

portion of the Russian troops held Yngshu, south of Yantai, and that Gen. Kuroki right in close touch with the Russians. He announces also that the left and center Japanese armies under the command respectively of Gen. Oka and Gen. Nishida have halted on the left bank of the Taitei river, and that it is his intention to dispatch a portion of them to occupy the heights north of Mukden and along the railroad.

BRIDGES WERE TURNED.
Gen. Kuroki turned the railroad and other bridges over the Taitei river.

The report says that the exact number of Japanese losses is not known at present, but that casualties lists are being compiled. The field marshal predicts that the losses will prove heavy.

The report does not mention the number of guns taken, but it is known that sixteen guns were captured at Amung and Amshanshan, and earlier reports mentioned the capture and use against the railroad station at Liao Yang of certain 100 millimeter Canon guns.

JAPANESE FEEL GOOD.

Field Marshal Oyama says also that in spite of continuous attacks for 15 days against an enemy occupying seemingly permanent fortifications and the heavy resultant sacrifices, that the spirit of devotion and determination of the Japanese troops is excellent.

Gen. Kuroki, according to report, continued to receive reinforcements until Aug. 15, and his final strength consisted of at least 12 full divisions.

DESPERATE OPPOSITION.
The losses sustained by the Russians are not known to the Japanese field force.

Gen. Kuroki encountered desperate opposition in the battle on the heights to the west of Holyingai, where he fought continuously and heroically for four days before he succeeded in dislodging the Russians.

It is manifest that the stubbornness of the Russian defense at Holyingai saved the Russian line of retreat and averted an overwhelming disaster.

RUSSIAN PRESS.

What Papers Have to Say Regarding the Defeat.

St. Petersburg, Sept. 6 (4:08 p. m.).—While insisting that Marshal Oyama missed his main object at Liao Yang, most of the Russian papers do not disguise their profound disappointment over the result of the battle of Liao Yang.

The Russian Invalid, organ of the army, however, is of the opinion that Gen. Kuroki both strategically and technically got everything possible out of Liao Yang, saying:

"It enabled him to win with an army very much superior to his. Field Marshal Oyama was compelled to waste several tens of thousands of men to capture a position which is of no importance now that Kuroki has left. It is evident that Oyama's plans miscarried since he failed to surround and inflict a decisive blow on the Russian army."

The other view presented by the Russ is as follows:

"The fact that Kuroki was compelled to leave Liao Yang has not only military but political significance. It is no use concealing the fact that the evacuation of Liao Yang was a surprise for the Russian. Everybody was led to believe that the hour had arrived for a decisive struggle. It was thus we interpreted Kuroki's telegram saying the men were thirsting for an opportunity to meet the foe. Desiring our hopes means a prolongation of the campaign. The moment for taking the offensive has not indefinitely postponed. This will inevitably influence the fate of Port Arthur and the further development of the Japanese operations. The evacuation of Liao Yang will have an effect upon China, which already is in a state of nervous tension under the influence of Japanese agitation. The Japanese, of course, will use their best to restore Mukden to China and Chinese foot soldiers. We cannot deceive ourselves any longer with the idea that by retreating into the heart of Manchuria we are gaining time and adding to our forces, whereas the Japanese are lengthening their line of communications and therefore losing strength. Our ideas of the military strength of Japan were far from correct. It is now known that they can increase their forces at any success. We fully believe in our ultimate success, but it is idle to blink at facts. We shall have to make heavy sacrifices in order to protect the vital interests of the empire."

WAR OFFICE TRANQUIL.
Is Not Greatly Disturbed by Japanese Aggressive Tactics.

St. Petersburg, Sept. 6 (3:08 p. m.).—Apparently the war office is not greatly disturbed by the fact that Field Marshal Oyama will cut off Gen. Kuroki before he reaches Mukden. According to the latest edition of the Russian retreat is being effected in good order. The heads of transport trains passed through Mukden yesterday at noon and the fact that the baggage trains continued on their way toward the Taitei river, the war office explains does not mean that Kuroki is bound further north at this time, but is simply a natural precautionary measure, even if he intended to retreat. The Russian army during the operations of an army located the baggage train 14 miles and the ambulance corps four miles in the rear of the main body of troops.

The news from the front indicate that Oyama, having failed to surround Kuroki at Liao Yang, is pressing Kuroki's rear with all the power of his tired troops, while pushing forward a column which crossed the Taitei river at Benhu, 30 miles northeast of Liao Yang and five miles east of Yantai station, in the hope of cutting the Russian line of retreat below Mukden.

This column may consist of fresh troops in light marching order. The Benhu road joins the main road from Yantai, where the latter is intersected by the Hun river, three miles below Mukden.

