## THREE YEARS FOR HIGHWAY ROBBERY

Criminals in Judge Rolapp's Court—Cases Set for Hearing.

## STREET CAR KILLS A HORSE.

Narrow Escape of Driver—Wedding Bells—Junction City Briefs And Personals.

Three years in the state prison was the punishment meted out by Judge H. H. Rolapp to James Wilson, convicted of highway robbery. The minimum sentence for the crime of which Wilson was convicted was given on the recommendation of Dist. Atty. Halverson.

Wilson was a transient in Ogden, coming here with one Carl Ager, they met another young man who was passing through the city named Harry Mulner, whom the trio induced to take a walk down the railroad tracks with them, then held him up and robbed him of \$25.

Thomas Admire, one of the trio of highway robbers, who was arrested on the charge of stealing a box of gloves from the store of Nye's clothing store, but later discharged from custody, and immediately rearrested on the charge of burglarizing a rear room at Kennedy's grocery store on Twenty-fifth street and stealing a trunk for a new trial, which motion was arrested at length and taken under advisement. He will appear tomorrow morning to hear the decision of the court on the motion. Should it be adverse to him, he will then be sentenced on the charge of grand larceny.

Charles Ashton, another of the same gang, appeared before his honor with his attorney Elmer Farr, who moved for a new trial, which motion was arrested at length and taken under advisement. He will appear tomorrow morning to hear the decision of the court on the motion. Should it be adverse to him, he will then be sentenced on the charge of grand larceny.

The case of the state against J. H. Winslow, Jr., charged with incest, has been set for trial on December 2.

Dan Matovich, an Austrian, charged with grand larceny, that of stealing \$105 from the person of a fellow countryman named Elmer Opeitza last month, he was taken in a lower Twenty-fifth street saloon, entered a plea of not guilty to the charge.

**STREET CAR KILLS HORSE.**

A young man named Hirst Harding had a narrow escape from serious injury if not death yesterday by being thrown from a buggy which collided with a street car, killing the horse.

The young man had just hitched the horse up and was driving out onto Twenty-fifth street from Blackman Brothers' livery stable. He was not driving fast, but did not observe the approaching street car, his view being obstructed by a large furniture van that stood in the street. The car crashed into the horse and buggy with considerable force, knocking the horse down and striking the driver.

who are left feel lonesome. Among those whom mostly all of us regret to see leave is our genial roadmaster, Charles Selby and his excellent family. Mr. Selby has been a roadmaster on the D. & R. G. system for close up to 20 years, and is generally loved and well thought of by all his associates. They are going to visit the world's fair, and the male portion of the family will probably take a trip to the old country.

## RAYMOND, CANADA.

First Snow Storm.

Crop Conditions in Canada Colonies—Sugar Factory Anticipates Good Run.

Raymond, Alberta, Canada, Oct. 7.—The dry spell is at last broken, and we are having our first snow storm. This is the entering wedge of winter, though we expect a full two months of Indian summer yet. Despite the drought of the past season farmers who have cultivated properly have raised good crops, some yields of wheat going as high as 35 bushels per acre. The failures have invariably been the fault of the farmer.

The sugar factory has issued its ukase to the beet raisers and as a result, the scrunch of the beet hove is abroad in the land. The beet, like the grain crop, yields results and good ones as the reward of cultivation. Where irrigation has been had 15 tons to the acre is not uncommon, declining to three tons per acre where growers have given the crop three-ton care. Some yields have been as high as 15 tons per acre without irrigation, but with proper cultivation.

It is expected that the results of this year's run will equal 40,000 bags as against 3,600 for last year. The acreage planted this year is 3,100 next year it should be close to 5,000. Last year the product shipped was about 6,000 bags, local consumption being somewhat in excess of the difference between 6,000 and 3,600. The storm has delayed starting the run but the plant in full blast. Everything is in readiness and the working force of 175 men stand waiting for the start.

Word has gone out that work is plenty in Raymond and as a result we have between 400 and 500 Indians camped in the vicinity and moccasins are a drug in the market. The Dominion government can give us points in the care of its Laramie wards, most of them being capable of caring for themselves by what they earn because of what they have been taught, and in addition to that they are generously provided for from the earnings of the funds, for which their lands have been sold. They buy the best vehicles to be purchased, appearance being the standard of value and when an Indian, it is said, had the others given with envy when he paraded his progeny in a glass hearse.

Sickness Abating.

Thistle, Utah Co., Oct. 9.—The sickness which has been so prevalent in this place and the neighborhood, seems to be abating, since the dust began to settle. So the few showders that have come here of late have been really welcome.

mild. Potatoes and other vegetables are still green and growing instead of being ready for harvesting. Farmers are busy hauling their sugar beets to the depot. Some fields are yielding a heavy crop and others only a light one, but we are learning that in order to raise good crops of beets we need rich soil and deep ploughing, and with this experience, many are looking for much larger crops next year.

## AN IMPOLITE SPIRIT.

"Spiritualism," said Gov. Aycock of North Carolina, "is a marvelous thing. I used to know a widow who thought she would look into it a little. She visited a medium and the man agreed, for five dollars, to give her some conversation with her dead husband."

"He put the lights out and fell into a trance, and suddenly a dim, pale shape appeared in the farthest, blackest corner of the room."

"Are you my husband? Are you John?" the widow whispered tremulously.

"I am John," a bass voice answered.

"For a moment, awe-stricken, the widow was silent. Then she said:

"Do you forgive me for my ill-treatment of you in life?"

## HOW TO BE HAPPY.

Many of us miss the joys that might be ours by keeping our eyes fixed on those of other people. No one can enjoy his own opportunities for happiness while he is envious of another's. We lose a great deal of the joy of living by being discontented with what we have. We do not take any pleasure in our own modest home and carriage, because we long for the automobile or victoria that someone else owns. The edge is taken off the enjoyment of our own little home because we are watching the palatial residence of our neighbor. We can get no satisfaction out of a trolley ride into the city, because we are envious of the pleasure of our neighbor who has his own carriage or yacht. Life has its full measure of happiness for every one of us, if we would only make up our minds to make the very most of every opportunity that comes our way, instead of longing for the things that come our neighbor's way—Success.

## PHOTOGRAPHIC ART

Enables Us to Catch the Shadow Ere the Substance Fades.

## A REMARKABLE RESULT

As Shown in the Views of The Great St. Louis World's Fair.

Ruskin said "Photography may be called the shadow art."

It is more than that for it not only preserves the shadow, but gives a most admirable idea of the substance of the picture that is flashed by the sun and absorbed by the sensitive photographic plate.

At all events, as every one knows, photography preserves for us a record which would otherwise be completely lost.

This is especially true at the present time for the last decade has been productive of wonderful progress in camera, lenses and in the art generally. This is thoroughly demonstrated at the St. Louis World's Fair, where the highest results are being obtained by the official photographer and his busy assistants.

Through his untiring efforts, there has been secured a remarkable and comprehensive collection of views which affords a complete history of the Exposition.

The very best of these photographs have been selected for the new famous "Forest City" World's Fair Art portfolios.

These views are being issued in thirty weekly parts, each containing 16 reproductions, making 480 in all.

The views are about 400 square feet of choice fine art engravings.

They not only cover every important pictorial feature of the Fair, but each view is accompanied by a graphic and authentic description, written by Walter R. Stevens, the Secretary of the Louisiana Purchase Exposition.

It will thus be seen that the "Forest City" views are the most accurate, the most authentic and in every sense the best.

Every reader of this paper is entitled to participate in the distribution which is now going on.

It is only necessary to bring or send 10 cents to pay the cost of handling, wrapping and mailing, and any portfolio issued will be promptly forwarded.

It may be considered not only a personal duty to secure each part as issued but you will do your friends a favor by informing them of the particulars of our offer, if they are not readers of this paper.
