

## Educational

### SIVERSITY.

Prof. Stewart is in receipt of a letter from Mr. Fred W. Alderson, superintendent of public instruction for the Philippine Islands, asking whether or not Filipinos will be admitted to the State Normal school here. It is the intention of the national department of education to send to the United States from time to time some of the more promising natives so that they may come in contact with American social, commercial and political customs and usages. The plan is at first to select from the better class of teachers, those

early in the week and Friday received warrants for the first month's work.

The Wednesday morning exercises were unusually interesting this week. The first number on the program was a piano solo by Miss Pearl Rothchild. She was enthusiastically received, but through Mr. Eaton begged to be excused from rendering a second selection.

Mr. H. L. A. Culmer, president of the Utah Art Institute, then addressed the school on "The Domain of Art." He brought out the practical side of the

faithful and efficient service rendered. Some students on practice words have reached a speed of 80 words per minute without an error.

A number of young men, who are in earnest for a better education, but who cannot break away from their daily work, are now at the night school, simply because they are employed during the day. It is a curious fact that many of our friends and patrons are still unaware of the fact that the Latter-day Saints' College is no longer in the Templeton, but now occupies the Lion House and the Social Hall—quarters much more roomy, safe, and convenient, as well as comfortable and suitable for present use.

Instructor J. H. Evans, of the department of English, has been invited to speak on the subject of technical grammar before the Utah State Teachers' association, which will meet in this city in December next. He teaches six classes daily in English at the College and is well liked by the students.

It has been necessary to make two sections of the class in Book of Mormon under Prof. Mills. When former students visit these classes the professor invites them to speak, and they never fail to respond. Prof. Mills' lectures on the Book of Mormon are so popular that he has been engaged to speak every Sunday evening from now until next June, in various towns of the State.

The class in Articles of Faith is composed of forty-eight prospective missionaries, bright, energetic young men, men sure to make their mark as true messengers of salvation. Mr. McRae conducts the class, using the topical and question methods, and requiring Bible proof for every doctrine advanced in class.

### H. Y. ACADEMY, PROVO.

Mr. Wesley K. Walton of Coche, Rich county, recently visited us. Mr. Walton has three sons attending school here.

Most of the teachers spent three days in Salt Lake City visiting the Fair and attending Conference. They report an excellent time.

The Academy special carried perhaps

## Some Shoe Builders

Sacrifice everything for style. We see that the leather is all right first. Then we see that the workmanship is the best that can be put into shoes. After we're sure of these points we see that the shoes are built stylishly. For men, \$1.75 up. For boys \$1.25 up.

**ROBINSON BROS. CO.,**  
SHOE BUILDERS, 124 Main St.

for the teachers of that county on pedagogical topics pertaining to their schools.

The regular meetings of the various societies were postponed last week on account of Conference. The Sunday school and the domestic meetings were also postponed.

The commercial students are rejoicing over the addition to their department of four new Hemington typewriters, and over the prospects of some more being added, as a new consignment will be ordered shortly.

Contracts for furnishing the "White and Blue" with elegant paper have been placed with a Salt Lake firm. The students are meeting with unusual success in getting subscribers and advertisements. The paper, as is always the case, promises a good financial footing for this year. With such a beginning it is sure to make a success.

The sub-freshman class, though not so far advanced in book learning as the other classes, is not behind them in its organization. The class is now thoroughly organized, with an enrollment of seventy-eight enthusiastic and energetic members, who appreciate their opportunity of making up for lost time, and who are determined to reach the top.

The Academy now feels that it can welcome its guests as they should be welcomed. Room 10, just north of the west entrance, has been artistically fitted up as parlor and reception room. The wood work is painted in white and gold, while the kaleidoscope is a pale tint of green, relieving the eye greatly after it has gazed at the blank white walls outside. The furniture, though simple, is artistically arranged. The room is appreciated by us, and we feel that it will be appreciated by visitors.

The Academy very often receives back into its folds its old students. In the guise of teachers, we are pleased to learn that Miss Alice Young, daughter of Mrs. Christina D. Young, has been engaged as an assistant teacher in shorthand and typewriting. Miss Young graduated from the Academy three years ago, and since then has been doing office work with Cannon & Sons of Salt Lake City, thus qualifying her for a good teacher.

The students always look forward with great expectation for October 13, Founder's day. This year is not an exception to the rule. Preparations are being made to make the exercises of this year better than ever before. President Joseph F. Smith and Dr. Karl G. Maeser will be the speakers of the day. A delightful time is expected.

The parents' class met Wednesday evening in College Hall to listen to a lecture on the "Rights of the child," by Dr. J. M. Tanner. As is always the case, when Dr. Tanner lectures, the audience was a large one. The speaker knew how to handle his subject matter, and all present join in saying the lecture was an excellent one, well worthy of the highest praise.