Mukden. Once this point is passed Kuroki's army will have the Hun river between it and Oyama. The only uneasiness is due to the possibility that Japanese light draft gunboats which, according to reports, are coming up from Neuchang might suddenly make their appearance, the river being navigable to this point.

As Kuroki was just north of Yantai when the heads of the transport, the Russian foreign minister, it is evident that the retreating column is over 13 miles long.

RUSSIA'S REPLY.

On Point of Making Concessions In Contraband Controversy.

London, Sept. 6.—The preliminary representations made by Count Benckendorff, the Russian ambassador to the point of office, indicates that Russia is in a position to make substantial concessions to the United States and Great Britain regarding the question of contraband of war, as a result of the submission by Foreign Minister Lansdowne of the report of the general committee to Emperor Nicholas today, together with information transmitted by Ambassador Benckendorff showing the views of the British government. The Russian foreign minister is expected to present to the British government through Sir Charles Harding, the British ambassador to Russia, tomorrow the formal reply of the Russian government, which is understood in official circles here that Russia while not acknowledging herself at fault for the captures, made by her ships in the past, will more specifically describe the conditions under which certain goods such as foodstuffs and cotton become in her view contraband.

The British foreign office is satisfied from the representations made to it that much substantial concessions will be made by Russia as will lead to an easy settlement of the vexatious question.

HEAVY FIGHTING.

Japanese Pressing Along Ridges And Harassing the Russians.

Yantai, Monday, Sept. 5.—(Delayed in transmission.)—There was heavy fighting northeast of this place today. The Japanese troops are now pressing northward along the ridges east of the railway and several skirmishes have already taken place within 20 miles to the southeast of Mukden. The Russians are holding Gen. Kuroki back at Liao Yang while their main army is proceeding north.

FRITHJOF SIGHTED.

Ziegler Relief Expedition Heard From in Northern Seas.

Hammerfest, Norway, Sept. 6.—The Norwegian steamer Vinokla, which has arrived here, reports that she met the Ziegler relief expedition steamer Frithjof August 27 in latitude 79 north and longitude 42 east. The Frithjof up to that time had been unable to reach Franz Josef land.

The Frithjof, having on board the Ziegler relief expedition, which arrived at Vardø, Norway, Aug. 4, after an unsuccessful attempt to reach their former America bearing the Ziegler Arctic expedition party, sailed from Vardø Aug. 5 for Franz Josef land, with coal and supplies in regard to the steamer from Tromsø, Norway, for Franz Josef land on June 23, 1903.

Record Fair Attendance.
St. Louis, Sept. 6.—All attendance records of the Louisiana Purchase exposition were broken yesterday, when 207,454 persons passed through the gates. This number, it is stated, exceeded the attendance on Labor day at the Columbian exposition, when 195,888 visitors were registered by the turnstiles. Fifteen thousand members of military organizations, the Woodmen, Lumbermen and other bodies encamped on the fair grounds are not included in the total mentioned.

Trades Union Congress.

Leeds, Eng., Sept. 6.—The trades union congress decided at today's session to send a delegation north a fraternal greeting to the International Peace congress to be held in Boston.

The congress also adopted the following resolution:

"That in the opinion of this congress the time has arrived when a minister of labor should be appointed, with cabinet rank, to whom would be entrusted the administration of labor enactments and who would also collect and use such information as the various consuls could supply in regard to labor legislation abroad and would be responsible for taking the initiative on questions such as the adoption of new machinery or in respect to such action as the attempted cornering of raw material, so necessary to our industrial prosperity."

Confers With President.

Oyster Bay, N. Y., Sept. 6.—Attorney-Gen. Moody arrived here today to confer with the president regarding both government and political matters in which they are interested.

END OF STRIKE NOW IN SIGHT.

Settlement of Stock Yards Difficulty Probably a Matter of A Few Hours.

TO BE SUBMITTED TO UNIONS.

Allied Trades Council Decides Today To Pass Matter Up to the Various Organizations.

Chicago, Sept. 6.—The Allied Trades council decided today to submit to the unions the proposition for a settlement of the stockyards strike.

The beginning of the end of the stockyards strike came early this morning when, according to the packers, more than 1,000 of the strikers applied for their old jobs and were taken back. Men began to seek work a few hours before the time set for a meeting of the Allied Trade conference board, which, representing 22 trades involved in the strike, was, as seemed to be the general impression, to consider the question of submitting to the unions whether the strike should be called off or not. There was talk among the strikers at the yards about "terms of settlement." Officials of the packing companies, however, declared that no terms of settlement had been reached, that strikers applying for their old places would be reinstated without discrimination, but no agreement would be made with the union.

Meetings of all local unions involved had been called for today to hear the result of the deliberations of the Allied Trades board. But many of the men who have been idle for eight weeks feared to await their action. So it was that a thousand applied for work. Expecting all would be ordered by their unions to go back tomorrow they went today to make sure of their places.

