

HIGHER PRICES COME TO STAY

Such Was the Prevailing Impression on Stock Exchange.

LEAD MEETING IN NEW YORK

Producers Are of Opinion That the Settlement Will Be of Advantage to Utah Interests.

Mining stocks at the end of this week close very much better than they opened on last Monday and the market shows more strength than for some time past.

During the week a total of 666,155 shares were dealt in for \$336,418.13 and today 25,500 shares were transferred for \$15,903.37.

The extreme brevity of this morning's call on the mining exchange was not the only unusual feature that occurred. The trading was very quiet and at the same figures that maintained yesterday or in excess of them. That the shorts are covering on certain stocks is very evident and it is a prevailing impression that the higher prices have come to stay. In fact, it is stated by prominent brokers that there is already considerable embarrassment among some of the shorts who are suddenly with long accounts on the bear side when certain stocks were boosted yesterday. This fact has, to a certain extent, checked the downward movement of prices, and it is thought that with the good reports from certain mines whose stocks have been manipulated way below their proper value, combined with the fact that outside mining men have not lost the opportunity to buy in for investment purposes, stocks will rapidly shoot upwards. This opinion is prevailing in the market and that there is a fall in the trading, some brokers not knowing what to do there being a possibility that the shorts will be squeezed from now on.

Today's trading began with Ajax, which opened with a sale at 60 1/2. The stock was dealt in to the extent of 3,700 shares and closed with a sale at 54 1/2, the last bid recorded being 50 for the stock. Carlin followed and was heavily traded in from 60 to 62 1/2, closing with that amount bid for the stock. A transfer of 100 Grand Central was made at \$3.90 and Lower Mammoth handed out 100 shares for \$1.50 a share and closed with \$1.54 bid for the stock. May Day and Northern Light both showed strength, the former partly because the report that the first shipment of concentrates from the new mill reached the sampler this morning and the latter in consequence of a report to the effect that a fine strike had been made at the mine. May Day sold as high as 55 at the opening and closed 52 1/2, bid for the stock. With a total amount of 10,000 shares dealt in Northern Light varied only between 5 1/2 and 6.

Uncle Sam Con. was traded in between 58 1/2 and closed with bid. California began with a sale at 43 and went to 45 1/2 with sales amounting to 7,000 shares.

Other stocks were traded in at generally better prices and the call closed with the following bid and asked prices:
