PUBLIC MEETING.

A PUBLIC MEETING of the citizens of Salt Lake City will be held in the Old Tabernacle, on Saturday, January 31, 1874, at 2 o'clock p.m., for the purpose of nominating candidates to be voted for at the City Election, on Monday, February 9th, 1874.

MANY CITIZENS.

SALT LAKE CITY,
Jan. 28, 1874.

NEWS OF THE DAY.

AMONG the passengers on a late steamer from London for New York were Rev. Charles Kingsley and his daughter. Mr. Kingsley is Chaplain in Ordinary to the Queen and Prince of Wales. He has acquired considerable reputation as a novelist and poet, but is chiefly known in England because of his efforts to ameliorate the condition of the working classes, having on this account acquired the title of "The Chartist parson."

A coolness between Italy and Germany is said to have sprung up because of the statement of General La Marmora regarding Bismarck's attempted negotiations for the cession of a portion of German territory to France.

President Grant has signed the bills providing for busts of Chief Justices Taney and Chase, abolishing the office of deputy commissioner of Internal Revenue, and authorizing a bill to be coined at the mints of the U. S. for foreign governments.

The House committee on currency and banking have reported a new bill on those subjects, the main features of which will be found in the Washington, D. C., telegraphic news in our columns to-day.

Election excitement is rising in England. Last Wednesday night, some of the Independent and "Intelligent" liberal voters of London mobbed and stoned a conservative candidate, and turned him and his friends out of a room in which they were holding meeting.

The charges to the jury in the Tichborne case was commenced yesterday by Lord Chief Justice Cockburn.

A bill to abolish the State militia has been introduced in the California legislature; the national guards memorialize the legislature against its passage.

The citizens of Montana are petitioning Congress to have that Territory divided.

The gas burned in the government buildings and offices at Washington sometimes cost \$100,000 in a year. Morrill, of N. Y., evidently thinks this is extravagant, and, as retrenchment is the order of the day, he introduced a resolution in Congress to have the matter inquired into. The resolution was adopted.

Mrs. Wellbridge, widow of the late General Wellbridge, dropped dead of apoplexy yesterday, in the hall of her residence in Washington.

Gladstone will address his constituents at Greenock in the open air on Saturday; his antagonist, Nolan, intends holding a monster meeting in the same city on the day following.

The death of the Lord of St. John of Bledoe, Lieutenant General Henry J. French, of the British army, is announced.

Baron Von Gablentz, a field marshal in the Austrian army, committed suicide at Zurich, Switzerland, yesterday. The Baron was born at Jena, in the Duchy of Saxe-Weimar, in 1814, but became an Austrian subject, and served with distinction under Marshal Radetzky in the campaigns in Italy in 1848, also in the army of occupation in the Danubian provinces in 1849. He took an active part in the war waged against Austria for Italian independence, especially distinguishing himself at Magenta and Solferino. In 1859 he was made a field marshal, and in 1860 was appointed commander-in-chief in Hungary.

In the U. S. Senate to-day Senator Chandler presented a petition for an extension of the money order system to every post office in the United States, and for a reduction of the charges in such offices.

Joseph Arch refuses to accept the invitation from Birmingham citizens to stand for Parliament in the general election.

It will be seen by the latest western news that Congressional legislation, having a sharp eye to railroad companies, is probably very soon. Bills have been introduced for the purpose of securing the interest due to the government by the Pacific railroads, to make all lands granted by the general government to railroad companies liable to State taxation, and to amend the Pacific R. R. act of 1862 so as to prevent the officers or agents of the companies granting special rates, privileges, or drawbacks, or to discriminate in any way in the transaction of business.

The steamer *Glenora* was burned in dock at Boston, this morning; the boat and cargo were valued at \$450,000.

THE CITY FINANCES.

SOME ridiculous Munchausenish rumors have been industriously concocted and circulated of late concerning the city administration, and the wildest misstatements have been made and published, for the express and calculated purpose of making political capital and producing a prejudicial effect, partly here, chiefly at a distance, among prominent citizens particularly, and the municipal authorities of the city generally.

Not for the sake of the unprincipled and dastardly originators of these wild and wicked misstatements would we offer one word of comment or explanation, because those characters are worthy of public contempt, but for the information of the better portion of the public we may say a few words.

On the first of January, 1874, the liabilities of the city were for bills payable, borrowed money, etc., \$12,280.00; due on steam fire engine, \$12,280.00; due on steam fire engine, \$12,280.00. Per contra, the city had to its credit bills receivable, \$94,277.00, of which amount \$50,000.00 had been loaned to the City Gasworks Company, at 12 per cent. per annum, with approved security for the principal; city taxes, due last year, but unpaid, and not harshly pressed for payment because of the "hard times," but at least seven-eighths of the amount "safe as the bank," and mostly certain to be collected within two or three months, \$41,279.18; making a total to the credit of the city, of \$105,556.18. Deducting from these credits the \$12,280.00 liabilities, leaves a balance in favor of the city of \$93,276.18, or nearly three times the balance that the Territory can show in its favor.

Thus it will be seen that, contrary to all the detraction and slanderous lies which have been so loosely related and eagerly gobbled over, the Territory can show thirty-five thousand dollars in its favor, and the city nearly ninety thousand dollars, with probably as small a proportion of bad debts and doubtful bills as any other city or Territory or State in the Union.

