

**The European Mission.**—The following are from the *Millennial Star*, Sept. 13—

From correspondence in the *Star* we glean the following—

Zwolle, Holland, Aug. 31.—The work is being followed up to the test of our ability, and though apparently we make but little headway, a warm and zealous feeling is existing among the Saints, and I doubt not but what it will result in some good sooner or later.—D. BOCKHOLT.

New York, Aug. 25.—During the six weeks past I have conversed freely upon the principles of the Gospel, having opportunity of constantly bearing testimony to the divine mission of Joseph Smith, and the great Latter-day work; have carefully circulated all the tracts I brought from London, and have baptized three persons while remaining in New England among my relatives. I have also succeeded in tracing the line of my father's house through seven generations. Permit me to give expression to my humble thanks to the Saints among whom I have traveled in England for their uniform kindness and hospitality.—MILTON H. HARDY.

Elder B. H. Watts, under date of Plymouth, Aug. 11, says that he and Elder F. C. Boyer had visited Portsmouth, Ilfracombe and East-down, at the latter place circulating tracts and holding meetings July 4, 11, 18 and 25, all of which were well attended, good order, sociability and kindness being manifested, and six persons were baptized. Elder James Payne, who had been laboring in the northern portion of that conference, was in good health and buoyant spirits, his meetings were well attended, people paid good attention, and they had good order, both at indoor and outdoor meetings. He had recently baptized four persons. Elders Watts and Boyer also held meetings at Barnstaple, and in Haydon's large room, Devonport, where one of a series of lectures, previously advertised in the *Devonport Weekly Independent*, and by posters, was delivered and well attended.

Elders Job Welling, Thomas Steed and Jacob Miller, writing from the *S. S. Great Britain*, Gravesend, London, Aug. 25, say they had arranged with Gibbs, Bright & Co., for their passage to Melbourne, Australia, on that vessel, with a room to themselves, for £94 10s., expecting to sail Aug. 26. Elder Steed had been visiting at Malvern, whence he emigrated over thirty-one years ago. Elder Miller had travelled in Durham, Yorkshire, Leicestershire, Warwickshire, Worcestershire, Herefordshire and London. Elder Welling had visited among his friends in Cheshire and Staffordshire, whom he left nearly twenty years ago. All had been well received by their kinsmen and Saints.

Sheffield, Aug. 25.—On Wednesday last Brother Barton and myself left Sheffield to fill some appointments. We walked to Holbrook a distance of eight miles, and called on Brother Hill. We then went to Marsbro for the purpose of holding an outdoor meeting; arriving there we went around the town from house to house and invited the people to come and hear us. One lady when she heard we were Latter-day Saints seemed much moved and invited us into the house. She informed us that she had been a member of our Church thirty years ago, but had lost all trace of us; she was very much pleased—said she would rather see us than two kings. We had an attentive congregation.

On Sunday, 22nd, we visited Bolsover, and met Elder Maughan and several brethren from Chesterfield, as previously arranged. We held two good meetings at this place in the open air. On Monday evening, 23rd, we held a meeting in the Market-place at Chesterfield. We stood on the pump platform, sang a hymn and opened our meeting. While Elder Barton was speaking a man commenced to interrupt—others joined him, and they threatened to throw us off the platform. Excitement ran high, several of them made an attempt to do so, but could not; I held on to the pump. A stranger appeared and threw off the men assaulting us. Two policemen came and protected us by checking the disturbers of the peace and we went away without being injured.

"My health has been better for the last ten days than it had been before since my arrival in England. I have enjoyed myself first-rate in my labors of late, notwithstanding the opposition experienced.—C. E. GRIFFIN.

On Monday's U. P. train were Mrs. Small and her husband from the East, traveling for Mr. Small's health. While she was having a lunch fixed up the satchel that she had put on a table at the U. P. Depot mysteriously disappeared. It contained \$300 in coin and \$800 in jewelry.

#### AYER'S SARSAPARILLA

For Purifying the Blood.

THIS compound of the vegetable alternatives, Sarsaparilla, Dock, Stillingeria and Mandrake with the Iodides of Potassium and Iron makes a most effectual cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance in the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy.

AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, one the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rosacea, Pimples, Pustules, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea arising from internal ulcerations and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists, Sold by all Druggists and Dealers in Medicine.

THIS standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever. It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong. As a dressing, nothing has been found so effectual or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

BUCKINGHAM'S DYE, For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.
