UTAH DELEGATION AND PULP TARIFF

Senator Smoot Holds Out No Hopes for Cheaper Prices On Paper.

HOUSE WILL PUT UP A FIGHT.

Views of Senator Sutherland and Representative Howell on the Question—Letter to Deseret News.

The effort made to reduce the cost of print paper by taking the import tax off wood pulp, being made by the various newspapers of the country, is meeting with considerable opposition in the United States senate. During the consideration of the Payne tariff bill the house acceded to the requests of the newspaper makers and placed wood-pulp on the free list, removing the present duty of \$1.65 per ton. The recent increase in the price of print paper has made the cost of the publication of newspapers much higher than formerly, and as no increase in the price of the papers has been made, the hardship has fallen entirely upon the news print purchaser.

In an effort to enlist the assistance of the Utah delegation in Congress in having the duty on wood pulp, from which most of the news paper manufactured in this country is made, removed or at least materially reduced, the "News" wired Senators Smoot and Sutherland and Representative Howell asking them to do all in their power toward the end desired. In response to these telegrams the following letter has been received from Senator Smoot:

"I am just in receipt of your letter of April 8, 1909, requesting me to use my best efforts to carry out the decision of the select committee of the house in the matter of tariff on wood pulp.

"The house put wood pulp on the free list, while the present duty is \$1.65 per ton. I want to be frank with you and state that I am not in sympathy with the action of the house for the reason that I know positively, after a thorough investigation and from testimony given to the subcommittee of the finance committee, consisting of Senator Aldrich and myself, that if wood pulp and paper were put upon the free list, the business would unquestionably be transferred to Canada.

"We wired to France, Germany and

England for the price of print paper for the years 1890, 1895, 1900, 1905, and 1908, and we found that the American newspapers had bought their print paper at a lower price than any of the countries of Europe. The price of print paper today at the mill is as low as \$2.05 per hundred, while in England, France and Germany it is considerably higher.

"Senator Aldrich and I had the paper makers and the representatives of the newspapers together and tried to harmonize their differences; but we found it was impossible to do so. Mr. Norris, the representative of the newspaper interests, was very unreasonable. Nothing would satisfy him but free pulp and free paper, and he even went so far as to say that if it were in his power he would levy a tribute on the paper makers of this country. We tried to get some opinion from him as to what he knew about paper making, the cost of paper making in this country as compared with Canada, etc., but he utterly failed in getting a single positive statement. I was very much disappointed, because before our conference I thought the newspaper people had been treated badly by the paper makers.

"It is my opinion that the finance committee will report a duty on wood pulp and print paper, perhaps a little less than the present. I feel positive if you knew the inside of this question you would not ask me to do an injustice to an American industry such as I would do if I voted for free wood pulp and free paper.

"REED SMOOT."

Senator Sutherland's reply is as follows:

"Gentlemen—I have your telegram of the 18th inst. on the subject of the duty on paper pulp. It is difficult to tell at this moment just what the senate will do with this matter, though I am of opinion that some duty will be placed upon this article, probably less than the present duties. You must bear in mind that we are asking for substantial duties on the products peculiar to our own state, such as lead, wool and sugar, and we cannot, therefore, ignore the demands of industry which are important to other states. At this time I can only say I will give the whole subject earnest and careful consideration, with a view to doing in the end what seems fair to all interests.

"GEORGE SUTHERLAND."

Representative Howell is in favor of the house position in removing the duty from wood pulp. He declares in his reply that the house will maintain its stand for free pulp, and writes as follows:

"H. R. 1435, known as the tariff bill, has already passed the house and is now before the senate for consideration. When it is returned to the house, the amendments which are not agreed to by the house will be referred to a committee of conference of the two houses. This procedure, in all probability, will prevent an opportunity of offering amendments to any particular item of the conference report.

"I can assure you, however, that the house will put up a stiff fight on the provisions of the paper schedule of the house bill.

"I have referred your letter to Senator Smoot, who as a member of the finance committee of the senate is in a position to potentially influence tariff legislation.

"JOSEPH HOWELL."

SMOOT HOMESTEAD LAW SELECTION IS BEGUN

Field Agents of General Land Office Are Now Viewing Farm Lands.

Under the direction of George E. Hair, chief of the Tenth field division of the general land office, the first of the land started today to select farm lands which is to be designated homestead under the Smoot enlarged homestead act. Special Agent H. V. Campbell went to Millard county and W. H. Pefferly has gone to Boxelder county. In a few days Capt. Hair will take the field himself, going probably to Tooele county.