These are rather hard nuts for the censors to crack. But to taxpayers we may say that under the above exceedingly creditable financial condition, and with a continuance of the admirable management that has made that condition an undeniable fact, both as concerns the city and Territory, the rumor of a proposed largely increased rate of taxation seems a doubly ridiculous assumption, and the condition of the municipal finances and the conduct of the municipal affairs afford a large amount of unalloyed satisfaction to every well disposed citizen.

UTAH AFFAIRS IN CONGRESS.

THE Washington correspondence, Jan. 23, of the New York Herald, has the following:

"The House Committee on Territories, which has had under consideration for the last two weeks the various bills relating to Utah affairs, has just reported to the House, and it is understood, come to a conclusion on the subject, and will shortly report back a bill embodying its views as to the proposed legislation which is needed in the matter. The bill, which is the basis of the report, is a bill to amend the Utah Territorial laws, which have been illegally invested with all the powers of a State, and to provide for the common law and equity jurisdiction, will be forbidden to exercise such powers, and confined strictly to their legitimate duty, that of probate matters. The United States Attorney and the United States Marshal are to be the prosecuting and executive officers of the district courts, not only in cases arising under the United States laws, but also under those of the Territory. This is a higher and more reasonable reason than the palpable reason that if the Mormon law be enforced, the order of the federal or district courts they should completely fail to carry into execution any judgment issued by such courts that might happen not to be to their liking. Give the power to enforce the laws and they would care very little what the nature of those laws might be. The order of their theocratic leaders would be higher than the mandates of any Federal Court. The manner of voting will be so guarded that the ballot will be secret and the voter will be enabled to exercise his privileges without the restraining influences now exercised by the dread of Brigham's displeasure should he vote against the Mormon law. In the present mood in Utah the ticket deposited in the ballot box has a number placed on it corresponding with that of the voter on the poll list, and can be easily ascertained how each person voted at any election. The woman suffrage will be allowed to remain as it is, with the protection of the secret ballot, their influence will be thrown against the Mormon leaders and their polygamous practices. The bill, when reported, will be pressed to early action, in order that the District Courts in Utah may at once commence to clear their dockets of the large number of suits, many of which involve large interests, now pending before them, all proceedings on which have been brought to a stand by the fact that in the present state of judicial affairs in that Territory no legal jury, either grand or petit, can be empaneled."

The above was probably instigated by the federal officers ostensibly "for Utah," but now and for some time past, absentees from their places of duty, and logrolling and lobbying in Washington in the hope of obtaining special legislation, prospectively discriminating against nine-tenths of the inhabitants of the Territory, because of their religion.

The Herald correspondent, unwittingly or unwittingly, in the above dispatch, tells outrageous lies and makes gross misstatements, some of which we will here nail to the wall.

1. That the "Mormon" probate courts are invested, legally or illegally, with all the powers of district courts.

2. That "McKean" executive officers set at defiance legitimate decrees of the U. S. courts.

3. That the orders of religious leaders are superior to the legitimate mandates of the courts.

4. That nobody dare vote as he thinks best.

5. That all Federal court proceedings have been brought to a stand because no legal jury, grand or petit, can be empaneled in the Territory.

LEGAL JURIES, GRAND AND PETIT.

Legal Juries, grand and petit, are empaneled, and juries are indicted and tried in two of the three judicial districts of the Territory. But in the third district, Chief Justice McKean refuses to have grand and petit jurors empaneled, because he would rather make a record against himself than to have a grand jury and a petit jury empaneled, giving the procurement of justice wholly into the hands of Federal officials. But even that obstructive judge, with all his bigotry, consciousness of a low pettiness, to be empaneled according to law for the trial of civil cases, thereby justifying his own prejudiced decision in opposition to the empanelling of juries. This shows that the majority of the federal judges in all the three districts, and in all the three counties, are empaneled in Utah, and giving the direct factual lie to statements that they can not be empaneled.

If legal proceedings have been brought to a stand in the county of Utah, it has been caused, directly and indirectly, by the refusal of former judges, and of the present Chief Justice McKean in particular, to honestly administer the laws of the Territory; by their determination to ignore both Territorial laws and Territorial officers, and arrogate, not only supreme, but exclusive jurisdiction to United States laws and United States officials, excluding where the Territorial laws could be applied from their jurisdiction; and by the repeated refusal of the Supreme Court of the United States, of Chief Justice McKean's rulings and orders, and judicial policy. These are the facts—the contrary are the lies and misrepresentations.

UNCONSTITUTIONAL AND ILLEGAL.

The Herald of this city, in the following timely extract from Mr. J. H. Barrett's *Life, Speeches, and Public Services of Abraham Lincoln*, the extract being a portion of a speech delivered by Mr. Lincoln at Springfield, Illinois, June 26th, 1857, in reply to Stephen A. Douglas, and in which the "Little Giant" certainly had the worst of the argument:

"I begin with Utah. If it prove to be true as is probable, that the people of Utah are in open rebellion against the United States, then Judge Douglas is in favor of repealing their Territorial organization, and attaching them to the adjoining States for judicial purposes.
