#### THE OREST DEFEAT.

The site is mystery surrounding the canfl of in the Levant has had become magazially cleane by the last har day's event. This Greek position at Laries securing to all our cans was so well entroughed that wen the Turks well and the securing the first was the Turks well as the most remarked because at the most remarked because at the time General Smolecuki was encessfully moving against the rear of Edward Fram. Paresis was no less unnocutabled. It was decided on at a time when the Turks well and the most remarked the second of the position of the second of t

Simplement was again ordined to retreatize a flood as hash half for several room. A flood as hash half for several days. The position at Domokos was designed in present in a recent probability of the recent prices himself, to a recent probability of the flood of the distribution to the Greek makine, but how a substitute of the distribution and while this is going on on fand, the Greek flood, in very way toperon is the suitable, in very way toperon is the suitable, in very way toperon is the suitable, in doing aimen and the greek flood, in the spiritude is becoming general that Greek haben butryely, into its querie).

The news from Comesanthoole does not add in dearing up the similarity, in the suitable. It is stated the powers have asked the Scolline Ports for an armistic pending negotiations for peace, and that Russis has been rather emphasic in but demand; yet the Turkiels government continue to multilize the resurross as if preparing for a signatic conflict. There is cometoting in all this that cannot as yet be explained. If we want beaus, though, as if the Turkiels government even how calestains suchificant last some Energies power may interfere, in the hast moment, in favor of Greek. Pain his hope of the Greek leader, but if there were way as youndailloud for it, that has so far not been made apparent.

#### THE BINERS' PEDERATION.

The Western Federation of Militer is still at work in this city, on business connected with its convention here. No could the subset thought of the members of the organization is to keep members of the organization is to keep in issued with the popular estitutions, since the off-rit to to be made to increase the tederation's membership among the miners were tool a stranger by one has matter to be used to

away from membership in the leddrestion. The unwission of the federation's course is meablest in its following the inaterality of the presents, Mr. B.-yee, and ignoring the verming which the public has given connecting an organization that upboids Mr, B.-yee's views. The Besidonts of Univaries a conservative people, yet have no institucy its giving a plab expression of their views. They are as primpt swamp contaming upon their constitutional rights, and demanting the constitutional rights, and demanting the infillness of emittations of emittations of emittational residential and their course to every lower of bloomly in the general expression of the people in condemnsation of the people in condemnsation at the views advanted by Mr. Heyer, and that general expression ongot to serve as a warning to the Monete' infortation acts what is the people's will upon this perticular matter.

New that and the second of conditional matter.

matter, Niceritationling the desided such matter the community against the waters expressions of Mr. Beyor, we understand that the interation proposes as a just checkener to the disk. An interballon to in the matter of the Names Grarri, the proposition of the designation terms to the proposition of the designation terms to the proposition of the designation terms to proposition of the inferration being to be positive very member of the originates multitle. That may not prove so good at thing for the bedeath of the originates and the major of the originates and the proposition of the originates of the originates and the proposition of the originates of or originates originates or originates originates or originates originates or originates or originates originates or originates originates or originates or originates originates originates or originates originat

National Guardy in these attramitances, the federation is pindiged by its embiliation to be possible every note-localized main in the High-between the sages of sightness and tarry-five years, because they constude the speciation of the Maring as rather or other workingman with the a replace of real possible or other than a replace of the possible of the positions which is a special of real positions which is the property of the positions will be a possible or the position of the positions will be a possible or the position of the position o

me that.

Tour is a few in this State against the Activities, and another against description. I are employed the kine are made to the company of the latter causing goods, as a more property of the latter causing the company of the latter causing the company of the latter causing the company of the latter causing th

these fixing by below any temperature the same thing. Both are sequely explanate.

Those immediately conserved in this tourcase ought to give a hearing to all saise of the question, and earners a calm, siega-acouste judgment thereon, remembering that he justicate element among the writing classes will be found remaining of classes will be found remaining on the continuing in festivations or assects. channes will be tound remaining of camelining in federations or associa-tion that assail the means of effective government. The attitude of the previous of the Mines's redoration in this respect is condemned by public estitions, not only here, but six where in the West, as may be een by the following edi-torial communiate, which are typical of the empiricans of the press generally. This is from the Horsmesot, Cal-Record-Union of Westmessays.

Ante to train the Sectiments, Cal., Record-Union of Wednessing. Since Hopers is presiding over the section of Hopers in presiding over the section Western Profession of Miners, it assesses as easier Western Profession of Miners, it assesses as easier Western Profession. He has at sea, and he braged in convention. He should be deducted. The bullow who is time day and and well-union with the day and and well-union.