ALLIANCE RESTRAINED.

Salt Lake Judge Issues Injunction in Cripple Creek Case.

Denver, Sept. 6.—Judge John A. Marshall, in the United States district court today granted the application of the Inter-State Mercantile company, a Montana corporation, for a temporary injunction restraining the members of the Citizens' alliance and Mine Owners' association of Teller county from interfering with its business in the Cripple Creek district. The Inter-State company acquired the union store formerly conducted by the Western Federation of Miners in Cripple Creek, and it was raided and wrecked by a mob on the night of Aug. 20. The hearing was continued until Sept. 20.

Olney Calls on Parker.

Rossmore, N. Y., Sept. 6.—Richard Olney of Massachusetts arrived at Rossmore today to confer with Judge Parker regarding the national political situation. Henry W. Callahan, a member of the faculty of the University of Colorado, made an early morning call at Rossmore. He came to renew acquaintance.

LECTURE ON "PEACE."

Mrs. Emmeline B. Wells Talks to Relief Society Workers.

The Liberty Stake Relief Society conference convened in the Second ward meetinghouse last Saturday, with Annie S. Musser presiding, and all the stake officers present. Bathsheba W. Smith, Annie T. Hyde and Emmeline B. Wells of the general board, and other prominent workers, were present.

A brief lecture was given by Emmeline B. Wells on the subject of "Peace," and many instructive, and encouraging remarks were made by Sisters Bathsheba W. Smith, Annie T. Hyde, E. Webb, E. J. Stevenson and Sister Klumb.

Mrs. Maggie Hill rendered two beautiful solos, and all present had an enjoyable time.

CHEAPER PAVING.

An Improvement That Promises to Extend Far Into the Residence Section.

Unless all signs fail Salt Lake City will in the near future do more street paving than it has ever done in the past; and that, too, in the face of the fact that this is a presidential year and subject to all of the disturbances that attach to years of that kind. By this it is not meant that any great amount of paving is to be done this year. But it is evident that conditions are so shaping themselves that a great deal of it must extend far out into the residence sections on some of the principal thoroughfares. This statement should not, and probably will not, frighten property owners when they know the facts. On the contrary it will doubtless cause them to make favorable inquiry into facts that promise to greatly reduce the

Investigation. It is officially claimed, has made it certain that Salt Lake has almost at its very doors native material that has been tested and proved to be an absolute demonstration, so much better than the materials that are now being used, that there is scarcely room for comparison. And the matter is being discussed in a very earnest manner. It will doubtless receive careful and proper consideration. It is stated that the cost of the paving project is hardly more than one-third of the present cost. The claim is made in all soberness and appears to be based upon facts. LOST—A HUBBY.
Colorado Woman Asks the Sheriff to Assist in Finding Him.

Sheriff Emery this morning received a letter from Mrs. Lillian Friend of Gunnison, Colo., in which she asks him to help her find her husband, L. B. Friend, who left her eight weeks ago and has not been heard from since. She says that her husband is a swayer and also a miner and will probably be engaged in one of those occupations. She has four small children to support and she is very anxious to locate her missing husband.

THE PARKERS DIVORCED.

Judge Lewis granted Lavina Parker a divorce this morning from Edward Parker on the grounds of desertion and failure to support. They were married in this city on June 14, 1903, and a month later defendant deserted plaintiff. Plaintiff, Lavina Parker, of Wadsworth, was restored to her by the decree.

M'CREADY MISSED IT.

Judge Lewis today rendered judgment on the pleadings in favor of defendant in the case of John M'Creedy against the Rio Grande Western Railway company. The action was brought to recover a certain sum of money paid out by plaintiff in defending a suit brought against him by the railroad company and which was dismissed by the company after the trial had been commenced. The company demurred to plaintiff's complaint on the ground that the same did not state a cause of action. The demurrer was sustained by Judge Lewis and plaintiff was given time in which to amend. He chose, however, to stand on the complaint as it was and the court ordered judgment rendered in favor of defendant and ordered plaintiff's complaint dismissed.

ANOTHER APPOMATTOX.

Local War Experts Believe That It Will Be Fought North of Mukden.

Local observers are comparing the flight of Kuroki and his pursuit by Lee of Lee of Petersburg, and his pursuit along the Appomattox creek in the direction of Amelia court house. Kuroki appears to push the pursuit of Kuroki with all the vigor and pertinacity of Gen. Grant in his successful effort to head Lee off from escaping to the southwest and uniting with Joe Johnston, and it is claimed that there will be another Appomattox north of Mukden.

UTAH RIVER STATISTICS.

Interesting Figures Compiled by the Utah Geological Survey.