In connection with the selections, the following announcement is made: "It is the desire of the interior department to select a part of these lands in each county of the state, that all citizens may have an equal opportunity to avail themselves of the benefits of this new law.

"In order that the general land office may be possessed of all possible information concerning lands of the character described, and provide for immediate examination of the same, I would take it as a personal favor if every citizen of your county having knowledge of any general area of surveyed land suitable for successful dry farming, (which must be non-mineral, non-irrigable, unreserved and unappropriated, and not containing marketable timber), would communicate with me, giving me the township and ranges in which said land is situated.

"Immediately upon receipt of such information, steps will be taken to examine and report on same, that your citizens may avail themselves of the provisions of this act the present season, if they so desire."

AMUSEMENTS

Orpheum—The bill at the Orpheum is generally considered to be one of the best of the season, embracing as it does a classic sketch, a good woman impersonator, a young and fresh dancing quartet, a whirling bicycle act, a scream of a hurricane, Japanese equilibrist and several other features.

Columbia—From a dramatic and artistic point of view "The Lairs" as presented at the Columbia this week by the Williams Stock company is a decided success. Mary Hall

makes a splendid Lady Jessica and the company ably supports her. The bright lines of this famous play and its many wild scenes make it one of the most popular of the Mack productions. Next week "Carmen" will be given with Miss Hall in the title role.

Bungalow—The Rose City Quartet will be seen for the balance of the week, with the regular Saturday matinee, in "The Holiding Girls," a new musical show which has never before been presented in Salt Lake. This musical show will be presented by the Lewis & Lake Musical Comedy company at the Bungalow theater.

Grand—Another large house witnessed the fine production of "An Orphan's Prayer" at the Grand last evening. The play is drawing well, and deservedly so. It is well worth seeing. This is the last week of this company at the Grand. At the matinee Saturday every patron will receive a package of opera chocolates.

U. Amateurs Trend Boards—The matinee given at the Colonial yesterday for the benefit of the Gamma Phi girls' bungalow to be erected soon on the university campus, scored a distinct success, many of the numbers coming well up to the professional mark. The picture dances by Miss Louise Delaney, and the group of girls under her direction, the violin numbers by Morris A. Andrews, the vocal solos by Miss Edith Grant and John Summerhays, were among the best things, and the entire program was a credit to the entertainers. The school orchestra, and chorus, the University Dramatic club, under Miss Babcock, the male quartet, composed of John Summerhays, Lyle Smith, Shirley Clawson and Ray Dorius, and the University mandolin and guitar club were all enjoyed, and helped to place the afternoon's performance on a professional plane. The patronesses, Mrs. J. T. Kingsbury, Mrs. Byron Cummings, Mrs. W. W. Riter and Mr. C. S. Kinney all gave parties and many others occupied boxes and rows of seats. The following was the program:

Overture—Miss Williams' orchestra. Male quartet, "Drink to Me Only With Thine Eyes"—John Summerhays, Ray Dorius, Shirley Clawson, Lyle Smith. A group of folk dances, Hungarian, German, Danish, Swedish, by university girls under the direction of Miss Delaney.

Solo, (a) "Believe Me" (b) "With You"—Miss Edith Grant.

Fancy dances, (a) Spanish dance, (b) classic Gilbert dance—Miss Louise Delaney.

"Take Me Out to the Ball Game"—Ladies' chorus, consisting of Ida McKittrick, Gertrude Kelly, Hazel Barnes, Ivy Evans, Mamie Summerhays, Irene Kelly, Gertrude Romney, Lorinde Peterson, Ethel Davis, Alice Welby.

Selections from "Martha"—University mandolin and guitar club.

Violin solo, "Cleverly"—Vaux Temps—Morris A. Andrews.

"The Glow Worm"—Ladies' chorus.

"On, Away, Awake, Beloved"—John W. Summerhays.

Fourth act of "Cabinet Minister"—University Dramatic club, under the direction of Miss Maud May Babcock.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. F. J. Hill Drug Co. (the never substituted), Salt Lake City.

Saltair, Saturday, April 24, Dance.

MICKLE UNDER ARREST.

Man Who Shot Sheriff Burns of Sanpete Behind the Bars.

James Mickle alias James Peterson, one of the alleged slayers of Sheriff James B. Burns of Sanpete county on September 14, 1894, is believed to be under arrest in Tucson, Arizona, and requisition papers were issued yesterday by Secretary of State Charles S. Tingley, who is acting governor, on the governor of Arizona for the return of Mickle to this state.

