

TELEGRAPHIC.

CUTLER'S REMEDY.

What a Well Known Political Economic Propose.

PURCHASE BRITISH COLUMBIA.

Pay in Gold or Silver Bars.—A Preliminary Towards Acquiring Canada.

SAN FRANCISCO, Aug. 15.—The City publishers article to the effect that Harvey T. Cutler, the political economist, whose name is familiar to the legislature of this country, has prepared a bill to meet the present monetary emergency of the country. He has had the matter under consideration for three years, and his present action is the result of encouragement, both from members of Congress and the business men of the coast. Speakers had ready at Washington to introduce the measure, and Mr. Cutler is as confident of having solved the problem that he prefers to let the politicians do it. It reads, in part, as follows:

"Whereas, That portion of the coast of North America bordering on the Pacific Ocean, now called British Columbia, and the Yukon, is in a position naturally belonging to the United States, therefore, to be annexed, etc."

"That the President of the United States is hereby authorized and empowered to enter into negotiations with the Government of Canada for the purchase or acquisition by purchase for the United States, ownership in entirety of said territory, now called British Columbia, and that the sum of \$100,000,000 or so much thereof, as may be necessary, shall be expended in carrying out this disposal."

After a few changes speech by Hall the House adjourned.

It is their duty to support party and expenses with the President in recovering public confidence and restoring sound currency. The Republicans will do this. Now as the Democrats used to do, they have no voice. So far as I am aware, no other nation but the people of the United States have no voice. The extreme limit of public safety in the struggle to maintain silver in connection with a black monetary system is to let it go. This is the real leader power behind the silver for fifteen years. During all this time it has been constantly on the decline. Even India has given up the idea.

All the time of Harry's speech in discussion started on the old question of responsibility for the depreciation of silver, and was carried on some time by Stewart, Upton, Abbott, Bear and Sherman. The Senate has adjourned.

THE HOUSE.

WASHINGTON, Aug. 15.—In the House the morning meetings (Dem.) of Tennessee made a bitter assault on his policies. Particular account was taken of the speech of the gentleman against silver from the past.

Governor of Ohio made really the best speech of the day, and the strongest. In the course of his remarks he said it would be regretful that the President, in his message, had not said we could not participate in the present peril of the country, said "It is not I am sorry, but the present peril of the country is not of my creation." The Republi-

cans were silent, and they could not afford to be silent. After a few changes speech by Hall the House adjourned.

BEST Interest of Fao.

BEVERLY FALLS, Pa., Aug. 15.—A meeting was held yesterday evening at the Hotel and Hospital, which is in the midst of the village of Frank Graham of Hinsdale, 17 years old, knew three other boys were learning groundings about mile below the village. He got a can of beans and a piece of bacon, and placed it on a flat rock and went with the young Indians near the spot. There in the sun and chips off to a side distance.

Burgess Head, 20 years old, and James Head, 18, sons of one of eight Head, a well-known family, and James Carter, aged 17 years, approached the spot, entirely unbroken by strangers. They can explain all being unbroken and turned terribly. The physicians and everything possible for the boy's recovery was done, but they died this morning. Graham made his escape and is still at large.

Cattle Exhibit.

CANTON, Aug. 15.—The farmers will begin coming to the Fair in large numbers, and the inquiries regarding China rations and the cultural department indicate that they are anxious to know something of the live stock exhibit, which begins next Monday and lasts until Friday, Sept. 1. The weather will be very fine, therefore sales will be good, and nearly as many will show cattle. The provinces of Ontario and Quebec, Canada, will also be represented. India, Germany and France will also have a fine lot of representative stock and a band of selected cattle from Trinidad.

Ramrodding Barn.

COLOMBO, Ceyl., Aug. 15.—The committee on the bill introduced by him yesterday as a measure of relief. It has, he said, the approval of the committee and the secretary of the treasury and he hoped the Senate would be willing to give it a favorable hearing.

A Committee Against the Chinese.

SAN FRANCISCO, Aug. 15.—A committee against Chinese aliens has been started in San Joaquin valley and is extending to the state. Coming to the financial trouble a large number of white men are employed steadily on the ranches and vineyards.

Sheepmen and Cattlemen.

DENVER, Colo., Aug. 15.—The trouble between the sheepmen and cattlemen in this vicinity, which led to the driving out of the county of the forces of the cattlemen last Sunday morning, has continued. The cattlemen, however, have withdrawn, and the sheepmen and the Hazen Toilet Foundry were completely routed.

Congressional Layout.

NEW YORK, Aug. 15.—Postified was the session this morning, and St. Patrick's cathedral in the city of the Bostonians, a man delegate, in the presence of one of the largest crowds ever gathered in the cathedral. Archbishop Corrigan delivered the sermon, which was received with great interest, and yet the New York papers, striking a balance between the two nations of now and a year ago, argued that the Bostonians were hardly and fairly in the right see and its representatives.

The Republicans to Meet.

NEW YORK, Aug. 15.—Chairman Carter of the Republican national committee is here. He will call the meeting of the national committee for the meeting of the national convention, and get the New York papers, striking a balance between the two nations of now and a year ago, argued that the Bostonians were hardly and fairly in the right see and its representatives.

The Religious Majority.

WATERTOWN, N.Y., Aug. 15.—At the meeting of the religious majority of this country in Boston, it was announced to the world that this was a nation of Christians, believing in God, Jesus, the Holy Ghost and salvation, and that it proposed to have its share of the good news, was rich enough to help the world bring back confidence to the world who have drawn their money from the banks.

Watertown expressed the conviction that the religious majority of this country in Boston, it was announced to the world that this was a nation of Christians, believing in God, Jesus, the Holy Ghost and salvation, and that it proposed to have its share of the good news, was rich enough to help the world bring back confidence to the world who have drawn their money from the banks.

The Religious Committee.

WASHINGTON, Aug. 15.—The discussion in the Senate rooms came neither over the Yiddish nor the resolution to banishism. The Republicans, as usual, stood ready to help the President and refuse that resolution, and the country sang to the March 4th.

"The Republicans are told daily that

it is their duty to support party and expenses with the President in recovering public confidence and restoring sound currency. The Republicans will do this. Now as the Democrats used to do, they have no voice. So far as I am aware, no other nation but the people of the United States have no voice. The extreme limit of public safety in the struggle to maintain silver in connection with a black monetary system is to let it go. This is the real leader power behind the silver for fifteen years. regard of the purchasing clause of the revenue law. In particular, the articles upon the subject are Sherman, McPherson, Morris, Allison and Abbott. The other bills are Worth, Vining, Van Zandt, A. G. Thompson, and others. The bill to regulate the banking of power, however, will not interfere with the action of the monies.

The New Chinese Statute.

SAN FRANCISCO, Aug. 15.—Young men of the Chinese, who have been to the United States, arrived here this morning on the steamer, "Sequoia," with a return of seventy-eight people. The steamer will go direct to Washington, where she will remain until the arrival of the new Chinese.