### It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use.

We have seen the frail infant when the faint struggle for existence seemed almost ended, resuscitated and made strong by the use of WHITE'S CREAM VERMIFUGE. Price 25 cents. Z. C. M. I. Drug Dept.

### GENERAL GORBIN

Commands all the Soldiers Guarding Pennsylvania Mine Property.

Brigadier General J. P. S. Gorbin springs from State to national prominence as commander-in-chief of the National Guard forces now maintaining order in the coal fields of Pennsylvania. He is a cautious tactician, a firm commander and a great master in knowledge of human nature.

## WESLEYAN UNIVERSITY FOOTBALL TEAM.

Ganison MacNaughton, Calder, Montgomery, Sufkin, Stillma, Brown, Yanow.

Cornwall, C. Dodds, Rymer, S. Dodds, (Captain) Eckart, Hartzell, Inglis, Wing, Lacey. This is the latest photograph of the football team of Wesleyan University, made especially for us by Roy H. Jones, of Middletown, Conn.

who know some English and to arrange for them in connection with some normal school a year's course of practical study and observation. The superintendent of public instruction in the Philippines is anxious for one normal school to be open to these young men and women, and asks that committees be appointed here to raise money for their board and other expenses and to contribute to the success of the plan. There can be no doubt but what the regents will consider this matter favorably.

The library books have all been removed from the old building, and will be put in the new reading room some time during the coming week. The library is well equipped, and the reading room one of the best and most convenient that could be built.

The training class this year is the largest ever registered in the University. The equipment for normal work was never better and the students are very enthusiastic over the course of study.

Prof. Stewart will go to Farmington next Saturday to lecture before the Davis county teachers.

Mr. James E. Russell, dean of the Teachers' school of Columbia University, has written Prof. Stewart in regard to a post-graduate course of study that the institution offers to teachers. Prof. Russell has asked for printed outlines of the normal work here and also the outline of training that is issued by the department of training.

### SALT LAKE HIGH SCHOOL.

Miss Hatlie Currier, a member of the senior class, has gone to San Francisco to make that city her future home. The best wishes of all connected with the High school go with her.

Mr. Charles Reed, of this city, and Mr. George Sibson, of Park City, visited the school Thursday.

The shadow box is now adorned by a painting from Mr. George Teggart. Many complimentary expressions regarding it, in letters of the picture have been heard.

The interest in football is increasing, our team will play a number of the leading high schools of the west. Salt Lake will be the scene of several of these contests.

A large number of students are carrying business correspondence as an extra this year. The course in commercial department is well patronized.

The lunch room in this basement commenced business Monday. It is said to be much better than ever before. The bill of fare has been greatly extended as compared with last year.

Miss Ruby Armstrong, Mr. Eaton's secretary and stenographer, has entered upon her duties as assistant in the commercial department.

The teachers signed their contracts

subject, taking the ground that all could find everyday use for art. He said that the artistic person with small means always makes a better appearance than the unartistic one with abundance.

The last number was a violin solo by Miss Sybil Anderson, accompanied by Mrs. Gemmel on the piano. A second selection was given in response to a hearty encore.

### LATTER-DAY SAINTS' COLLEGE.

Many conference visitors called at the college during the past week. Favorable comments were heard upon the department and industry of the students and the spirit of earnestness and good order that was apparent on every hand.

Many of the rooms at the Lion House are entirely filled and it has been necessary to divide certain classes.

For the first time in many years there are students in every year of the Latin course.

The German class, under Instructor Snow, is a wonder to all visitors. The students are trained to speak in the language from the first day, and the amount of conversation they carry on in German with the teacher, after two weeks of practice, shows what can be accomplished by good method and earnest application.

The bookkeeping department in the Social Hall is now becoming so crowded that it will be necessary to locate additional large desks on the lower floor. This will necessitate the removal of all other classes to the Lion House, and will be a good change, as it will prevent considerable of the going back and forth by students who have classes in both houses.

The classes in shorthand are making better progress this year than ever before. Professor Mills and Instructor Milne are best very busy with the different sections. The trustees have decided to secure an additional teacher in this branch, and a suitable person will shortly be selected.

President Paul conducted a model lesson before the teachers of the Twenty-first ward Sunday school on Thursday evening. Prof. Paul says this Sunday school is certainly one of the best in the State and has original and effective methods of procedure for the training of its teachers and the conduct of its classes.

Some of the students in typewriting have attained a speed of twenty-five words per minute without error. This is one of the gratifying results of the introduction of a perfectly simple and yet scientific touch method of teaching. Visitors to these classes think it strange to see the students writing with great rapidity without looking at the keyboard, or practicing letters while looking at the instructor or elsewhere. At the last meeting of the board, it was decided to raise the salary of the teacher of this branch, in view of the