The following river statistics have been tabulated in the offices of the Geological survey in this city, and will prove interesting reading to the people of this state:

Bear river, highest stage, or maximum flow this season, June 15, 2,650 second feet, now normal flow at 250 second feet.

Spanish Fork and Provo rivers, maximum flow, June 15, total flow 1,600 second feet; now all being utilized for irrigating purposes.

Sevier river, maximum flow, May 15, at Gunnison, 250 second feet; normal flow now 60 second feet.

Price river, maximum flow, May 15, being 200 second feet, now normal, at 20 second feet. There was a record breaking flow last week, but the department is not yet in possession of the figures.

Jordan river, steady flow all summer, giving 410 to 415 second feet at the pump house.

Logan river, maximum flow, June 1, being 2,000 second feet; now above the normal and running 240 second feet.

Weber river, maximum flow, May 15, at Plain City, 4,635 second feet. The measurement of this river is furnished from the state engineer's office as the government engineers have not been measuring the river.

Of the Weber between June 1, 1903, and June 1, 1904, amounted to 738,827 acre feet.

Salt Lake always takes such a keen interest in Mr. Henry Miller and his productions, that it was a matter of general regret last night that his visit should have fallen on a Labor day, when the warm weather and the host of out of town attractions contributed to hurt the attendance. Mr. Miller's friends were out in force on the lower floor but in the upper regions the turnout was light. More than usual interest attached to last night's production, not only because Mr. Miller headed the cast, but because the play of "Joseph Entangled" was a entirely new production, which even New York has not yet beheld. Because Miss Hilda Spang, who left such a charming impression in "Lily Hawthorn's Experiment," and also because Miss Jessie Busby, another New York actress, climbing rapidly to fame, were members of the cast. In the part of the entangled Joseph, who innocently—rather to his regret—was placed in a compromising position with Lady Verano, Mr. Miller played with his old time grace and charm, though it cannot be denied that many in the audience prefer to see him in the part of the thoroughly serious and sentimental lover, rather than in one of a high comedy style. His love-making, however, was as artistic as it was possible to be. Miss Spang was as finished and handsome as she ever was in the part of Lady Verano, and she attempted to get away from him and in climbing through the fence at the track she hit her head against a board and bruised the side of her face very badly, causing her to faint. SCHOOL BOARD MEETING.

Will Be Held Tonight for the Transaction of Important Business.

Tonight the regular monthly meeting of the board of education will be held and a large amount of business will be transacted preparatory to the opening of the city schools next Monday, Sept. 12. The assignment of teachers among the various schools as made by the committee on teachers and school work will be approved by the board.

The principals of all the schools will be at their offices on Wednesday, Thursday and Friday, from 10 to 12 o'clock in the forenoon and from 2 to 4 o'clock in the afternoon, to receive pupils and their parents in regard to the courses so that there will be no delay in getting started on the regular studies when school opens.

The teachers of the schools will meet in the east room of the new Lafayette school on Saturday morning at 10 o'clock at which time State Supt. of Schools Nelson and City Supt. Christensen will be the principal speakers.

COUNTY TEACHERS.

There will be a meeting of teachers in the county schools on Saturday morning at 10 o'clock in the Latter-day Saints college. County Supt. of Schools Nelson and City Supt. Christensen will be the principal speakers.

POLITICAL POINTERS.

(Continued from page 1.)

will be elected by one of the largest votes ever cast for a Republican nominee in this state.

The Democratic district primary of the Eleventh district will be held this evening at the residence of J. R. Fletcher, 575 Third street and that of the Twelfth district at the home of James Dinwoodey, 556 South West Temple street.

State Senator Ed Loose, national committee man of the Utah Republican party goes east on business tomorrow. While away he will meet with the committee and also attend to some personal business.

It is stated that several members of the so-called Kerns contingent held a secret meeting yesterday afternoon and considered the propriety of organizing an "American" party whose mission is "to fight the Church to the death." That is about all that is known of it to date.

Ex-Congressman King is expected home from New York this afternoon or tomorrow by the latest.

Supporters of James H. Moyle were confidently claiming today that he would be nominated for governor on the first ballot.

The Democratic primaries to elect delegates to the state convention will be held in all voting precincts of Salt Lake county at 8 o'clock tonight. The apparent discontent in the Republican ranks has cheered the Democratic hosts mightily and enthusiastic primaries are looked for as a result. Besides this the organization effected by the leaders is strong and far reaching this year, and the situation is given much zest and interest on this account. Salt Lake county is entitled to 124 delegates to the convention, which will meet Thursday forenoon in the Salt Lake Theater.

The Democratic primary for the Forty-second district will be held at the residence of Orson Allen, 830 First street.

The Democrats of the Forty-eighth district will hold their primary tonight at the residence of C. P. Overfield, 516 east First South street.
