TESTIMONIALS OT Branson Knitting Machines.

GENTLEMEN-In regard to your machines, we beg to say, we have been running them in our factory for the past six months, and the verdict of our superintendent and operatives is in favor of your machine; and we cheerfully give our unqualified approbation of its merits and advantages over any other machine we have used or seen.

The especial merits are, ready adaptability to perform work of various kinds; perfect action; simplicity of construction, durability and cheapness, compared with other machines. We take pleasure in recommending it as a reliable, satisfactory and profitable knitter.

Very respectfully yours,

S. H. RICHARDSON & CO.,
