with a clew of securing the greatest re-suits with the least expenditure of money. Her sister ships will be named the Arkansas, Connecticut and Florida. The Wyoming was built by the Union Iron Works, the contract price being 1874.000. Her dimensions are: Length on load water line, 225 feet; extreme breadth, 50 feet, mean draft, 12 feet, 6 inces; displacement about 2,700 tons. The hull is of steel not sheathed, with double bottom and water tight subdivisions. The hull is protected by a side armor belt ranging from eleven to five inches in thickness. The turret is of the balanced type, its armor being nine inches thick. A conning tower with 714 inches armor and a single military mast will also appear above the deck. The vessel is to make twelve knots an hour. Her main battery will consist of two 12-inch brechloading rifles and four 4-inch rapid-fire rifles. In the secondary battery will be three 6-pounder rapidfire guns and four 1-pounder automatic
