For Those Who Live on Farms.

Dr. Bergrin, Pna. Hs. writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. HENRY MILLER TO REHEARSE IN SALT LAKE

Manager Pyppe's mail from the east brought a pleasant piece of intelligence yesterday. Everyone knows that Henry Miller has always had a warm spot in his heart for Salt Lake, and whenever he visited us during the summer he has always managed during his stay to take his company for a picnic into City Creek canyon, a lake excursion, a mountain horse back ride, or given them some other of the many pleasure trips that abound hereabouts. The last time he was here he said that he would try and shape his plans this summer to spend a fortnight in Salt Lake, doing here the work of rehearsal for his season, that he usually does in the big cities. His letter to Mr. Pyppe asked whether the stage of the Salt Lake Theater would be available for day rehearsals from August 2nd till the 10th. If so, he would bring his entire company here on their way to the coast, giving them a taste of what summer life is in Salt Lake, and prepare here the round of plays he will give during August and September in San Francisco, presenting one or more here prior to leaving. Fortunately Mr. Pyppe had the open time, and he gave a favorable answer. The strength of the organization which Mr. Miller carries for his annual engagements on the coast is well known. Usually Margaret Anglin has been his leading lady. Whether she still bears him company or not is uncertain, but his letter to Mr. Pyppe on that head said he would have a surprise in store for his Salt Lake friends. That his leading woman must be someone of notability is evident from the fact that in San Francisco it is announced that "The Lady of Lyons" will be one of the features of Miller's summer repertoire, and, of course, no novice could be entrusted with the part of the imperious Pauline.

Too Great a Risk.

In almost every neighborhood, someone has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of many people and has been used in suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.
