to-day Wm. Neff, a former resident of St. Louis, employed at the Telephone mine, committed suicide in the most novel manner. Complaining of being ill, Neff went to the cabin, laid down on the floor and placed a stick of giant powder with a cap and fuse attached under his head, and while in this position lighted the fuse. The shot blew his head entirely off from his body.