Sheriff John Knudson will go to Tucson to identify Mickle as there is some doubt as to whether he is the right man. Knudson knows Mickle and will bring him back to stand trial on an indictment returned by the grand jury fifteen years ago. Mickle was once arrested and lodged in jail but with outside assistance he escaped.

Sheriff Burns was shot and killed when he attempted to arrest Mickle and Moon Kofford on the charge of sheep stealing. The tragedy occurred near Mantle.

ANOTHER PROSPERITY FAIR.

There will be a meeting this evening, in the Chamber of Commerce of manufacturers to discuss plans for a fair to be held here during the G. A. R. encampment. As a result of the late prosperity fair, it is claimed that one local manufacturer has received orders for goods to be shipped to half a dozen western states and territories.

"There's a Reason"

FORTUNE IS SPENT ON WANDAMERE THIS YEAR

Management Expends \$10,000 to Bring Resort Up to Date to Handle Season's Business.

When the resort season of 1909 opens, the management of Wandamere park will have expended the sum of \$10,000 to bring the resort up-to-date and into shape to handle the season's business. This vast amount has been spent in making improvements throughout the grounds, in new rustic buildings, and in erecting a \$15,000 scenic railway, which will cover fifteen acres of ground.

Many improvements of a substantial character have been made and many more are in process of completion at the present time. An entirely new scheme for floral decorations has been evolved for the coming season, and with the 26,000 potted plants and innumerable blooming shrubs to be set out in the flower beds and lawns, the idea to be represented will be a

patriotic one, and the colors red, white and blue will predominate. Entire flower beds will be devoted to the legend "G. A. R." and the various schemes in border decoration, etc., will follow the same general idea of the colors of the flag, carrying out this idea on account of the G. A. R. encampment to be held in this city next August.

One of the distinctive features to be developed at Wandamere grounds this summer will be a large cactus bed, in which 600 different varieties of cactus will be tastefully displayed. There is only one other bed of a similar nature in the country, and that is in the private grounds of a gentleman in St. Louis. The cactus plants to be placed in this unique collection will be brought from St. George, and from Arizona.

A new cement swimming pool has been constructed, and this will be one of the leading attractions during the season. There will be no danger of a repetition of last summer's accident in which a large portion of the retaining wall gave way, as the walls now built are thick and strong.

One of the ponds in the center of the grounds will be devoted to a Japanese garden, which will be built in the center of the pond and walks, or platform, will lead round the structure over the water, in which the swans, ducks, geese and other water fowl will be confined.

A new feature to be added is the big rustic dining hall, in the north-eastern corner of the grounds. The rustic framework and entrance have

already been completed, and the whole will be covered with canvas and climbing vines. Tables, chairs, etc., for large parties with picnic will be provided in this open air resting place.

Rustic arbors, covered with running vines and containing seats will be scattered at different places on the grounds. They will be things of beauty and pleasant places to rest.

Near the dance hall a large Dutch windmill is to be constructed, and its giant arms will be run by water power furnished by the stream flowing from the lake. This will be a novel feature, and promises to attract great attention.

The race track is being put into shape for the season's racing, some high class events being promised. The baseball park is also being renovated, and a cinder path for foot races, 220 yards long, is being built. The bowling alley and midway attractions will be placed along the line of the main entrance this year, and will not occupy one of the way places as heretofore. A new house for the merry-go-round has been constructed.

The scenic railway will be one of the main attractions, covering as it will more than half a mile of track distance. The framework will extend from the chute tower westward to Fifth East street, thence south to the limits of the park, east to the dance hall and north to the place of beginning. An impetus sufficient to carry the cars the entire distance will be given by the height of the tower and the various dips given the cars along the

line. Manager McClelland says there is no scenic to compare with the one built at Wandamere this year.

The lake is being cleaned out and about a foot and a half of earth will be removed from the bottom, so that when the water is turned in it will be fresh and pure, and there will be sufficient depth for boating and launching from one end of the lake to the other.

The resort will be repainted throughout, the old colors of red and black being substituted with green and white, which will be the resort colors this season. These, with the red, white and blue of the patriotic decorations, will form a beautiful combination, and make the sight one to be remembered.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made by Dr. J. C. Cheney & Co., Toledo, Ohio, by J. C. Cheney & Co. Testimonials free. Sold by Druggists. Price, 50¢ per bottle.

Take Hall's Family Pills for constipation.
